1. SAFETY INFORMATION

Please read and understand all instructions before assembly and use. Keep this manual for future reference.

- Exercise caution around sharp edges and potential pinch points during assembly to prevent injury.
- Ensure all bolts and screws are securely tightened before using the bed frame. Periodically check and re-tighten as necessary.
- Do not exceed the maximum weight capacity of 600 lbs for the Twin size bed frame.
- Keep small parts away from children during assembly to avoid choking hazards.
- Use the bed frame on a flat, level surface to ensure stability.

3. ASSEMBLY INSTRUCTIONS

Assembly is designed to be straightforward. All necessary parts and tools are included in the package. Follow these steps carefully:

1. **Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, soft surface to prevent scratches.
2. **Attach Side Rails to Headboard:** Align the side rails with the headboard and secure them using the provided bolts and Allen wrench. Do not fully tighten yet.
3. **Attach Side Rails to Footboard:** Connect the other end of the side rails to the footboard, securing with bolts. Ensure all connections are aligned before tightening.
4. **Install Center Support Bar(s) and Legs:** Attach the center support bar(s) to the designated points

on the side rails. Screw in the adjustable support legs to the center bar(s) and footboard/headboard as indicated. Adjust leg height to ensure even support.

5. **Place Wooden Slats:** Lay the wooden slats across the bed frame, ensuring they are evenly spaced and secured. The sticky design on the slats helps prevent movement and noise.
6. **Final Tightening:** Once all components are in place and aligned, fully tighten all bolts and screws.

Details of this storage bed

Strong Construction

Stable structure can bring you a quiet night.

Noise Free Design

Wood slata is designed with sticky design to reduce noise.

Thick Support

Strong legs provide you a stable support.

Adjustable Headboard

You can adjust the height of the headboard to suit your needs.

4. OPERATION

Mattress Placement

This platform bed frame does not require a box spring. Simply place your compatible Twin size mattress directly onto the wooden slats. The recommended mattress thickness is 8-12 inches.

Adjustable Headboard

The upholstered headboard features 3 adjustable height modes. To adjust, loosen the bolts connecting the headboard to the side rails, slide the headboard to your desired height, and then re-tighten the bolts securely. This allows for compatibility with various mattress heights.

5. MAINTENANCE

- **Cleaning Fabric:** For general cleaning of the linen fabric, use a soft brush or vacuum cleaner with an upholstery attachment to remove dust and debris. For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner following the product's instructions, testing on an inconspicuous area first.
- **Hardware Check:** Periodically inspect all bolts and screws to ensure they remain tight. Re-tighten as needed to maintain the bed frame's stability and prevent noise.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners or harsh chemicals on any part of the bed frame, as this may damage the finish or fabric.

6. TROUBLESHOOTING

Bed Frame is Noisy/Creaking

- Ensure all assembly bolts and screws are fully tightened. Loose connections are a common cause of creaking.
- Check that the wooden slats are properly seated and evenly distributed across the frame. The sticky design on the slats is intended to minimize movement and noise.
- Verify that the center support legs are making firm contact with the floor and are adjusted to the correct height.

Headboard is Not Stable

- Confirm that the bolts securing the headboard to the side rails are tightened.
- If the headboard was recently adjusted, ensure it is locked into one of the 3 adjustable height modes and the bolts are securely fastened.
