Maupvit Shoe Storage Cabinet User Manual

Model: B0F7LRNH21

INTRODUCTION

This manual provides essential information for the assembly, operation, and maintenance of your Maupvit Shoe Storage Cabinet. Designed with smooth fluted sliding doors and a 5-tier storage system, this cabinet offers an elegant and functional solution for organizing footwear in entryways, living rooms, or other spaces. Its natural wood grain design and adjustable shelves accommodate various shoe types, from sneakers to boots, ensuring efficient and stylish storage.

KEY FEATURES

The Maupvit Shoe Storage Cabinet is designed with several key features to enhance its functionality and aesthetic appeal:

- **Smooth Fluted Sliding Doors:** Features Maupvit's "More Smooth with Use" technology, where polished and waxed wood ensures smoother operation over time.
- **Large Storage Capacity:** Includes 5 internal tiers for shoes, a top surface for display, and a heightened bottom space for slippers.
- **Adjustable Shelves:** Four of the internal shelves offer 3 adjustable heights, accommodating various shoe types and sizes.
- **Elegant Wood Texture:** Natural wood grain design with randomly distributed textures adds a modern and natural aesthetic.
- **Metal Handles and Support Legs:** Durable metal handles provide comfortable grip, and high-strength metal

feet with rubber pads ensure stability and floor protection.

IMPORTANT SAFETY INFORMATION

Always follow the assembly instructions carefully. Be cautious when opening and closing the sliding doors to avoid injury. Ensure the cabinet is stable and properly secured to prevent tip-over incidents, especially in households with children or pets.

SETUP AND ASSEMBLY

The Maupvit Shoe Storage Cabinet requires assembly. Please ensure all components are present before beginning. Refer to the included assembly instructions for detailed, step-by-step guidance. It is recommended to assemble the cabinet on a soft, clean surface to prevent scratches.

