SETUP INSTRUCTIONS

The burgkidz Pista Marble Run offers a creative building experience. Follow these steps to assemble your marble run:

1. **Unpack Components:** Carefully remove all pieces from the packaging.
2. **Choose a Base:** Select a flat, stable surface for construction. Use the provided base plates if available.

3. **Start Building:** Begin by connecting the larger building blocks to form a stable foundation. The blocks are designed for easy interlocking.
4. **Integrate Track Pieces:** Attach the marble run track pieces (ramps, funnels, curves) to the building blocks. Ensure they are securely clicked into place to create a continuous path for the marbles.
5. **Add Special Features:** Incorporate any special elements like the T-Rex head or other decorative pieces as desired.
6. **Test the Run:** Before full play, drop a marble from the starting point to ensure it travels smoothly through the entire track without getting stuck or falling off. Adjust pieces as needed.

The set encourages imaginative construction. You can build various configurations. Refer to the included instruction booklet for example designs.

OPERATING INSTRUCTIONS

Once your marble run is assembled and tested, it's ready for play:

1. **Place Marbles:** Position one or more marbles at the designated starting point(s) at the top of your constructed track.
2. **Release Marbles:** Gently release the marbles and watch them travel down the ramps, through the funnels, and along the various track pieces.
3. **Observe and Learn:** Encourage children to observe the marbles' movement, understanding concepts like gravity, speed, and cause-and-effect.
4. **Reconfigure and Experiment:** Dismantle and rebuild the marble run in new ways to create different paths and challenges. This promotes creativity and problem-solving.

MAINTENANCE

To ensure the longevity and hygiene of your burgkidz Pista Marble Run:

- **Cleaning:** Wipe down the plastic pieces with a damp cloth and mild soap if necessary. Avoid harsh chemicals or abrasive cleaners.
- **Drying:** Ensure all pieces are completely dry before storing to prevent mildew or damage.
- **Storage:** Store the set in a clean, dry place, away from direct sunlight and extreme temperatures. The original packaging can be used for storage.
- **Inspection:** Periodically check all components for wear and tear, cracks, or loose parts.

TROUBLESHOOTING

If you encounter any issues with your marble run, consider the following:

Problem	Possible Cause	Solution
Marbles get stuck or fall off the track.	Track pieces are not aligned correctly or are not securely connected. Insufficient slope.	Re-check all connections and ensure pieces are firmly clicked into place. Adjust the track's incline to allow for smooth marble flow.
Building blocks detach easily.	Blocks may not be fully pressed together. Excessive force applied during play.	Ensure each block is firmly pressed into its connection point. Build on a stable surface. Remind children to play gently.
Missing pieces.	Pieces may have been overlooked during unpacking or misplaced during play.	Carefully check the packaging and play area. If pieces are genuinely missing from a new set, contact customer support.
