

GHCFWKU H016A

GHCFWKU H016A Lithium Vacuum Battery 2500mAh for Honiture S15 Cordless Vacuum Cleaner - Instruction Manual

1. INTRODUCTION

This manual provides essential instructions for the safe and effective use of your GHCFWKU H016A Lithium Vacuum Battery. This 2500mAh high-capacity battery is designed as a replacement for the Honiture S15 Cordless Vacuum Cleaner, ensuring extended operation and reliable performance. Please read this manual thoroughly before installation and use.

2. SAFETY INFORMATION

To prevent injury or damage to the battery and vacuum cleaner, observe the following safety precautions:

- Do not disassemble, open, or shred the battery pack.
- Do not expose the battery to heat or fire. Avoid storage in direct sunlight.
- Do not short-circuit a battery pack. Do not store battery packs haphazardly in a box or drawer where they may short-circuit each other or be short-circuited by conductive materials.
- Do not expose the battery to mechanical shock.
- In the event of a battery leaking, do not allow the liquid to come into contact with the skin or eyes. If contact has been made, wash the affected area with copious amounts of water and seek medical advice.
- Keep batteries out of the reach of children.
- Seek medical advice immediately if a cell or battery has been swallowed.
- Always dispose of batteries properly at designated recycling points. Do not dispose of with household waste.

3. PACKAGE CONTENTS

Your package includes:

- 2 x GHCFWKU H016A Lithium Vacuum Batteries (2500mAh)

Please inspect the contents upon receipt to ensure all items are present and undamaged.

4. SETUP AND INSTALLATION

Follow these steps to install the replacement battery into your Honiture S15 Cordless Vacuum Cleaner:

1. **Power Off:** Ensure your Honiture S15 vacuum cleaner is completely powered off and unplugged from any charging source.
2. **Locate Battery Compartment:** Identify the battery compartment on your vacuum cleaner. Refer to your vacuum cleaner's original manual if unsure.
3. **Remove Old Battery:** Depending on your vacuum model, there may be a release button or screws securing the old battery. Carefully remove the old battery.
4. **Insert New Battery:** Align the GHCFWKU H016A battery with the compartment and slide it into place. Ensure the electrical contacts match correctly.
5. **Secure Battery:** Press firmly until the battery clicks into place, or re-fasten any screws if applicable. Ensure the battery is securely seated and does not wobble.

Your vacuum cleaner is now ready for initial charging.

5. OPERATING INSTRUCTIONS

The GHCFWKU H016A battery is designed for seamless operation with your Honiture S15 vacuum cleaner.

- **Initial Charge:** For optimal performance, fully charge the battery before its first use. Connect your vacuum cleaner to its original charging adapter.
- **Charging:** The battery will charge when the vacuum cleaner is connected to its charger. Refer to your vacuum cleaner's manual for charging indicators and estimated charging times. The 2500mAh capacity ensures a fast charging speed and long battery life.
- **Usage:** Operate your vacuum cleaner as usual. The 2500mAh capacity provides extended runtime for longer cleaning sessions.
- **Discharge:** It is generally recommended to allow the battery to discharge significantly before recharging to maintain battery health, though modern lithium-ion batteries are less susceptible to 'memory effect'.

6. MAINTENANCE

Proper maintenance extends the life of your battery:

- **Cleaning:** Periodically wipe the battery's exterior and electrical contacts with a dry, clean cloth to remove dust and debris. Do not use liquids or abrasive cleaners.
- **Storage:** If storing the battery for an extended period, ensure it is partially charged (around 50%) and stored in a cool, dry place away from direct sunlight and extreme temperatures. Avoid storing fully charged or fully depleted.
- **Avoid Over-Discharge:** While the vacuum cleaner's system should prevent over-discharge, try to recharge the battery before it is completely depleted to prolong its lifespan.

7. TROUBLESHOOTING

If you encounter issues with your battery, consider the following:

- **Battery Not Charging:**
 - Ensure the battery is correctly installed in the vacuum cleaner.
 - Verify the charging adapter is properly connected to both the vacuum and a working power outlet.
 - Check the charging contacts on both the battery and the vacuum for any obstructions or damage.
- **Short Runtime:**
 - Ensure the battery is fully charged before use.
 - Battery performance can degrade over time with extensive use.
 - Operating the vacuum in 'Max' or 'Boost' mode will consume battery power faster.
- **Battery Not Fitting:**
 - Confirm that the battery model H016A is compatible with your specific Honiture S15 vacuum cleaner model.
 - Ensure there are no obstructions in the battery compartment.

If problems persist, please refer to the 'Warranty and Support' section.

8. SPECIFICATIONS

Feature	Specification
Model	H016A
Battery Type	Lithium
Capacity	2500mAh
Voltage Rating	25.9V
Compatibility	Honiture S15 Cordless Vacuum Cleaner

Origin

China
