# GDFStudio Twin Over Full House Bunk Bed with Slide

## INSTRUCTION MANUAL

### Introduction and Safety Information

---

Thank you for choosing the GDFStudio Twin Over Full House Bunk Bed with Slide. This manual provides essential information for the safe assembly, operation, and maintenance of your new bunk bed. Please read all instructions carefully before beginning assembly and retain this manual for future reference.

This bunk bed is designed to provide a safe and enjoyable sleeping and play area for children. It features a unique playhouse design with a roof, windows, ladder, and an integrated slide.

### Important Safety Warnings:

- **Maximum Weight Capacity:** The top bunk supports up to 400 lbs. The bottom bunk supports up to 600 lbs. Do not exceed these limits.
- **Age Recommendation:** The top bunk is not suitable for children under 6 years of age.
- **Guardrails:** Always use the guardrails on the top bunk. Ensure they are properly installed and secured.
- **Ladder Safety:** Use the ladder for entry and exit from the top bunk. Do not use the slide as a ladder.
- **Slide Safety:** Only one child should use the slide at a time. Ensure the area around the slide is clear before use.
- **Mattress Size:** Use only mattresses that comply with the recommended dimensions for each bunk to ensure proper guardrail height.
- **Ventilation:** Ensure adequate ventilation around the bed.
- **Regular Checks:** Periodically check and tighten all fasteners.
- **No Horseplay:** Prohibit horseplay on or under the bed.
- **Lighting:** Always use a nightlight on a bunk bed for children.

## Setup and Assembly Instructions

This bunk bed ships in 3 separate boxes. Please ensure all packages have arrived and all components are present before beginning assembly. A detailed assembly instruction booklet with diagrams is included in one of the boxes. Follow the step-by-step instructions provided in that booklet.

**Required Tools:** A Phillips head screwdriver and an Allen wrench (usually included with hardware) are typically required. Ensure you have these tools readily available.

**Two-Person Assembly:** For safety and ease of assembly, it is highly recommended that two adults assemble this bunk bed.

**Configurable Layout:** The lower bed and the slide can be assembled on either the left or right side of the main structure to best suit your room's layout. Refer to the specific diagrams in the assembly manual for these options.

