

TW-1102B

TW-1102B Stun Gun Ultrapowerful Rechargeable Tactical Flashlight

User Instruction Manual

INTRODUCTION

Thank you for choosing the TW-1102B Stun Gun Ultrapowerful Rechargeable Tactical Flashlight. This device is designed for personal safety, combining a powerful stun gun with a bright LED tactical flashlight. Please read this manual thoroughly before using the product to ensure safe and proper operation.

IMPORTANT SAFETY INFORMATION AND LEGAL DISCLAIMER

WARNING: This product is intended strictly for personal safety purposes. Buyers are fully responsible for using this item in a safe, lawful, and responsible manner.

- Keep out of reach of children.
- Do not use on individuals with heart conditions or pacemakers.
- Do not use on pregnant women or the elderly.
- Do not use in or near water.
- Do not disassemble or modify the device.
- Laws regarding stun guns vary by state and local jurisdiction. We do not ship to states or regions where stun guns are prohibited or restricted by law. Orders placed from such restricted areas will be automatically canceled and not fulfilled. It is the user's responsibility to know and comply with all applicable laws.

PRODUCT OVERVIEW

The TW-1102B integrates a high-voltage stun function with a bright LED flashlight, housed in a durable aluminum body. It features a rechargeable battery for convenience.

SETUP AND INITIAL CHARGING

Before first use, ensure the device is fully charged.

1. Locate the charging port on the device.
2. Connect the provided charging cable to the device and a suitable USB power source.
3. Allow the device to charge until the charging indicator light (if present) signals a full charge, or for approximately 4-6 hours.
4. Disconnect the charging cable once charging is complete.

OPERATING INSTRUCTIONS

Familiarize yourself with the controls before operating the device.

Flashlight Function

1. Locate the power switch/button for the flashlight.
2. Press the button to turn the LED flashlight on.
3. Press again to turn it off.

Stun Gun Function

The stun gun function should only be used in self-defense situations and in compliance with local laws.

1. Ensure the safety switch is in the 'OFF' position to prevent accidental discharge.
2. To activate the stun function, slide the safety switch to the 'ON' position.
3. Press and hold the stun activation button. The device will emit an electric arc between the contact prongs.
4. To disable the stun function, release the activation button and return the safety switch to the 'OFF' position.

MAINTENANCE

- Keep the device clean and dry. Wipe with a soft, dry cloth.
- Avoid exposing the device to extreme temperatures or direct sunlight.
- Regularly charge the battery to maintain its lifespan, even if not in frequent use.
- Do not attempt to service the device yourself. Refer to the warranty information for support.

TROUBLESHOOTING

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Device not turning on/no light	Low or no battery charge	Charge the device fully.
Stun function not working	Safety switch not in 'ON' position; low battery	Ensure safety switch is 'ON' and battery is charged.
Weak electric arc	Low battery	Recharge the device.
