BrilMaison 64-inch Ceiling Fan User Manual

Model: FL72801W-AMZUS | Brand: BrilMaison

1. INTRODUCTION

Thank you for choosing the BrilMaison 64-inch Ceiling Fan with Lights and Remote & APP Control. This modern industrial-style ceiling fan is designed to provide optimal air circulation and lighting for large indoor and covered outdoor spaces. Featuring a quiet DC motor, reversible blades, and smart control options, this fan offers both comfort and convenience. Please read this manual thoroughly before installation and operation to ensure safe and efficient use of your new ceiling fan.

This image displays the BrillMaison 64-inch ceiling fan installed in a spacious, modern living room. The fan features six black blades and an integrated LED light. Also shown are the remote control, a smartphone displaying the control app, and interchangeable black and wood-grain blade finishes, along with various downrod lengths.

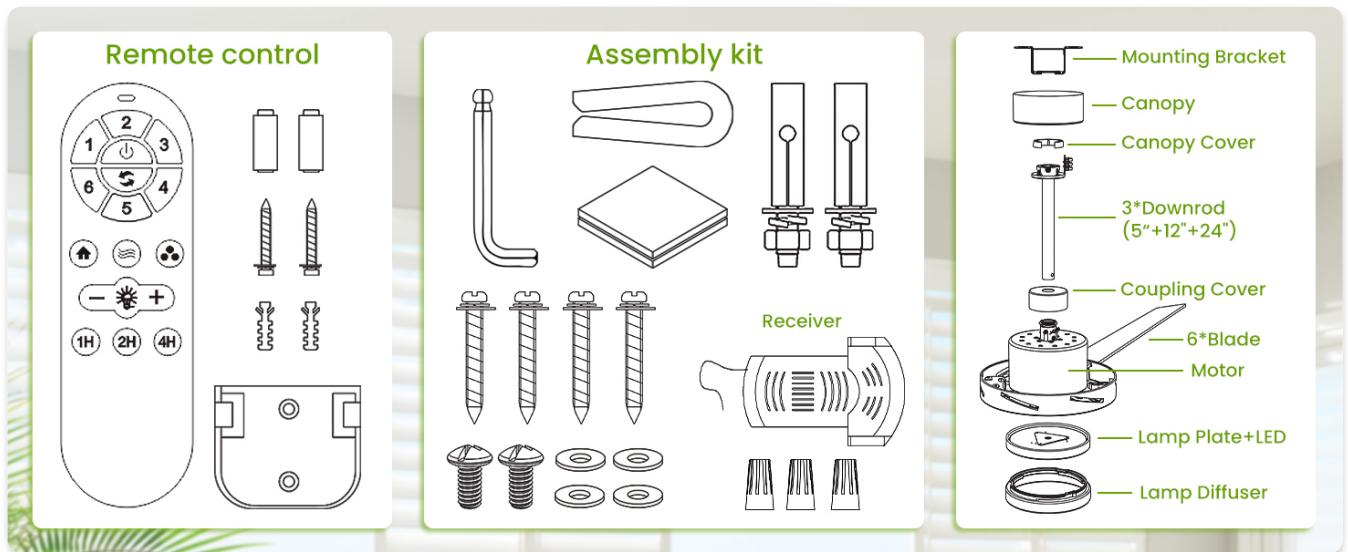

2. SAFETY INFORMATION

Always follow basic safety precautions when installing and operating electrical appliances to reduce the risk of fire, electric shock, and personal injury.

- Read all instructions carefully before beginning installation.
- Ensure the power is turned off at the circuit breaker before installation or maintenance.
- All wiring must be in accordance with national and local electrical codes. If you are unsure, consult a qualified electrician.
- The mounting structure must be capable of supporting the weight of the fan (approximately 21.6 lbs).
- Do not operate the fan with damaged wiring or if it is not functioning properly.
- Keep hands, hair, and clothing away from moving fan blades.
- Do not attempt to repair or modify the fan yourself. Refer all servicing to qualified personnel.

