INTASTING Gooseneck Electric Kettle USCIN1016 Instruction Manual

Model: USCIN1016 | Brand: intasting

[Overview](#) [Setup](#) [Introduction](#) [Safety Information](#) [Product](#)
[Operation](#) [Maintenance](#) [Troubleshooting](#) [Specifications](#) [Warranty & Support](#)

1. Introduction

Thank you for choosing the intasting Gooseneck Electric Kettle. This manual provides essential information for the safe and efficient use of your new appliance. Designed for precision and convenience, this kettle features accurate temperature control, a specialized gooseneck spout for controlled pouring, and a durable stainless steel interior. It is ideal for preparing pour-over coffee, brewing various teas, or simply boiling hot water.

2. Important Safety Information

- **Automatic Shut-Off:** The kettle is equipped with an automatic shut-off feature for safety. It will turn off once the desired temperature is reached or if it detects dry boiling.
- **Boil-Dry Protection:** This feature prevents damage to the kettle by automatically shutting off the heating element if there is no water inside.
- **Material Safety:** The interior is made of 100% food-grade 304 stainless steel, ensuring no plastic contact with water and preventing rust. It is BPA-free and non-toxic.
- **Ergonomic Handle:** The handle is designed for comfortable and safe pouring, minimizing the risk of accidental spills or burns.
- **Placement:** Always place the kettle on a stable, flat, and heat-resistant surface.
- **Water Level:** Do not overfill or underfill the kettle. Always ensure the water level is between the minimum and maximum fill lines.
- **Cleaning:** Refer to the maintenance section for proper cleaning instructions. Always unplug the kettle before cleaning.

3. Product Overview

The intasting Gooseneck Electric Kettle consists of two main parts: the kettle body and the intelligent base.

- **Kettle Body:** Features a 0.9L capacity, 0.65mm gooseneck spout, and an ergonomic handle. The interior is 100% stainless steel.
- **Intelligent Base:** Equipped with a digital LED screen, temperature control knob, and buttons for Fahrenheit/Celsius conversion, timer, and hold function.

4. Setup

1. **Unpack:** Carefully remove all components from the packaging.
2. **Initial Cleaning:** Before first use, fill the kettle with water to the MAX line and boil it. Discard the water.

Repeat this process 2-3 times to ensure cleanliness.

3. **Placement:** Place the intelligent base on a dry, flat, and stable surface near a power outlet.
4. **Connect Power:** Plug the power cord into a standard electrical outlet.

5. Operating Instructions

1. **Fill Kettle:** Remove the lid and fill the kettle with fresh water. Do not exceed the MAX fill line (0.9L capacity).
2. **Place on Base:** Securely place the kettle onto the intelligent base.
3. **Power On:** Press the 'START' button on the base. The digital display will illuminate.
4. **Set Temperature:** Use the temperature control knob to select your desired temperature (e.g., 194°F for pour-over coffee, 176°F for green tea). The kettle offers $\pm 1^\circ\text{F}$ accuracy.
5. **Start Heating:** Press the 'START' button again to begin heating. The display will show the current water temperature rising.
6. **Temperature Hold Function:** To keep water at the set temperature, press the 'HOLD' button. The kettle will maintain the temperature for up to 2 hours.
7. **Brew Stopwatch:** Utilize the built-in stopwatch by pressing the 'TIMER' button to monitor your brewing time, especially useful for pour-over coffee.
8. **Pouring:** Once the desired temperature is reached, carefully lift the kettle from the base and use the precision gooseneck spout for controlled pouring.
9. **Fahrenheit/Celsius Conversion:** Press the '°F/°C' button to switch between Fahrenheit and Celsius display.

6. Maintenance

- **Cleaning:** Hand wash the kettle body. Do not immerse the intelligent base in water. Wipe the exterior of the kettle and base with a damp cloth.
- **Descaling:** Over time, mineral deposits may accumulate. To descale, fill the kettle with a mixture of water and white vinegar (or a commercial descaling solution) and boil. Let it sit for an hour, then rinse thoroughly.
- **Storage:** Ensure the kettle is clean and dry before storing. Wrap the power cord neatly around the base for compact storage.

7. Troubleshooting

- **Kettle not heating:** Ensure the kettle is properly seated on the base and the power cord is securely plugged into a working outlet. Check if the 'START' button has been pressed.
- **Water not reaching desired temperature:** Verify the temperature setting on the digital display. If the kettle has boil-dry protection activated, ensure there is sufficient water.
- **Unusual noises:** Minor boiling sounds are normal. If loud or unusual noises occur, check for mineral buildup and descale if necessary.
- **Leakage:** Ensure the lid is properly closed and the kettle is not overfilled.

8. Product Specifications

Feature	Detail
Brand	intasting
Model Name	CEK-204
Item Model Number	USCIN1016
Color	Hunter Green
Capacity	0.9 Liters
Material	Stainless Steel (Non-Toxic)
Special Features	Automatic Shut-Off, Ergonomic Handle, Rapid Boil, Rotatable Base, Temperature Control, Brew Stopwatch
Temperature Accuracy	±1°F
Gooseneck Spout	0.65mm fine spout
Max Temp Hold Time	2 hours
Product Dimensions	10.8"L x 8.1"W x 7.4"H
Item Weight	2.61 pounds
Care Instructions	Hand Wash

9. Warranty and Support

For warranty information or customer support, please refer to the contact details provided with your purchase or visit the official intasting website. Keep your purchase receipt for warranty claims.
