Setup and Assembly

Assembly of your Rilyson patio furniture set is required. Please follow the step-by-step instructions provided in the separate assembly guide included with your package. It is recommended to have two people for assembly. A low torque power drill with appropriate bits can significantly speed up the process compared to manual tools.
Important: Do not overtighten bolts during assembly, especially for the swivel rocker chairs, as this can affect the gliding mechanism. Tighten firmly but ensure smooth movement.

Operating Instructions

Swivel and Rocking Function

The swivel rocker chairs offer 360-degree rotation and a gentle rocking motion. To operate, simply sit in the chair and apply slight pressure with your feet to initiate the rocking. The swivel mechanism allows you to turn freely in any direction.

The set includes 6-inch thick, sponge-padded cushions designed for deep seating comfort. These cushions feature Olefin fabric, known for its durability and water-resistant properties, and are equipped with zippers for easy removal and cleaning.

Maintenance

Wicker Frame Care

The furniture is constructed with handwoven, weather-resistant PE rattan and a powder-coated steel frame. To clean the wicker, wipe with a soft cloth dampened with mild soap and water. Rinse thoroughly and dry completely. Avoid harsh chemicals or abrasive cleaners.

Cushion Care

The cushion covers are removable and made from easy-care, fade-resistant Olefin fabric. For minor spills, blot immediately with a clean cloth. For deeper cleaning, remove the covers and hand wash with mild soap and cold water, or machine wash on a gentle cycle. Air dry only; do not tumble dry. Ensure cushions are completely dry before re-inserting or storing to prevent mildew.

Winter Storage

During off-season or inclement weather, it is recommended to cover the furniture with a protective cover or store it in a dry, sheltered area to prolong its lifespan.

TROUBLESHOOTING

- **Missing Parts/Hardware:** If you find any parts or hardware missing upon unboxing, please contact Rilyson customer support immediately for assistance.
- **Stiff Swivel/Rocking Motion:** Ensure that all assembly bolts for the swivel rocker chairs are not overtightened. Loosen slightly if the motion is restricted. Lubrication with a silicone-based spray can also help if the mechanism feels stiff over time.
- **Cushions Not Drying Quickly:** While cushions are water-resistant, prolonged exposure to heavy rain may lead to saturation. Ensure cushions are placed in an area with good airflow to dry completely. Remove covers for faster drying if necessary.
