

SZMBHSD Car Dashboard and Car Interior Phone Holder

User Manual: 360 Degree Car Phone Holder

Model: Car Dashboard and Car Interior Phone Holder

Brand: SZMBHSD

INTRODUCTION

This manual provides comprehensive instructions for the installation, operation, and maintenance of your SZMBHSD 360 Degree Car Phone Holder. Designed for stability and versatility, this holder ensures your mobile device remains secure and accessible while driving. Please read this manual thoroughly before use to ensure proper functionality and safety.

PRODUCT FEATURES

- **Super-strong Adsorption:** Features a vacuum suction cup or silicone material for firm fixation on flat surfaces such as glass, tiles, wooden desktops, and smooth plastics.
- **Non-slip and Shockproof:** Designed to prevent sliding, ensuring the phone remains stable even on bumpy roads.
- **Trace-free Use:** Requires no drilling or clamping, preventing damage to surfaces like car dashboards or desks.
- **360° Adjustable:** Allows multi-angle rotation for smooth switching between horizontal and vertical screen orientations, suitable for navigation, video, and video calls.
- **Full Silicone Protection:** Provides enhanced protection for your device, preventing scratches.
- **Austenitic Stainless Steel:** Constructed with durable material that resists rust and deformation.
- **Reserved Charging Hole:** Convenient design allows for charging while the phone is mounted.

Product parameters

Installation location: dashboard, center console

This image illustrates key product features including full silicone protection for your device, the use of austenitic stainless steel for durability, and a conveniently reserved charging hole at the bottom of the holder.

SETUP AND INSTALLATION

1. **Prepare the Surface:** Ensure the desired installation surface (e.g., car dashboard, windshield, desk) is clean, dry, and smooth.
2. **Assemble the Holder (if necessary):** For the suction cup type, insert the ball head of the holder arm into the slot on the suction cup base and tighten the nut securely.

Usage steps

For suction cup type, insert the ball head into the slot and tighten the nut

After fitting it on a flat surface, press the suction cup buckle

easy to handle bumpy roads

This image demonstrates the initial assembly step: inserting the ball head into the suction cup slot and tightening the securing nut.

3. **Attach the Suction Cup:** Place the suction cup firmly onto the prepared flat surface.

This image highlights the strong suction capability of the holder's base when applied to a smooth surface.

4. **Secure the Suction Cup:** Press down the suction cup buckle or lever to create a vacuum seal, ensuring the holder is firmly fixed.

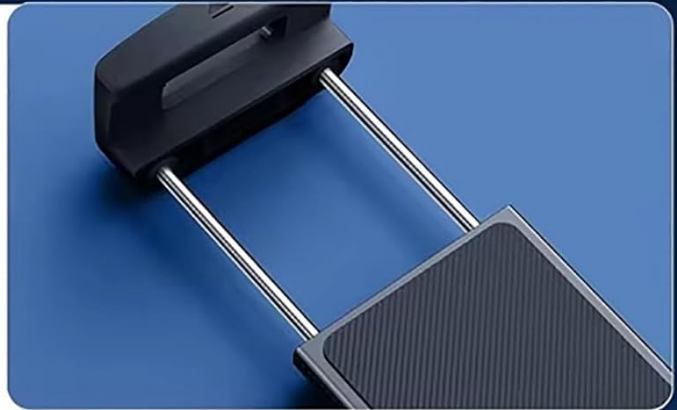

Full Silicone Protection

Better protection, never scratch

Austenitic Stainless Steel

Won't rust or deform

Reserved Charging Hole

Convenient, use while charging

This image illustrates the final step of securing the suction cup by pressing down its locking mechanism.

5. **Important Note for Rough Surfaces:** If installing on a center console with a rough surface, the suction cup may not be firm immediately after installation. Wait approximately 20 minutes after installation before using the suction cup to allow the adhesive to fully adhere and stabilize.

OPERATING INSTRUCTIONS

Once installed, the phone holder offers flexible positioning and secure grip for your device.

- **Inserting Your Phone:** Gently expand the holder's arms and place your phone securely within the padded grips. The silicone protection ensures your phone is held without scratches.
- **Adjusting Viewing Angle:** The holder features a 360-degree adjustable joint. Loosen the adjustment knob slightly, position your phone to the desired horizontal or vertical orientation, and then tighten the knob to lock it in place.

This image demonstrates the multi-angle adjustability of the phone holder, allowing for optimal viewing positions.

- **Charging Your Phone:** Utilize the reserved charging hole at the bottom of the holder to connect your charging cable while your phone is mounted.

MAINTENANCE

To ensure the longevity and optimal performance of your phone holder, follow these simple maintenance guidelines:

- **Cleaning the Suction Cup:** If the suction cup loses its stickiness, rinse it with warm water and let it air dry. Do not use harsh chemicals or abrasive materials.
- **General Cleaning:** Wipe the holder's body with a soft, damp cloth. Avoid excessive moisture.
- **Storage:** When not in use for extended periods, store the holder in a cool, dry place away from direct sunlight.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Suction cup not holding firmly.	Surface is dirty, uneven, or porous. Suction cup is dirty or not properly sealed.	Clean the surface and the suction cup. Ensure the surface is smooth and non-porous. Re-apply the suction cup, pressing down the buckle firmly. If on a rough center console, wait 20 minutes after installation for full adhesion.
Phone wobbles or falls out.	Holder arms not gripping phone tightly. Adjustment knob is loose.	Ensure phone is properly seated within the holder arms. Tighten the adjustment knob if the holder arm is loose.
Difficulty rotating the holder.	Adjustment knob is too tight.	Slightly loosen the adjustment knob before attempting to rotate, then re-tighten once the desired angle is achieved.

SPECIFICATIONS

Attribute	Detail
Product Dimensions	25 x 18 x 3 cm
Item Weight	500 g (0.5 Kilograms)
Installation Location	Dashboard, Center Console
Adjustability	360 Degree Rotation
Material	Silicone, Austenitic Stainless Steel