3. PACKAGE CONTENTS

Before installation, verify that all components listed below are present and undamaged. If any parts are missing or damaged, contact BrilMaison customer support.

This composite image provides a detailed look at the components included with the BrilMaison ceiling fan. It features a diagram of the remote control, a layout of the assembly kit hardware (screws, brackets, etc.), and an exploded view of the fan's main parts, including the mounting bracket, canopy, downrod, motor, blades, lamp plate with LED, and lamp diffuser. This visual aid is crucial for understanding the installation process and identifying all parts.

Included Components:

- Mounting Bracket
- Canopy
- Canopy Cover
- Downrods (5", 10", 24")
- Coupling Cover
- Motor Assembly
- Fan Blades (6)
- Lamp Plate + LED Light Kit
- Lamp Diffuser
- Remote Control
- Assembly Hardware Kit (screws, washers, wire nuts, etc.)

4. SETUP AND INSTALLATION

Installation of the BrilMaison ceiling fan is designed to be straightforward, typically taking around 30 minutes. Ensure you have the necessary tools (screwdriver, wire strippers, ladder) and follow these general steps. For detailed wiring diagrams, refer to the included installation guide.

Pre-Installation Considerations:

- **Ceiling Compatibility:** Suitable for flat ceilings and inclined ceilings up to a 15-degree angle.
- **Downrod Selection:** Choose from the included 5-inch, 10-inch, or 24-inch downrods based on your ceiling height to ensure optimal airflow and aesthetics.
- **Room Size:** This 64-inch fan is ideal for large rooms, recommended for spaces ranging from 20ft x 20ft up to

40ft x 40ft.

This diagram provides key dimensions for the 64-inch ceiling fan, including its overall span. It also suggests suitable room sizes, ranging from 20ft x 20ft to 40ft x 40ft. Additionally, it illustrates how different downrod lengths (4-inch, 8-inch, 12-inch) can be used to accommodate low, high, or slanted ceilings (up to 15 degrees).

General Installation Steps:

1. Securely attach the mounting bracket to the ceiling junction box.
2. Assemble the downrod with the motor assembly, feeding the wires through.
3. Hang the fan assembly onto the mounting bracket.
4. Connect the electrical wiring according to the provided diagram (ensure power is OFF).
5. Attach the fan blades to the motor hub. The blades feature a reversible design with black and wood-grain finishes, allowing you to choose your preferred style.
6. Install the LED light kit and lamp diffuser.
7. Secure the canopy and canopy cover.

2-Colors in One Blade

Suitable for variety decoration styles

This image demonstrates the versatile design of the fan blades, which feature two colors: a sleek black for an industrial aesthetic and a warm wood grain for a farmhouse style. This allows users to choose the blade finish that best suits their interior decor. The image also shows the fan's light dimming from 0% to 100% and changing color temperatures.

5. OPERATING INSTRUCTIONS

Your BrillMaison ceiling fan can be controlled via the included remote control or a dedicated smartphone application.

Remote Control & APP Control:

The fan features smart dual control, allowing you to manage settings via the 2.4GHz remote control or a Bluetooth-enabled APP (available for iOS/Android). Scan the QR code in the product packaging or search for the corresponding app to download and install.

This image shows a user interacting with the BrillMaison ceiling fan using a smartphone application, demonstrating the smart dual control feature. The physical remote control is also displayed, highlighting features like 10%-100% dimming, 6 fan speeds, reversible function, 3 light colors, and 1/4/8 hours timing.

