AKALULI L816-0507

AKALULI AI Voice Recorder User Manual

Model: L816-0507

1. INTRODUCTION

The AKALULI AI Voice Recorder is a cutting-edge device designed to enhance your productivity by transforming spoken words into actionable insights. Powered by advanced AI models like OpenAI's Whisper STT and ChatGPT-4o, it offers real-time transcription, intelligent summarization, and seamless app control. This compact and portable recorder is ideal for capturing important information during meetings, lectures, interviews, and personal notes.

3. SETUP GUIDE

3.1 What's in the Box

- AKALULI AI Voice Recorder (Built-in Magnetic)
- Charging Cable (USB-C)
- User Manual
- Usage Guide Card
- Magnetic Ring (for non-MagSafe phones)

Packing List

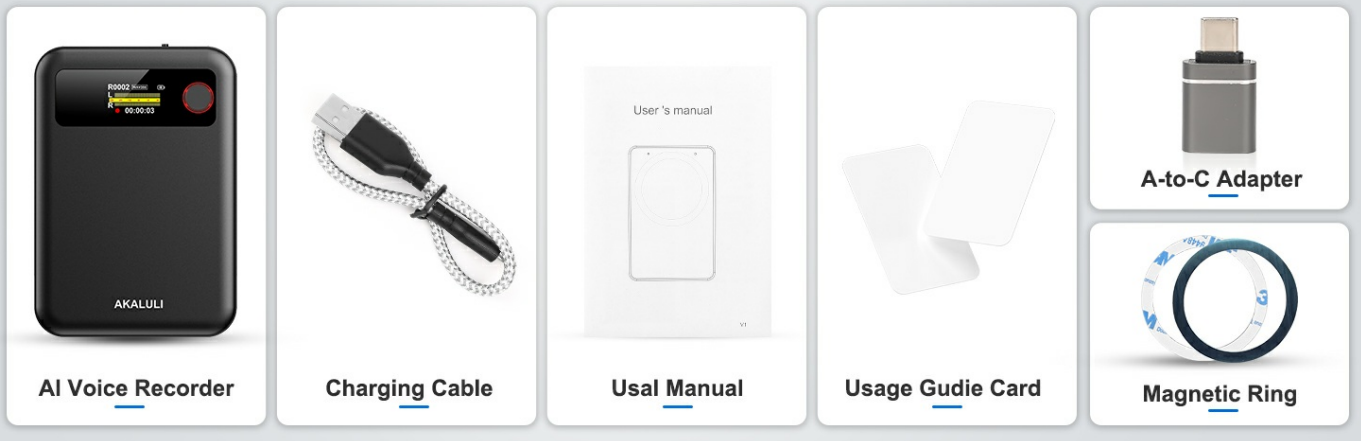

Image: A visual representation of the items included in the product packaging: the AI Voice Recorder, charging cable, user manual, usage guide card, and a magnetic ring.

3.2 Initial Charging

Before first use, fully charge your AKALULI AI Voice Recorder. Connect the provided USB-C charging cable to the device and a power source. A full charge typically takes 2 hours and provides up to 30 hours of continuous recording.

3.3 App Download & Connection

The AKALULI AI Voice Recorder is designed for seamless integration with your smartphone via a dedicated app. This app allows for control, file management, transcription, and summarization.

1. **Download the App:** Search for "AI DVR Link" in your device's app store (App Store for iPhone, Google Play for Android).
2. **Install and Register:** Follow the on-screen instructions to install the app and complete the registration process.
3. **Connect via Bluetooth:** Turn on Bluetooth on your smartphone. Power on the AKALULI AI Voice Recorder. Open the "AI DVR Link" app and follow the prompts to connect to your device. The app will guide you through the pairing process.

Image: The AKALULI AI Voice Recorder displayed with icons for iPhone and Android, indicating its compatibility and instructing users to download the "AI DVR Link" app from their respective app stores.

