## Claiks CL-RC-YZ-LZL

# Claiks Zero Gravity Recliner Chair User Manual

Model: CL-RC-YZ-LZL

## INTRODUCTION

---

Thank you for choosing the Claiks Zero Gravity Recliner Chair. This oversized electric reclining sofa lounge is designed to provide ultimate comfort and relaxation, featuring NASA-inspired zero gravity positioning, USB and Type-C charging ports, and convenient side pockets. This manual provides essential information for the safe and efficient use of your new recliner.

## SAFETY INFORMATION

---

- Always ensure the power cord is not pinched or damaged.
- Keep children and pets away from the moving parts of the recliner during operation.
- Do not stand on the footrest or armrests.
- Avoid spilling liquids on the control panel or power components.
- Unplug the chair from the power outlet before cleaning or performing any maintenance.
- Do not attempt to disassemble or repair the electrical components yourself. Contact qualified personnel for service.

## PACKAGE CONTENTS

---

Your Claiks Zero Gravity Recliner Chair is typically delivered in two boxes. Please verify that all components are present

before beginning assembly.

- Recliner Base
- Backrest Assembly
- Seat Cushion
- Lumbar Cushion
- Headrest
- Power Adapter and Cord
- Instruction Manual (this document)

## SETUP AND ASSEMBLY

Assembly of your Claike's recliner is designed to be quick and tools-free. Follow these simple steps:

1. Carefully unpack all components from the boxes.
2. Place the recliner base in your desired location, ensuring there is enough space for full recline.
3. Align the backrest assembly with the receiving brackets on the recliner base and slide it down until it clicks securely into place.
4. Connect the power cord from the backrest to the corresponding connector on the base.
5. Plug the power adapter into a standard electrical outlet.
6. Place the lumbar cushion and headrest as desired for optimal comfort.

Your recliner is now ready for use.

## OPERATING INSTRUCTIONS

---

### Reclining Function

The Claiks Zero Gravity Recliner features one-touch motorized controls for effortless adjustment of the backrest and footrest. Locate the control panel on the side of the chair.

- Press the "Up" button to raise the backrest and lower the footrest.
- Press the "Down" button to recline the backrest and raise the footrest.
- Continue pressing the "Down" button to reach the Zero Gravity position (approximately 160°), which helps reduce spinal pressure and promote relaxation.

## Charging Ports

The control panel includes built-in USB and Type-C charging ports, allowing you to conveniently charge your electronic devices while relaxing in the chair.

- Simply plug your device's charging cable into the appropriate USB or Type-C port.

## Side Storage Pockets

Utilize the integrated side pockets to keep remotes, magazines, books, or other small items within easy reach.

## MAINTENANCE AND CARE

---

Proper care will extend the life and appearance of your Claiks recliner.

- **Cleaning:** The chair features wipeable surfaces. For general cleaning, wipe with a soft, damp cloth. For tougher stains, use a mild soap solution and wipe dry immediately. Avoid harsh chemicals or abrasive cleaners. The removable covers are machine-washable; refer to the care label for specific instructions.
- **Mechanism:** The electric reclining mechanism is designed for durability. Avoid forcing the chair into positions manually. If you notice any unusual noises or resistance, discontinue use and contact customer support.
- **Placement:** Position the chair away from direct sunlight and heat sources to prevent fading and material degradation.

## TROUBLESHOOTING

---

Problem	Possible Cause	Solution
Chair does not recline/move.	Not plugged in; power outlet issue; loose connection; power adapter failure.	Ensure power cord is securely plugged into both the chair and a working wall outlet. Check if the outlet works with another device. Verify all internal connections are secure.
Unusual noise during operation.	Obstruction in mechanism; loose hardware.	Inspect for any objects obstructing the mechanism. Ensure all assembly hardware is tightened. If noise persists, contact customer support.
USB/Type-C ports not charging.	Chair not powered; device cable issue; port malfunction.	Ensure the chair is powered on. Try a different charging cable or device. If still not working, the port may be faulty.

If you encounter issues not listed here or if the suggested solutions do not resolve the problem, please contact Claiks customer support for assistance.