### SIZE: INCH

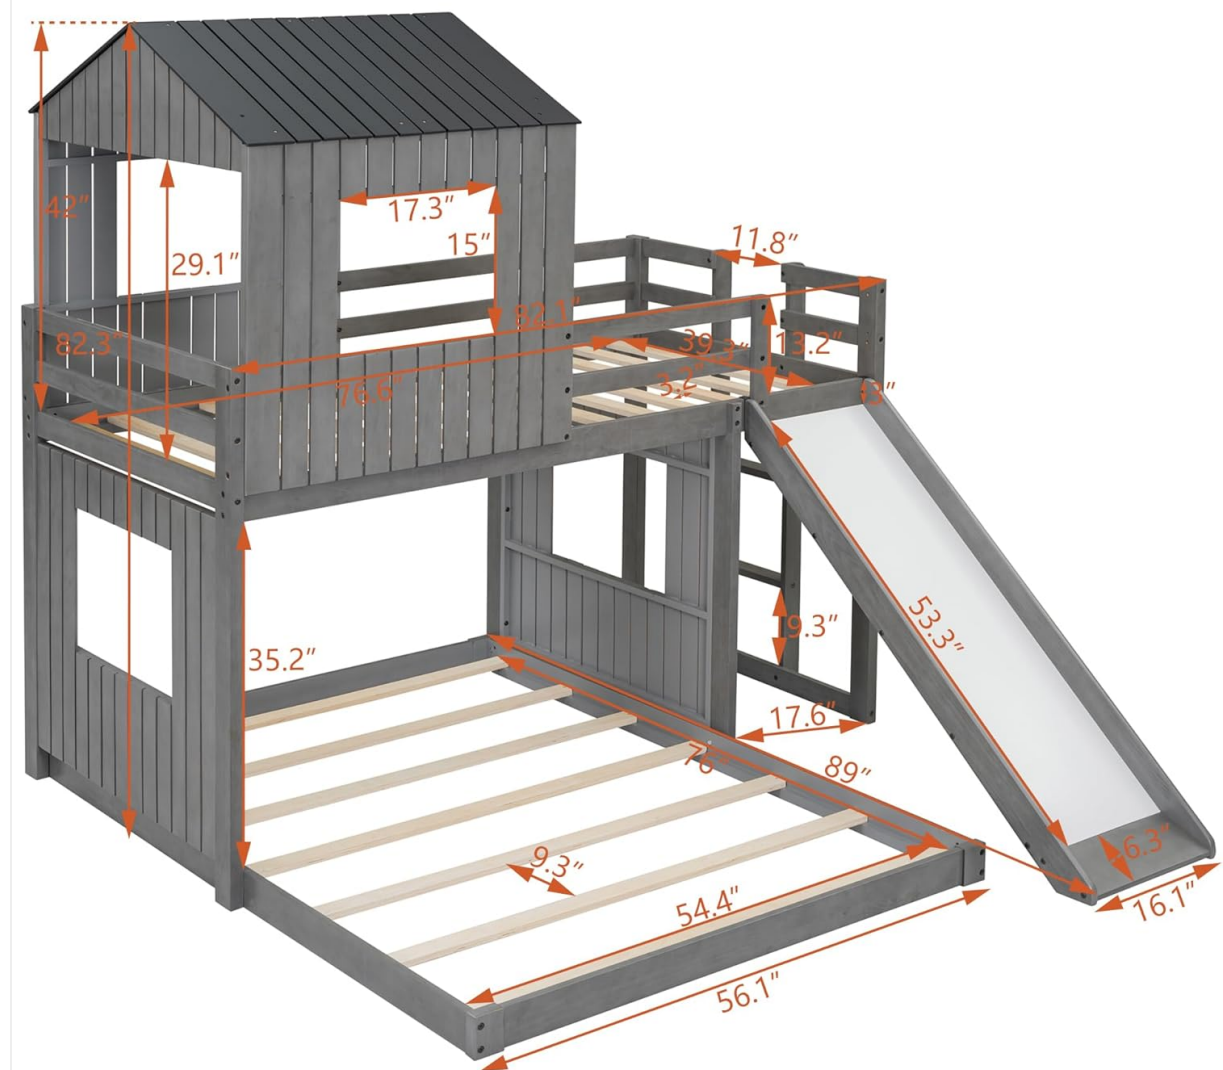

Image: Technical drawing showing the dimensions of the GDFStudio Twin Over Full House Bunk Bed with Slide, including height, length, and width measurements for various components.

- 1. Unpack Components:** Carefully unpack all parts and hardware. Lay them out on a soft, clean surface to prevent scratches. Verify all parts against the included parts list.
- 2. Assemble Main Frame:** Begin by assembling the main frame of the bunk bed according to the diagrams.
- 3. Install Slats:** Securely attach the bed slats to both the top and bottom bunks. These slats provide mattress support and eliminate the need for a box spring.

4. **Attach Guardrails:** Install the full-length guardrails on the top bunk as instructed.
5. **Attach Ladder and Slide:** Depending on your preferred configuration, attach the 3-step ladder and the slide to the designated positions. Ensure all connections are tight and secure.
6. **Final Inspection:** Once assembled, double-check all screws, bolts, and connections to ensure they are fully tightened and secure.

## Operating (Usage Guidelines)

---

Proper use of the bunk bed ensures safety and longevity.

- **Mattress Placement:** Place a standard Twin size mattress on the top bunk and a standard Full size mattress on the bottom bunk. Ensure the mattress thickness on the top bunk does not exceed the maximum height indicated by the guardrail safety label. No box spring is required for either bunk.
- **Ladder Use:** Always use the provided 3-step ladder to access and exit the top bunk. Face the ladder when climbing up or down.
- **Slide Use:** The slide is intended for single-user descent only. Ensure the landing area is clear before sliding. Do not climb up the slide.
- **General Use:** Do not allow children to jump on the bed or hang from any part of the bed frame.

## Maintenance

---

Regular maintenance will help preserve the condition and safety of your bunk bed.

- **Cleaning:** Wipe the bed frame with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the wood finish.
- **Fastener Checks:** Periodically (e.g., monthly or quarterly) inspect all bolts, screws, and other fasteners. Tighten any that have become loose to maintain structural integrity and safety.
- **Wood Care:** Protect the wood from extreme temperature changes and direct sunlight, which can cause warping or fading.
- **Moving the Bed:** When moving the bed, always lift it rather than dragging it to prevent damage to the frame and floor.

## Troubleshooting

---

If you encounter any issues with your bunk bed, refer to the following common solutions:

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose fasteners (screws, bolts)	Inspect all connections and tighten any loose hardware. Ensure the bed is on a level surface.
Squeaking noises	Loose connections or friction between wood parts	Tighten all fasteners. If squeaking persists, apply a small amount of paraffin wax or silicone spray to contact points between wood components.
Missing parts during assembly	Packaging error or lost during unpacking	Refer to the parts list in your assembly manual. Contact GDFStudio customer support with the specific part number(s) for assistance.

Problem	Possible Cause	Solution
Damage to components	Shipping damage or manufacturing defect	Do not attempt to assemble damaged parts. Contact GDFStudio customer support immediately with details and photos of the damage.

## Specifications

---

**Model:** 335867

**Brand:** GDFStudio

**Bed Size:** Twin Over Full

**Main Material:** Solid Pine Wood + MDF

**Color:** Antique Gray

**Overall Dimensions (L x W x H):** 82.1" x 89" x 82.3"

**Product Weight:** 193.65 lbs

**Top Bunk Weight Capacity:** 400 lbs

**Bottom Bunk Weight Capacity:** 600 lbs

**Number of Slats (Top Bunk):** 14

**Number of Slats (Bottom Bunk):** 7

**Origin:** Vietnam

**Assembly Required:** Yes

**Included Components:** Bed frame, guardrails, ladder, slide, hardware.

## Warranty and Support

---

GDFStudio stands behind the quality of its products. For specific warranty details, please refer to the warranty card included with your purchase or visit the official GDFStudio website.

If you require assistance with assembly, have questions about your product, or need to report missing/damaged parts, please contact GDFStudio customer support:

**Online Support:** Visit the GDFStudio official website for FAQs and contact forms.

**Email Support:** Refer to your purchase documentation for the customer service email address.

**Phone Support:** Refer to your purchase documentation for the customer service phone number.

Please have your model number (335867) and proof of purchase ready when contacting support.
