- **Mic:** Integrated microphone for voice input.
- **Display:** High-visibility digital display for status and menu navigation.
- **Scroll Keys:** Up and down buttons for menu navigation.
- **PTT (Push-to-Talk) Button:** Large side button for instant communication.
- **Volume Controls:** Side buttons for adjusting audio levels.
- **Headset Jack:** For connecting external audio accessories.
- **Type-C Charging Port:** Modern USB-C port for convenient charging.

## SETUP

### 1. Battery and SIM Card Installation

1. Remove the battery cover on the back of the unit.
2. Insert the provided SIM card into the designated slot. Ensure it is correctly oriented.
3. Align the battery with the contacts and gently push it into place until it clicks securely.
4. Replace the battery cover.

### 2. Attaching Accessories

- **Belt Clip:** Attach the metal belt clip to the back of the battery by sliding it into the designated grooves until it locks.
- **Lanyard:** Thread the lanyard through the small loop at the top of the walkie talkie for secure carrying.

### 3. Initial Charging

Before first use, fully charge the walkie talkie. Connect the USB-C charging cable to the port on the side of the unit and plug the power adapter into a wall outlet. The display will indicate charging status.

## OPERATING INSTRUCTIONS

### 1. Power On/Off

- **Power On:** Press and hold the red power button (usually located at the bottom right of the front panel) until the screen

illuminates and displays 'Welcome to public intercom'.

- **Power Off:** Press and hold the red power button until the unit powers down.

## 2. Volume Adjustment

- Use the dedicated volume up/down buttons on the side of the unit to adjust the listening volume.
- Alternatively, the top rotary knob can be configured for volume adjustment or group switching via settings.
