4. OPERATING INSTRUCTIONS

4.1 Filling the Bathtub

Use the ergonomically designed knobs to control the hot water, cold water, and temperature level. Ensure the tub is filled to an appropriate level before activating jets.

4.2 Activating Hydromassage Jets

The 8 whirlpool jets are powered by a 0.75 HP pump. To activate the jets, simply press the built-in control switch.

The power can be adjusted by rotating the dial clockwise or counter-clockwise to customize your massage experience.

4.3 Handheld Shower Operation

The specialized shower head features three soothing spray settings and a 59-inch extra-long retractable stainless steel hose for convenient rinsing.

5. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and pristine appearance of your Empava bathtub.

5.1 Cleaning the Acrylic Surface

The stain-proof white acrylic finish is easy to clean. Use a soft cloth and non-abrasive cleaners. Avoid harsh chemicals or abrasive pads that could scratch the surface.

5.2 Jet and Plumbing Maintenance

Periodically run the jets with a tub cleaner solution to prevent buildup and maintain optimal performance. Consult a professional for any complex plumbing or pump maintenance.

6. TROUBLESHOOTING

If you encounter any issues with your Empava bathtub, please refer to the following common troubleshooting tips:

- **No Power to Jets:** Ensure the power cord is securely plugged into a 120V outlet. Check your circuit breaker.
- **Weak Jet Pressure:** Verify that the water level is sufficient. Ensure no debris is obstructing the jets. Adjust the power dial.
- **Water Leaks:** Immediately turn off the water supply. Check all visible connections for tightness. If the leak persists, contact a qualified plumber.
- **Unusual Noises:** Turn off the unit. Check for any loose components or obstructions in the pump area. If the noise continues, contact customer support.

For issues not covered here, please contact Empava customer service.
