Aoxun G37009-1012BR-New2

Aoxun 9'6"x11'9" Outdoor Storage Shed Instruction Manual

Model: G37009-1012BR-New2

Introduction

Thank you for choosing the Aoxun 9'6"x11'9" Outdoor Storage Shed. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage shed. Designed for durability and versatility, this shed offers a secure and organized space for your outdoor equipment and belongings. Please read these instructions thoroughly before beginning assembly and retain them for future reference.

Safety Information

Before assembly and during use, observe the following safety guidelines:

- **Handling Heavy Components:** The shed components, particularly the metal panels and frame parts, can be heavy and have sharp edges. Always wear appropriate protective gloves and use caution when handling.
- **Proper Assembly:** Follow all assembly steps precisely as outlined in this manual. Incorrect assembly can compromise the structural integrity and safety of the shed.
- **Two-Person Assembly:** Assembly requires at least two adults for safety and ease of construction.
- **Site Selection:** Choose a level, stable surface for installation. Ensure adequate clearance around the shed for assembly and future access.
- **Anchoring:** Securely anchor the shed to the ground to prevent wind damage. Anchoring hardware may be sold

separately or included.

- **Ventilation:** The shed features air vents. Do not obstruct these vents to ensure proper airflow and prevent condensation buildup.
- **Children and Pets:** Keep children and pets away from the assembly area. Do not allow them to play inside or around the shed unsupervised.
- **Electrical Safety:** If installing electrical components inside the shed, ensure all work is done by a qualified electrician and complies with local codes.

Package Contents

Your Aoxun Outdoor Storage Shed package includes all necessary labeled parts for assembly, a step-by-step instruction manual, and two pairs of gloves to assist with handling components. Please verify all parts are present and undamaged before beginning assembly. If any parts are missing or damaged, contact customer support.

Setup

The assembly of this storage shed is designed to be straightforward with the provided step-by-step manual. Two-person assembly is strongly recommended to ensure safety and efficiency. The shed is constructed with galvanized steel and thick metal roof/walls, providing a durable and weather-resistant structure.

Key Assembly Features:

- **Stable Frame Construction:** The shed utilizes a stable frame construction for enhanced rigidity.
- **Air Vents:** Four air vents are integrated into the roof design to facilitate air circulation and reduce condensation.
- **Lockable Doors:** The double doors are equipped with a security door latch, allowing for the addition of a padlock (not included) for enhanced security.
- **Stainless Steel Hinges:** Durable stainless steel hinges ensure smooth operation and longevity of the doors.

Image: A detailed view highlighting the shed's features: four air vents for airflow, a security door latch, stable frame construction, a smooth plastic protective shell, and stainless steel door hinges.

Ensure the shed is assembled on a firm, level foundation. The sloping roof design is engineered to facilitate rapid drainage of rainwater, preventing water buildup and contributing to the shed's overall weather resistance.

Operating the Storage Shed

The Aoxun Outdoor Storage Shed is designed to provide a versatile and spacious storage solution for various outdoor needs. With approximately 560 cubic feet of storage capacity (9.5 x 11.91 FT), it can accommodate large items such as snow blowers, lawnmowers, bicycles, and garden furniture.

Versatile Applications:

- **Garden Shed:** Store gardening tools, pots, and soil.
- **Pet Shelter:** Can be adapted to provide shelter for pets.
- **Garbage Storage:** Keep waste bins out of sight and protected from elements.

- **Bicycle Parking:** Securely store multiple bicycles.
- **General Outdoor Storage:** Ideal for patio cushions, seasonal decorations, and other outdoor items.

The lockable doors provide enhanced security for your stored items. Consider adding optional shelving or racks (not included) to maximize vertical space and organize smaller tools efficiently.

Maintenance

Regular maintenance will ensure the longevity and optimal performance of your Aoxun Outdoor Storage Shed. The shed is constructed from galvanized steel with a protective coating, designed to withstand harsh weather conditions, including high winds (24-30 mph) and snow (up to 6 inches).

Maintenance Tips:

- **Cleaning:** Periodically clean the exterior of the shed with mild soap and water. Avoid abrasive cleaners or harsh chemicals that could damage the protective coating.
- **Roof Inspection:** Regularly check the roof for any debris buildup, especially after heavy winds or storms. The sloping roof design aids in drainage, but ensuring it remains clear will prevent water accumulation.

- **Ventilation:** Ensure the air vents remain unobstructed to maintain proper airflow and prevent condensation inside the shed.
- **Door and Hinge Check:** Lubricate door hinges annually if needed to ensure smooth operation. Check the door latch for proper function and alignment.
- **Fastener Tightness:** Over time, fasteners may loosen. Periodically check and tighten all screws and bolts to maintain structural integrity.
- **Protective Coating:** The shed features an upgraded coating for enhanced durability and resistance against corrosion compared to untreated metal or wood. Avoid scratching the surface to preserve this protective layer.

Troubleshooting

This section addresses common issues that may arise during or after the assembly of your storage shed.

- **Panels appear thin or dented:** Handle all panels with care during unpacking and assembly. If panels arrive with minor dents from shipping, gently attempt to reshape them if possible. For significant damage, contact customer support for replacement parts.
- **Doors do not fit or align properly:** Ensure the shed base is perfectly level. Recheck all frame connections and panel alignments. Slight adjustments to the frame or door hinges may be necessary to achieve proper fit. Verify that all screws are tightened evenly.
- **Shed leaks during rain:** Inspect all roof and wall panel overlaps to ensure they are correctly seated and all fasteners are tight. Check for any gaps around the doors or vents. Applying a silicone sealant to critical seams can help prevent leaks if the issue persists after verifying assembly. Ensure the shed is on a level base to prevent water pooling.
- **Missing or damaged parts:** Before starting assembly, perform a complete inventory of all parts against the provided

parts list. If any parts are missing or damaged, do not proceed with assembly. Contact customer support immediately for assistance.

Specifications

Brand	Aoxun
Model Number	G37009-1012BR-New2
Product Dimensions (Overall)	165D x 61W x 88H Centimetres (approximately 9'6" x 11'9" exterior footprint)
Internal Dimensions (Approx.)	L 113" x W 141" (560 cu. ft. storage)
Door Dimensions (Approx.)	L 45" x H 64"
Roof Dimensions (Approx.)	L 120" x W 142"
Item Weight	111.04 kg
Material	Galvanized Steel, Alloy Steel (Frame/Top Material)
Color	Brown
Water Resistance Level	Water Resistant
Wind Resistance	Withstands 24-30 mph winds
Snow Load Capacity	Up to 6 inches