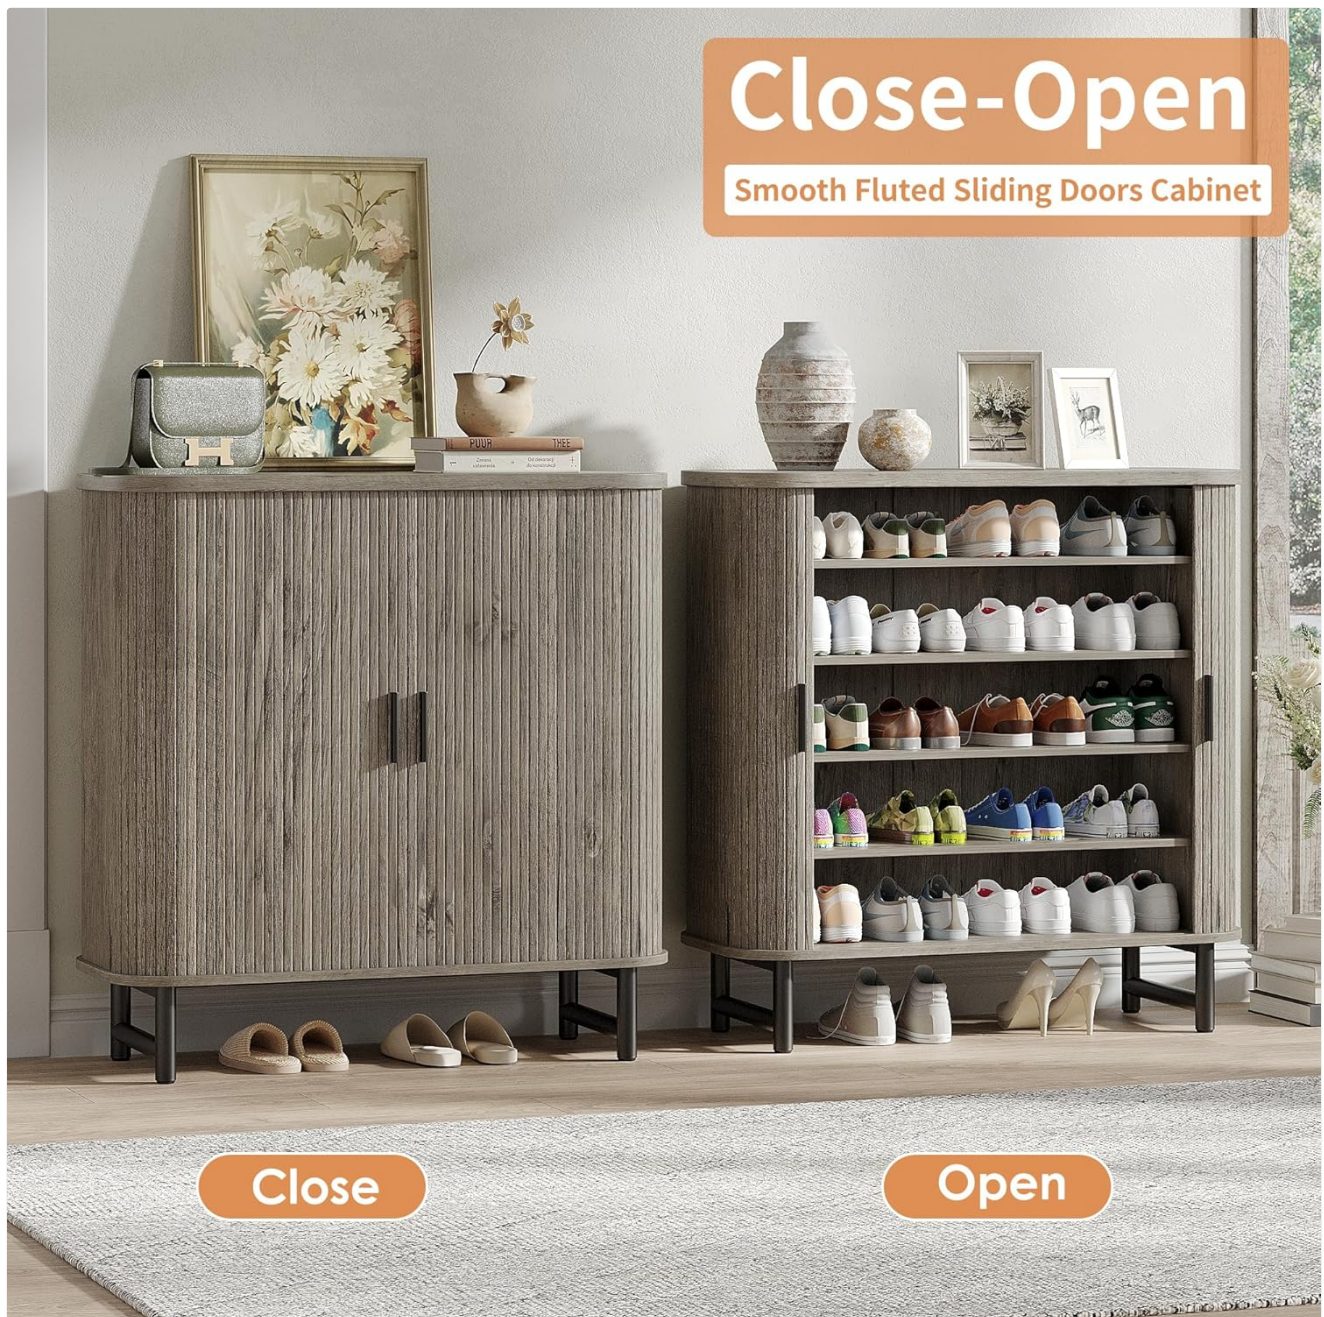

Figure 3: Assembly steps and tip-over prevention. This diagram illustrates how to secure the cabinet to a wall using anti-tip hardware to prevent accidental tipping, ensuring family safety. Follow the drilling and mounting instructions carefully.

The assembly process is designed to be straightforward. Ensure all screws and fasteners are tightened securely for stability. For optimal safety, utilize the provided anti-tip hardware to anchor the cabinet to a wall.

OPERATING INSTRUCTIONS

Smooth Fluted Sliding Doors

The cabinet features smooth fluted sliding doors designed for ease of use. The wood board is polished and waxed, allowing the doors to become smoother with increased use. To open, gently slide the door along its track. To close, slide it back until it meets the other door, concealing the contents.

Figure 4: Cabinet in closed and open positions. This image demonstrates the appearance of the cabinet with its doors closed, providing a neat facade, and with its doors open, revealing the internal storage shelves.

Adjustable Shelves and Storage Capacity

The cabinet offers a versatile storage solution with five layers of internal space behind the sliding doors. Four of these shelves are adjustable, each providing three height options to accommodate various shoe sizes and types, including sneakers, high-top shoes, high heels, and even boots. The second shelf is fixed for structural stability.

size

Figure 5: Dimensions and adjustable shelf details. This diagram provides precise measurements of the cabinet and illustrates the adjustable nature of the internal shelves, highlighting the three possible height settings for each movable partition.

To adjust a shelf, carefully lift it and reposition it into the desired slot. You can also remove partitions entirely to create larger compartments for taller items. Additionally, there is a top storage space suitable for displaying ornaments or handy items, and a special heightened space at the bottom for slippers or frequently used shoes, which also facilitates easy cleaning underneath.

Figure 6: Internal storage capacity. This image shows the cabinet with its doors fully open, revealing multiple pairs of shoes neatly organized on the adjustable shelves, demonstrating its ample storage capabilities.

MAINTENANCE

The surface of the Maupvit Shoe Storage Cabinet is smooth and moisture-proof, making it easy to clean. For general cleaning, wipe the cabinet with a soft, damp cloth. Water stains can be easily removed with a rag. Avoid using harsh chemicals or abrasive cleaners, as these may damage the finish.

The sliding doors are designed to become smoother with use due to the polished and waxed wood. If the doors become stiff over time, a small amount of furniture wax or silicone spray applied to the tracks (not the fluted surface) may help maintain smooth operation. Regularly check all fasteners and tighten them if necessary to ensure the cabinet remains stable.

TROUBLESHOOTING

- **Doors not sliding smoothly:** Ensure the tracks are clean and free of debris. The doors are designed to become smoother with use; however, if persistent, apply a small amount of furniture wax or silicone spray to

the top and bottom tracks.

- **Cabinet feels unstable:** Verify that all assembly screws are fully tightened. Ensure the cabinet is placed on a level surface. If instability persists, re-check the assembly instructions and ensure the anti-tip hardware is correctly installed and secured to a wall.
- **Missing parts during assembly:** Carefully check all packaging materials. If parts are still missing, contact Maupvit customer support with your purchase details.

SPECIFICATIONS

Feature	Detail
Brand	Maupvit
Color	Grey
Product Dimensions	14.76"D x 35.43"W x 36.22"H
Special Feature	Lockable
Mounting Type	Floor Mount
Room Type	Entryway
Door Style	Modern
Finish Type	Polished
Number of Doors	5
Base Type	Legs
Installation Type	Freestanding