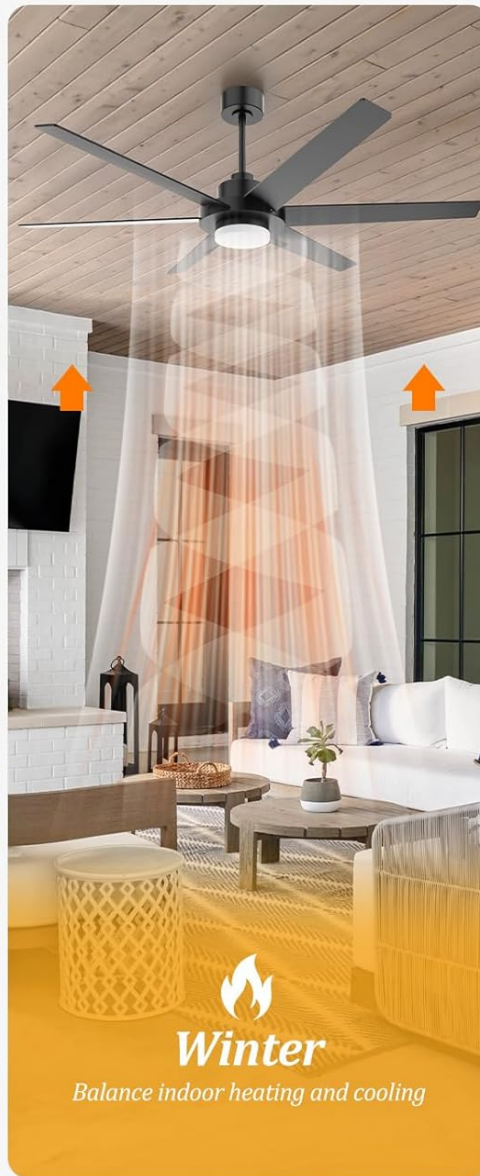

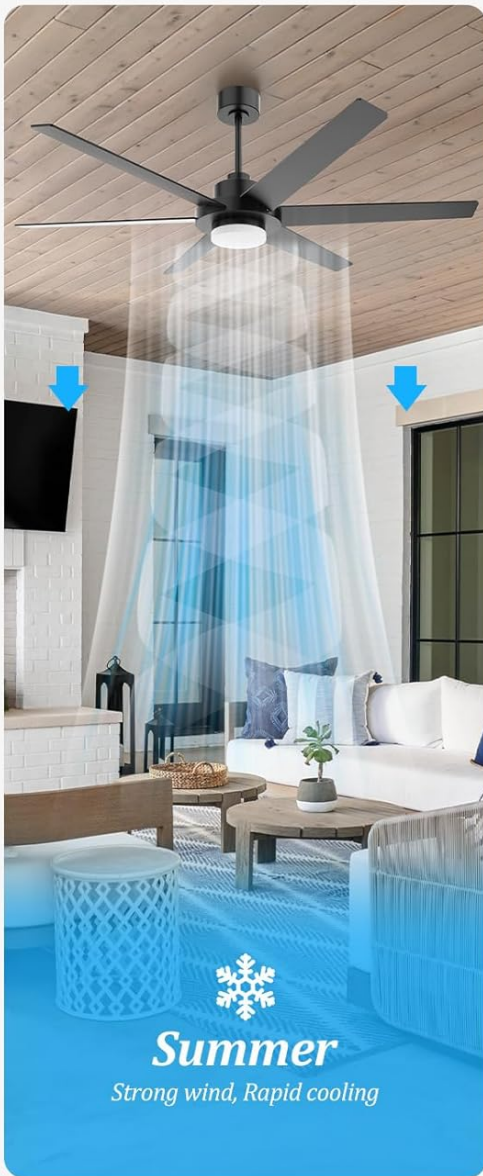

This image provides a close-up of the remote control and the mobile application interface for the BrillMaison ceiling fan. The remote features buttons for fan speed (1-6, OFF), natural wind, anti-theft function, light ON/OFF, brightness control, color change, and timer settings (1H, 2H, 4H). The app interface mirrors these controls, offering a comprehensive way to manage the fan's functions.

