Using the Expansion Feature

For additional packing space, locate the secondary zipper running along the perimeter of the suitcase. Unzip this to expand the luggage by approximately 2 cm, increasing its overall capacity.

Maneuvering Your Luggage

The 360° swivel wheels allow for smooth and silent movement in any direction. You can push, pull, or roll the luggage alongside you with ease. The rubber feet on the long side provide stability when the suitcase is laid horizontally.

MAINTENANCE

Cleaning the Exterior

Wipe the hard-shell exterior with a soft, damp cloth and mild soap. Avoid abrasive cleaners or solvents, as these can damage the polycarbonate coating. Dry thoroughly with a clean cloth.

Cleaning the Interior

Vacuum the interior lining to remove dust and debris. For spills, spot clean with a damp cloth and mild detergent. Allow the interior to air dry completely before closing the luggage.

Wheel and Handle Care

Periodically check the wheels for any trapped debris and clean them if necessary. Ensure the telescopic handle extends and retracts smoothly. If it becomes stiff, a small amount of silicone spray can be applied to the mechanism, avoiding contact with the rubber grip.

TROUBLESHOOTING

Lock Not Opening

If your TSA combination lock is not opening, ensure you have entered the correct 3-digit code. If you have forgotten the code, you may need to try combinations or contact customer support for assistance. There is no universal reset method once the code is forgotten without the original reset button being pressed.

Stiff or Jammed Telescopic Handle

Check for any obstructions in the handle mechanism. Ensure the release button is fully pressed when attempting to extend or retract the handle. If the issue persists, clean the handle shafts and apply a small amount of lubricant if needed.

Wheels Not Rolling Smoothly

Inspect the wheels for hair, lint, or other debris that may be caught in the axles. Carefully remove any obstructions. If a wheel is damaged, contact customer support for replacement options.
