TIMU Wallet Tracker

Instruction Manual

Introduction

Thank you for choosing the TIMU Wallet Tracker. This device is an Apple MFi Certified Bluetooth smart finder designed to help you locate your valuables, such as wallets, bags, keys, and passports, using the Apple Find My network. It features wireless charging, a loud buzzer, and an IP68 waterproof rating for durability and convenience. This manual provides detailed instructions for setup, operation, and maintenance to ensure optimal performance.

Setup

Package Contents

- TIMU Wallet Tracker (2 units for 2-Pack)
- Instruction Manual

Device Activation

To activate your TIMU Wallet Tracker, press and hold the function button on the device for 5 seconds. The device will emit a sound or light indicator to confirm activation.

Pairing with Apple Find My

1. Ensure your iPhone, iPad, or Mac is running the latest iOS/iPadOS/macOS version and has Bluetooth enabled.
2. Open the "Find My" app on your Apple device.
3. Navigate to the "Items" tab.
4. Tap "Add New Item (+)".
5. Select "Add Other Item".
6. Follow the on-screen prompts to connect your TIMU Wallet Tracker. The device should appear in the list of discoverable items.
7. Once connected, you can name your tracker and assign an emoji for easy identification.

Note: This device is designed for iOS devices only and is not compatible with Android.

Operating Instructions

Locating Items Nearby (Sound Alert)

When your item is within Bluetooth range, you can use the "Find My" app to play a sound on your TIMU Wallet Tracker. The built-in 120-decibel buzzer will emit a loud alert, helping you pinpoint its exact location, even if it's hidden under cushions or in a drawer.

Figure 3: Using the 120dB sound alert to locate your wallet tracker.

Locating Items Remotely (Map Navigation)

If your item is out of Bluetooth range, the Apple Find My network can help. The network uses millions of Apple devices worldwide to anonymously detect your tracker's location and report it back to your "Find My" app. You can then view its last known location on a map and get directions to it.

Figure 4: Remote tracking via the Apple Find My network.

Left-Behind Reminders

Configure "Left-Behind Reminders" in the "Find My" app to receive an alert on your Apple device if you leave your tracker (and the item it's attached to) behind at an unfamiliar location. This feature helps prevent accidental loss.

Figure 5: Left-Behind Reminder notification.

Siri Integration

You can use Siri to locate your items. Simply say, "Hey Siri, find my [item name]," and Siri will play a sound on your tracker if it's nearby, or show you its location on the map.

Maintenance

Wireless Charging

The TIMU Wallet Tracker supports Qi wireless charging. To charge the device, place it on a compatible Qi wireless charging pad. Align the charging symbol on the tracker with the charging pad. A light indicator on the tracker will show its charging status (e.g., red for charging, green for full). A full charge can last up to 1 year.

Figure 7: Wireless charging of the TIMU Wallet Tracker.

Note: A wireless charger is not included with the product.

Water and Dust Resistance

The tracker features an IP68 rating, meaning it is resistant to dust and can withstand submersion in water up to 1.5 meters for 30 minutes. This makes it suitable for use in various environments and protects against splashes and brief accidental submersion. However, it is not intended for prolonged underwater use.

Troubleshooting

Issue	Possible Cause / Solution
Tracker not pairing with Find My app.	◦ Ensure the tracker is activated (press and hold the function button for 5 seconds). ◦ Verify Bluetooth is enabled on your Apple device. ◦ Make sure your Apple device is running a compatible iOS/iPadOS/macOS version. ◦ Try restarting your Apple device and the tracker.
Sound alert is too faint or not audible.	◦ The sound may be muffled if the tracker is deeply embedded in an item or covered. Try to narrow down the location first. ◦ Ensure there are no obstructions directly over the tracker's speaker area.
Tracker continuously beeps unexpectedly.	◦ Check the "Find My" app for any active alerts or if the "Notify When Left Behind" feature is triggering. ◦ Ensure the tracker is not being moved excessively if it has a motion-sensitive alert enabled (if applicable, check app settings). ◦ If the issue persists, try resetting the tracker (refer to manufacturer's website for specific reset instructions if not in manual).

Issue	Possible Cause / Solution
Tracker not charging wirelessly.	◦ Ensure the tracker is correctly aligned with the Qi wireless charging pad. ◦ Verify the wireless charging pad is powered on and functioning correctly. ◦ Remove any thick cases or obstructions between the tracker and the charging pad.

Specifications

Figure 9: Slim design for easy wallet integration.

Feature	Detail
Model	B0F7QY1ZRQ
Dimensions	Approximately 3.78 x 2.95 x 0.67 inches (Package)