Fan Functions:

- **Fan Speed:** Choose from 6 wind speeds to suit your comfort level. The fan operates quietly, with a maximum noise level of 24 dB, ensuring minimal disturbance.
- **Reversible Function:** Switch between summer mode (downward airflow for cooling) and winter mode (upward airflow for circulating warm air).
- **Natural Wind Mode:** Simulates a gentle, natural breeze for enhanced comfort.
- **Timer:** Set the fan to turn off automatically after 1, 4, or 8 hours.

Reversible Function

Warm in Winter, Cool in Summer

Low: Level 1-2

Comfortable wind

Medium: Level 3-4

Natural wind

High: Level 5-6

Cooling wind

This image illustrates the reversible function of the ceiling fan. In summer mode, the fan pushes air downwards for a strong, rapid cooling effect. In winter mode, it pulls air upwards to circulate warm air, balancing indoor heating and cooling.

This diagram highlights the ultra-quiet operation of the BrillMaison ceiling fan, indicating a maximum noise level of 24 dB. It visually compares this to quieter sounds like a feather falling (10 dB) and louder sounds like a whisper (30-50 dB) or normal conversation (60-80 dB), emphasizing its suitability for quiet environments like bedrooms.

This image demonstrates the versatility of the fan's 6-speed settings, suggesting appropriate uses for each. Low speeds (Level 1-2) are ideal for a cool breeze at night, medium speeds (Level 3-4) are suitable for daily activities, and high speeds (Level 5-6) provide powerful airflow for intense workouts or rapid cooling.

Light Functions:

- **3 Color Temperatures:** Adjust the light color to Warm White (2700K), Natural White (4500K), or Cool White (6500K).
- **Stepless Dimming:** Brightness can be adjusted from 10% to 100% to create the desired ambiance.
- **Memory Function:** The fan remembers your last light setting when turned off and on.
- **Anti-theft Function:** A security feature for added peace of mind.

This image illustrates the three adjustable color temperatures of the integrated LED light: Warm White (2700K), Natural White (4500K), and Cool White (6500K). It also shows the light's dimming capability from 10% to 100%, allowing users to customize the ambiance of their room.

Wall Switch Control:

The fan is suitable for use with conventional wall switches, allowing basic on/off control of both the fan and light.

This image highlights that the BrillMaison ceiling fan is compatible with conventional wall switches, allowing users to control the fan and light on/off functions directly from their existing wall controls.

6. MAINTENANCE

Regular maintenance helps ensure the longevity and optimal performance of your ceiling fan.

- **Cleaning:** To clean the fan, wipe with a soft, damp cloth. Do not use abrasive cleaners or solvents. Ensure power is off before cleaning.
- **Blade Care:** Periodically check that all blade screws are tight. Loose blades can cause wobbling and noise.
- **LED Light Kit:** The integrated LED light kit is designed for long life. If replacement is ever needed, contact BrillMaison customer support for compatible parts.
- **Motor:** The DC motor is designed for maintenance-free operation. No lubrication is required.

7. TROUBLESHOOTING

If you experience issues with your ceiling fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power to the fan; Loose wire connections; Remote control battery low/dead.	Check circuit breaker; Verify all wire connections are secure; Replace remote control batteries.
Fan wobbles	Loose blade screws; Unbalanced blades; Loose mounting bracket.	Tighten all blade screws; Ensure blades are installed correctly; Verify mounting bracket is securely fastened.
Light does not work	Loose wire connection to light kit; LED light kit failure.	Check light kit wiring; Contact customer support for LED light kit replacement.
Remote control unresponsive	Battery low/dead; Obstruction between remote and receiver; Remote not paired.	Replace batteries; Ensure clear line of sight; Refer to pairing instructions in the full manual.
Fan noise is excessive	Loose components; Fan not properly installed.	Check all screws and connections; Ensure proper installation as per manual.
