MAINTENANCE

To ensure the longevity and optimal performance of your device, adhere to these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to gently clean the screen and body of your device. Avoid using abrasive materials or harsh chemical cleaners, which can damage the finish.
- **Software Updates:** Regularly check for and install the latest software updates. These updates often include performance improvements, new features, and critical security patches. Navigate to *Settings > Software update > Download and install*.
- **Storage Management:** Periodically review and clear unnecessary files, applications, and media to free up storage space. This helps maintain device speed and responsiveness.
- **Water Resistance:** The device carries an IP68 rating for water and dust resistance. While it can withstand splashes and brief immersion, avoid intentional submersion in water, especially saltwater. Always ensure all ports are completely dry before connecting any cables for charging or data transfer.

TROUBLESHOOTING

If you encounter common issues with your device, try the following solutions before contacting support:

- **Device Unresponsive:** If the device is frozen or unresponsive, perform a forced restart by pressing and holding the Power/Side key and Volume Down key simultaneously for more than 7 seconds.
- **Battery Draining Quickly:** Review your background app usage in Settings, reduce screen brightness, and disable features like Wi-Fi, Bluetooth, or GPS when they are not actively in use.
- **Network Connectivity Issues:** Ensure your SIM card is correctly inserted. Try restarting the device or resetting network settings (*Settings > General management > Reset > Reset network settings*).
- **App Crashes:** For problematic applications, try clearing their cache and data (*Settings > Apps > [App Name] > Storage > Clear cache / Clear data*). If the issue persists, reinstall the app.
- **Factory Reset:** As a last resort for persistent software issues, you can perform a factory data reset (*Settings > General management > Reset > Factory data reset*). **Warning: This action will erase all data on your device. Ensure you back up all important data before proceeding.**