3.4 Magnetic Attachment

The recorder features a built-in magnetic design, allowing it to easily attach to MagSafe-compatible iPhones or other devices using the included magnetic ring. This ensures convenient and secure placement during use, especially for phone call recording.

Easy to use, Record on the Go

Image: A close-up of a finger pressing the red record button on the AKALULI AI Voice Recorder, demonstrating its one-press recording functionality.

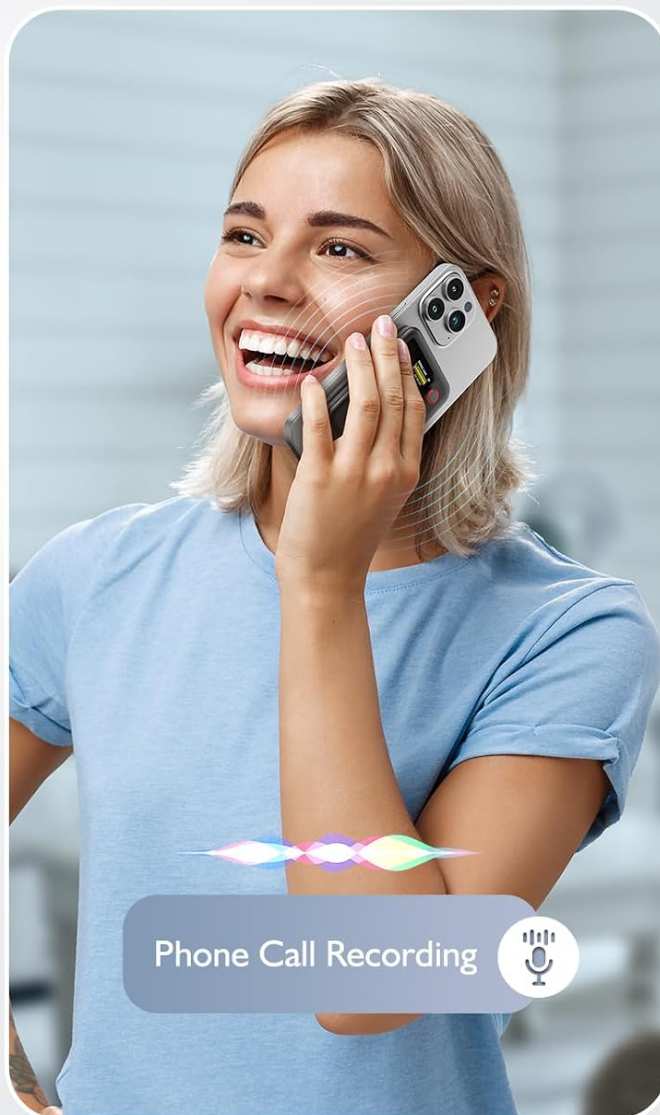

4.2 Dual Mode Recording (Normal & Phone Call)

The recorder supports two primary recording modes to capture every detail with ease:

- **Normal Recording:** For capturing ambient sound in meetings, lectures, interviews, or personal notes.
- **Phone Call Recording:** Utilize the magnetic attachment and innovative vibration conduction sensors (VCS) to clearly record phone conversations.

Dual Mode Recording

Capture Every Detail at Ease

*9.8 Feet Recording Distance Recommended

Image: Two panels illustrating the dual recording modes: one showing a person using the recorder for normal ambient recording, and the other showing a person using it attached to a phone for call recording.

4.3 Transcription

Leverage the power of AI to convert your audio recordings into text with high accuracy.

1. **Access Recordings:** Once recorded, connect your device to the app. Your recordings will appear in the app's file list.
2. **Initiate Transcription:** Select a recording and choose the transcription option within the app. The AI will process the audio.
3. **Review & Edit:** The transcribed text will be displayed, allowing you to review for 98% accuracy and make any necessary edits. The system supports over 100 languages.

