SETUP AND INSTALLATION

Follow these steps to safely install the iScooter F7 replacement battery into your electric scooter.

1. **Power Off Scooter:** Ensure your iScooter F7 electric scooter is completely powered off and disconnected from any charging source.
2. **Locate Battery Compartment:** Refer to your iScooter F7 scooter's original manual to locate and open the battery compartment. This is typically found on the deck or stem of the scooter.
3. **Remove Old Battery (if applicable):** Carefully disconnect the old battery's connectors and remove it from the compartment. Note the orientation for correct installation of the new battery.
4. **Insert New Battery:** Place the new iScooter F7 battery into the compartment, ensuring it fits securely and correctly.
5. **Connect Battery:** Connect the battery cables to the scooter's power port. Ensure the connection is firm and secure.
6. **Close Compartment:** Securely close the battery compartment cover.
7. **Initial Charge:** It is recommended to fully charge the new battery before its first use. (Refer to the "Operating" section for charging instructions).

OPERATING INSTRUCTIONS

This section outlines how to properly charge and use your iScooter F7 battery.

Charging the Battery

Note: A charger is NOT included with this battery. You must use a compatible charger designed for the iScooter F7 Electric Scooter battery.

1. **Connect Charger:** Plug the compatible charger into a standard wall outlet.
2. **Connect to Scooter:** Connect the charger's output plug to the charging port on your iScooter F7 electric scooter.
3. **Monitor Charging:** The charger will typically have an indicator light (e.g., red for charging, green for fully charged). Monitor this light.
4. **Disconnect:** Once fully charged, disconnect the charger from the scooter first, then from the wall outlet. Avoid overcharging.

Using the Scooter with the New Battery

- Ensure the battery compartment is securely closed after installation.
- Power on your iScooter F7 electric scooter as per its original operating instructions.
- Monitor the battery level indicator on your scooter's display during use.
- Avoid completely draining the battery to prolong its lifespan.

MAINTENANCE

Proper maintenance will extend the life and performance of your iScooter F7 battery.

- **Regular Charging:** Charge the battery regularly, even if the scooter is not in frequent use. Avoid leaving it fully discharged for extended periods.
- **Storage:** If storing the scooter or battery for a long time, ensure the battery is charged to approximately 50-70% and stored in a cool, dry place away from direct sunlight.
- **Cleaning:** Keep the battery and its compartment clean and free from dust and debris. Use a dry, soft cloth for cleaning. Do not use water or harsh chemicals.
- **Temperature:** Operate and store the battery within recommended temperature ranges (typically 0°C to 40°C or 32°F to 104°F). Extreme temperatures can degrade battery performance and lifespan.

TROUBLESHOOTING

This section addresses common issues you might encounter with your iScooter F7 battery.

Problem	Possible Cause	Solution
Battery not charging	Charger not connected properly; Faulty charger; Battery issue	Ensure charger is securely connected to both wall and scooter. Test charger with another device if possible. If issue persists, contact support.
Scooter not powering on	Battery not installed correctly; Battery fully discharged; Battery fault	Check battery connections and ensure it's fully charged. If the battery is charged and connected, but the scooter still doesn't power on, there might be an issue with the scooter itself or the battery.

Problem	Possible Cause	Solution
Reduced range/performance	Battery not fully charged; Old battery; Extreme temperatures	Ensure battery is fully charged before use. Battery capacity naturally degrades over time. Avoid using in very cold or hot conditions.

If you encounter problems not listed here or if the suggested solutions do not resolve the issue, please contact iScooter customer support.
