Ponek M100 Label Maker

Ponek M100 Label Maker Instruction Manual
Model: M100 Label Maker

1. PRODUCT OVERVIEW

The Ponek M100 Label Maker is a versatile thermal printer designed for creating various labels without the need for ink or toner. It offers seamless connectivity via Bluetooth for mobile devices (Android, iOS) and USB for PC, making it suitable for small businesses, offices, homes, and schools. The device supports labels ranging from 0.78 to 2 inches wide and features a powerful app with extensive customization options.

3.2 App Installation & Connectivity

The M100 label maker is compatible with Android, iOS, and PC. For mobile devices, download the "Print Master" app. For PC, download drivers and the "Labelife" APP from the official website.

- **Mobile (Bluetooth):** Download "Print Master" from Google Play or the App Store. Open the app and connect via Bluetooth.
- **PC (USB):** Visit the official Ponek website to download drivers and the "Labelife" APP. Connect the label maker to your PC via USB for printing.

4.2 Label Size and Types

The M100 supports labels from 0.78 inches to 2 inches wide. It comes with three different label sizes to meet various needs:

- 1.57" x 1.18" (40 x 30 mm)
- 1.96" x 1.18" (50 x 30 mm)
- 1.96" x 3.14" (50 x 80 mm)

Note: The M100 barcode printer does not support printing 4x6 shipping labels.

5. MAINTENANCE

5.1 Thermal Printing Technology

The Ponek M100 uses Direct Thermal Technology, eliminating the need for ink or toner cartridges. This reduces maintenance and operating costs.

Image: Features of the Ponek M100, including thermal printing (no ink needed), a rechargeable battery with 30 days standby time, automatic label feeding, and support for 1-2 inch labels.

5.2 Label Durability

The labels produced by the M100 are designed for durability:

- **Water-Proof:** Resistant to water splashes.
- **Low-Temperature Resistance:** Suitable for refrigerated or frozen items.
- **Oil-Proof:** Resists smudging from oils.
- **Anti-Scratch:** Enhanced resistance against scratches.

6. TROUBLESHOOTING

6.1 Light Status Indicators

The power button on your M100 Label Maker indicates the device's status:

- **Solid Green Light:** Functioning normally and fully charged.
- **Flashing Green Light:** Charging.
- **Slow Flashing Red Light:** No paper roll detected or faulty. Reinstall paper roll.
- **Flashing Red Light:** Low battery. Charge battery for 1 hour.
- **No Light after long pressing Power Button for 3s:** Battery depleted. Charge battery for 4 hours.

HOW TO USE THE M100 PRINTER

1. Press the orange button on the side to open the paper bin cover
2. Insert the label roll in the correct direction
3. Adjust the side orange clasp to secure the label roll
4. Use the application to connect via Bluetooth, edit labels, and print

6.2 Common Issues & Solutions

- **Poor Print Quality:** Ensure the label roll is inserted correctly and is not damaged. Check app settings for print density.
- **Connectivity Problems:** Verify Bluetooth is enabled on your mobile device or that the USB cable is securely connected to your PC. Restart the label maker and the app/PC application.
- **Label Feeding Issues:** Ensure the label roll is properly seated and the side clasp is adjusted to the correct width.
