Reebok BD5052

Reebok Classic BD5052 Sneakers User Manual

Model: BD5052

INTRODUCTION

This manual provides essential information for the proper use, care, and maintenance of your Reebok Classic BD5052 sneakers. Please read these instructions carefully to ensure optimal performance and longevity of your footwear.

SETUP

Unboxing

Carefully remove the sneakers from their packaging. Inspect them for any visible damage or manufacturing defects. Retain the packaging for potential returns or future storage.

First Wear and Fit Adjustment

Before initial use, try on both sneakers to ensure a comfortable and secure fit. The Reebok Classic BD5052 features a lace-up closure, allowing for adjustable tightness. Adjust the laces to achieve a snug fit without being overly restrictive.

Lacing Instructions

For a standard lacing, thread the laces through the eyelets from the outside in, creating a straight bar across the bottom. Then, cross the laces over and feed them through the next set of eyelets from the inside out. Repeat this pattern until all eyelets are used, then tie a secure knot.

OPERATING (WEARING)

These sneakers are designed for everyday casual wear and light activities. Ensure your foot is properly seated within the shoe and the laces are tied securely to prevent slippage and provide adequate support.

The leather and synthetic upper provides durability and comfort, while the leather sole offers traction. Avoid using these sneakers for heavy-duty sports or activities that require specialized athletic footwear.

MAINTENANCE

Cleaning

- **Upper (Leather - Suede & Synthetic):** For suede areas, use a soft brush specifically designed for suede to remove loose dirt. For tougher stains, a suede eraser can be used. For synthetic and smooth leather parts, wipe with a damp cloth and mild soap solution. Avoid harsh chemicals or excessive water.
- **Sole (Leather):** Wipe the leather sole with a damp cloth to remove dirt. For deeper cleaning, a specialized leather cleaner can be used, followed by a leather conditioner to prevent drying and cracking.
- **Laces:** Laces can be removed and hand-washed with mild soap and water, then air-dried.

Storage

Store sneakers in a cool, dry place away from direct sunlight and extreme temperatures. If storing for extended periods, consider using shoe trees to help maintain their shape and absorb moisture. Ensure shoes are clean and dry before storage.

TROUBLESHOOTING

Fit Issues

If the shoes feel too tight or too loose, re-adjust the laces. Ensure you are wearing appropriate socks. If discomfort persists, verify the size against a standard shoe size guide. Refer to the [product page](#) for size guide information.

Comfort Issues (e.g., rubbing, blisters)

New shoes may require a break-in period. Ensure laces are not tied too tightly. If rubbing occurs, consider wearing thicker socks or using blister prevention products. Persistent discomfort may indicate an incorrect size or fit.

Appearance Issues (e.g., scuffs, dirt)

Follow the cleaning instructions in the Maintenance section. For scuffs on leather, a leather conditioner or polish may help. For suede, a suede brush can often restore the nap.

SPECIFICATIONS

Feature	Detail
Model Number	BD5052
Upper Material	Synthetic, Leather
Outer Material	Leather - Suede
Sole Material	Leather
Closure Type	Lace-Up
Department	Boys

Date First Available	May 7, 2025