Quick & Accurate Transcription

Efficiently convert speech to text for easy reading and searching

- Support **100+** Languages
- **98%** Transcription Accuracy

Transcription

• 00:02

Welcome everyone. Today I'm excited to introduce you to our innovative product AI note recorder, an AI powered voice recorder designed to revolutionize the way you handle unexpected calls meetings and language barriers.

• 00:38

First, the key features instant recording effortlessly capture with our AI note recorder capturing important information on the go is as simple as pressing a button. It ensures you never missing critical details during calls or meetings

• 00:56

Secondly, AI voice recorder integrates OpenAI's Whisper STT model and CHAT GPT-40 technology to enable real-time transcription and one-click creation of text summaries, greatly improving the efficiency of recording and organizing information, making it a must-have for productivity

4.4 Summarization & Mind-Map Generation

Beyond transcription, the AKALULI AI Voice Recorder can intelligently summarize your content and even generate mind maps.

1. **Generate Summary:** After transcription, select the 'Summary' option. Choose from various summary templates (e.g., meeting minutes, key information, next steps) to suit your needs.
2. **Mind-Map Visualization:** The app can also create a visual mind map of your summarized content, providing a clear overview of key points and relationships.

Smart Summary of ChatGPT

17 intelligent scenarios will help extract the key points from the recording

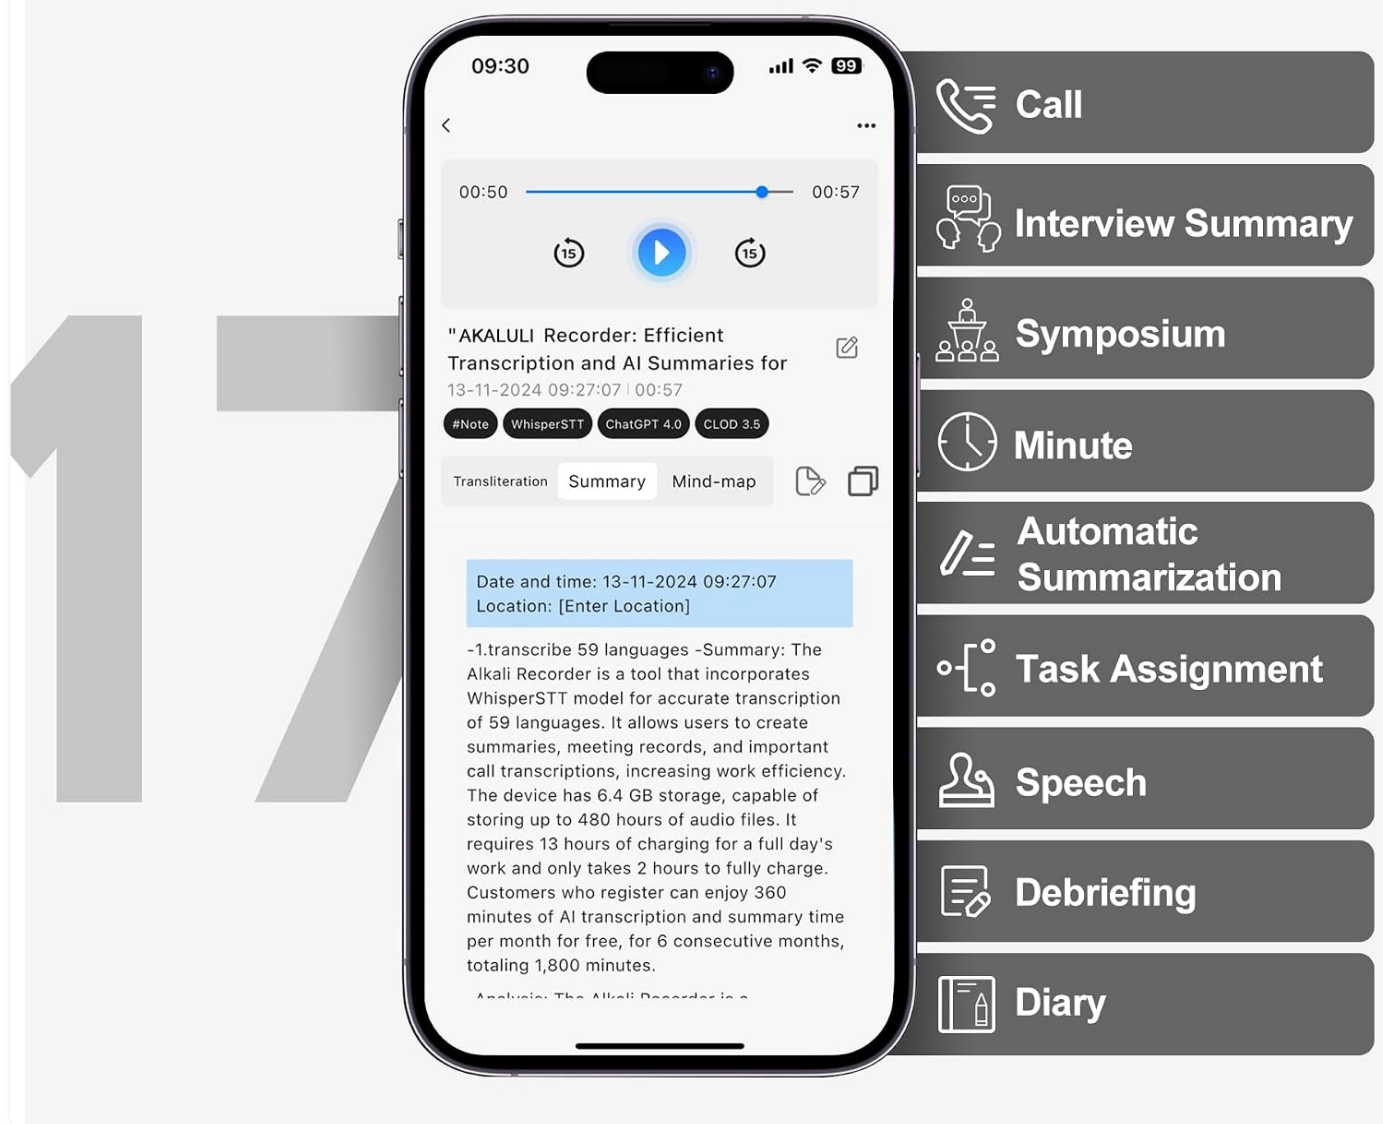

