OMIZN T6

OMIZN T6 Ultra-Slim Walkie Talkie Instruction Manual

Model: T6

INTRODUCTION AND OVERVIEW

The OMIZN T6 Ultra-Slim Walkie Talkie is a robust two-way radio designed for reliable communication over 4G LTE networks. It offers unlimited range wherever cellular coverage is available, making it suitable for long-distance and cross-country communication. Key features include AES-256 encrypted communication for privacy, advanced noise reduction for clear audio, and an ultra-slim, durable zinc alloy body.

This device is ready to use out of the box with minimal setup and supports flexible group calling options. Its IP65 rating ensures dust and splash resistance, and the high-capacity battery with USB-C fast charging provides extended operational time.

SETUP GUIDE

1. Battery Installation

1. Ensure the walkie talkie is powered off.
2. Align the battery with the battery compartment on the back of the device.
3. Gently push the battery into place until it clicks securely.

2. SIM Card Insertion

The SIM card may come pre-installed. If not, follow these steps:

1. Locate the SIM card slot, typically under the battery or a dedicated cover.

2. Insert the provided 4G LTE SIM card into the slot, ensuring correct orientation.
3. Close the SIM card cover if applicable.

3. Initial Charging

Before first use, fully charge the device.

1. Connect the USB-C cable to the charging port on the walkie talkie.
2. Plug the USB-C cable into the provided power plug, and then into a wall outlet.
3. The device will indicate charging status on its digital display.

4. Power On/Off

- To power on: Press and hold the red power button until the screen illuminates.
- To power off: Press and hold the red power button until the device prompts you to power off, then confirm.

OPERATING INSTRUCTIONS

1. Basic Communication (Push-to-Talk)

To transmit your voice, press and hold the large Push-to-Talk (PTT) button located on the side of the device. Speak clearly into the microphone. Release the PTT button to listen for a response.

2. Group Switching

The T6 supports up to 200 groups for efficient team coordination. Use the rotary knob on the top of the device to quickly switch between different communication groups. This eliminates the need for complex button operations.
