eppfun SK003Pro

eppfun SK003Pro Bluetooth 5.4 Hands-Free Car Speakerphone User Manual

Model: SK003Pro

INTRODUCTION

The eppfun SK003Pro is a Bluetooth 5.4 hands-free car speakerphone designed for clear communication and safe driving. It features advanced noise reduction, voice control integration, and multi-point connectivity.

Key Features:

- **Bluetooth 5.4 Technology:** Integrates the latest low-energy Bluetooth 5.4 chip for longer transmission distance and faster speed.
- **Clear Communication:** Equipped with a Bluetooth 5.4 chipset, integrated speaker, echo and background noise reduction, and volume control for clear calls.
- **Hands-Free Calling:** Utilizes an integrated microphone and DSP technology for effective noise reduction and excellent sound quality. The 3W integrated speaker delivers clear and loud audio.
- **Voice Control:** Supports safe driving with calls and navigation via Google Assistant/Siri Assistant.
- **Multi-Point Connection:** Connects to two devices simultaneously, allowing easy switching between music and calls.
- **Easy Installation:** Simple pairing with your mobile phone and attachment to the sun visor with the included clip.

1. SETUP AND INSTALLATION

Follow these steps to set up your eppfun SK003Pro speakerphone:

1. **Charge the Device:** Before first use, fully charge the speakerphone using the provided USB Type-C cable. A full charge takes approximately 1.5 hours.

Image: The USB Type-C charging port and ON/OFF switch are located on the side of the device. Connect the provided cable to charge.

2. **Power On:** Slide the ON/OFF switch to the "ON" position. The device will enter pairing mode.
3. **Pair with Your Phone:**
 - Enable Bluetooth on your mobile phone.
 - Search for available Bluetooth devices.
 - Select "epfun SK003Pro" from the list to connect. A confirmation tone will sound upon successful pairing.
4. **Install in Vehicle:** Attach the speakerphone to your car's sun visor using the integrated clip. Ensure it is securely fastened and does not obstruct your view.

Clear
High-definition microphone,
Using advanced noise reduction
Technology to make calls clearer, just like
Face-To-Face communication.

Image: The speakerphone is designed to clip easily onto the car's sun visor for optimal microphone and speaker placement.

2. OPERATING INSTRUCTIONS

2.1 Basic Functions

- **Answering/Ending Calls:** Press the **Call button** (phone icon) once to answer an incoming call or end an ongoing call.
- **Rejecting Calls:** Press and hold the **Call button** for 2 seconds to reject an incoming call.
- **Volume Control:** Use the '+' and '-' buttons to adjust the call volume or media playback volume.
- **Redial Last Number:** Double-press the **Call button** to redial the last dialed number.

2.2 Voice Assistant (Siri/Google Assistant)

The eppfun SK003Pro supports voice commands through your phone's assistant.

- **Activate Voice Assistant:** Press the **Microphone button** (microphone icon) once to activate Siri or Google Assistant on your connected phone.

- You can then use voice commands for navigation, making calls, sending messages, and more, ensuring safe driving.

2.3 Multi-Point Connection

The device can connect to two mobile phones simultaneously.

1. Pair the first phone as described in the "Setup" section.
2. After the first phone is connected, put the speakerphone back into pairing mode (usually by briefly disconnecting and reconnecting, or by holding the call button if it has a dedicated pairing function - *refer to specific device prompts if available*).
3. Pair the second phone.
4. The speakerphone will now be connected to both devices, allowing you to switch between them for calls or media.

Image: The speakerphone supports connecting to two mobile phones simultaneously, enabling seamless switching between devices.

3. MAINTENANCE

- **Cleaning:** Use a soft, dry cloth to clean the device. Do not use liquid cleaners or aerosols.

- **Storage:** Store the device in a cool, dry place away from direct sunlight and extreme temperatures.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Charge the device regularly, even if not in use for extended periods. The high-quality lithium battery offers up to 500 hours of standby time.

Image: The device features an 800mAh lithium battery, providing extended standby time and reliable performance.

4. TROUBLESHOOTING

If you encounter issues with your eppfun SK003Pro, refer to the following solutions:

Problem	Possible Cause	Solution
---------	----------------	----------

Problem	Possible Cause	Solution
Cannot pair with phone.	Bluetooth is off on phone; device is not in pairing mode; device battery is low.	<ul style="list-style-type: none"> • Ensure Bluetooth is enabled on your phone. • Make sure the speakerphone is powered on and in pairing mode (LED indicator will flash). • Charge the speakerphone fully. • Try restarting both the speakerphone and your phone.
Poor call quality / Others cannot hear me clearly.	Microphone obstruction; low volume; environmental noise; device not positioned correctly.	<ul style="list-style-type: none"> • Ensure the microphone is not covered. • Adjust the volume using the '+' button on the speakerphone and your phone. • Position the speakerphone closer to your mouth if possible, ensuring it's securely clipped to the sun visor. • Minimize background noise in the car (e.g., close windows). • Ensure the device firmware is up to date (check manufacturer's website).
No sound from speakerphone.	Volume too low; device not connected; media routed to phone speaker.	<ul style="list-style-type: none"> • Increase the volume on both the speakerphone and your phone. • Verify that the speakerphone is successfully connected to your phone via Bluetooth. • On your phone, ensure audio output is directed to the Bluetooth device.
Voice assistant not responding.	Not activated; phone settings.	<ul style="list-style-type: none"> • Press the Microphone button once to activate. • Ensure Siri or Google Assistant is enabled and configured correctly on your phone.