Image: A smartphone screen displaying various smart summary options, such as Call, Interview Summary, Symposium, Minute, Automatic Summarization, Task Assignment, Speech, and Debriefing, powered by ChatGPT.

4.5 Download & Share

Easily export and share your transcribed and summarized content.

- **Export Formats:** Export your text as PDF or Word documents for easy sharing and archiving.
- **Direct Sharing:** Share directly from the app to various platforms or email.

5. MAINTENANCE

To ensure the longevity and optimal performance of your AKALULI AI Voice Recorder, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the device. Avoid using liquid cleaners or aerosols.
- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** For long-term storage, charge the battery to about 50% every three months to prevent deep discharge.

- **Software Updates:** Regularly check the "AI DVR Link" app for firmware updates to ensure you have the latest features and performance improvements.

6. TROUBLESHOOTING

If you encounter any issues with your AKALULI AI Voice Recorder, please refer to the following common solutions:

Problem	Possible Cause	Solution
Device not turning on	Low battery	Charge the device fully.
Cannot connect to app via Bluetooth	Bluetooth off, device out of range, app issue	Ensure Bluetooth is on, device is close to phone, restart app/device.
Transcription accuracy is low	High background noise, unclear speech	Record in a quieter environment, speak clearly and closer to the device.
Recordings not saving	Full storage, device error	Check available storage (64GB capacity), restart device.

If the issue persists, please contact AKALULI customer support for further assistance.

7. SPECIFICATIONS

Feature	Detail
Model Number	L816-0507
