SAFETY INFORMATION

- Always assemble the bed on a soft, clean surface to prevent damage to the product or your floor.
- Ensure all bolts and screws are securely tightened before using the bed. Periodically check and re-tighten fasteners.
- Do not use power tools for assembly as this may overtighten and damage the fasteners or components.
- Keep small parts out of reach of children during assembly.
- This product is designed for indoor use only.
- Two people are recommended for assembly to ensure safety and ease of installation.

PACKAGE CONTENTS

Before beginning assembly, verify that all components are present and undamaged. If any parts are missing or damaged,

please contact customer support.

- Curved Headboard (1)
- Side Rails (2)
- Footboard (1)
- Center Support Beam (1)
- Support Legs (4-6, depending on model)
- Wooden Slats (approx. 12-14)
- Hardware Pack (bolts, washers, nuts, Allen wrench)

SETUP AND ASSEMBLY

Follow these steps carefully to assemble your platform bed. It is recommended to have two people for assembly.

Step 1: Attach Legs to Headboard and Footboard

Carefully unbox the headboard and footboard. Attach the wooden support legs to the designated points on the headboard and footboard using the provided bolts and Allen wrench. Ensure they are tightened securely.

Step 2: Connect Side Rails to Headboard and Footboard

Position the headboard and footboard upright. Align the side rails with the connection points on both the headboard and footboard. Secure them using the appropriate bolts and washers from the hardware pack. Do not fully tighten all bolts until the entire frame is assembled.

Step 3: Install Center Support Beam

Place the center support beam down the middle of the bed frame. Attach it to the designated brackets on the headboard and footboard. Ensure any adjustable support legs on the beam are extended to touch the floor.

Step 4: Place Wooden Slats

Distribute the wooden slats evenly across the side rails and center support beam. Many slats come with pre-drilled holes or Velcro strips to secure them in place. If applicable, use the provided screws to attach the slats to the frame. This step provides the necessary support for your mattress.

Step 5: Final Tightening

Once all components are in place, go back and fully tighten all bolts and screws. Do not overtighten. Ensure the frame is stable and level.

OPERATING INSTRUCTIONS

Your Roman Curved Headboard Upholstered Platform Bed is designed to support a mattress directly, eliminating the need for a box spring. Simply place your mattress on top of the assembled wooden slats.

- **Mattress Placement:** Carefully place your King-sized mattress onto the wooden slats.
- **Weight Capacity:** The bed frame is designed to support the weight of a standard King-sized mattress and two adults. Avoid excessive jumping or concentrated weight on specific areas.

MAINTENANCE

Upholstery Care (Olive Green Performance Velvet)

- **Regular Cleaning:** Vacuum the velvet upholstery regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain and damage the pile. For stubborn stains, use a mild, water-free solvent or dry-cleaning product. Test on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading.

Frame Care

- **Fastener Checks:** Periodically (every 3-6 months) check all bolts and screws and re-tighten them as necessary to maintain stability.
- **Cleaning:** Wipe wooden legs with a soft, damp cloth. Avoid harsh chemicals.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Bed feels wobbly or unstable	Loose fasteners; uneven assembly.	Ensure all bolts and screws are fully tightened. Check that the bed is on a level surface. Re-assemble if necessary, ensuring all parts are correctly aligned.
Squeaking noises	Loose connections; friction between parts.	Re-tighten all bolts. If squeaking persists, disassemble and re-assemble, ensuring all connections are snug. Applying a small amount of wax or silicone spray to contact points (not on upholstery) can reduce friction.
Slats falling out of place	Slats not properly secured; incorrect mattress size.	Ensure slats are correctly positioned and secured (if applicable, using screws or Velcro). Verify that your mattress is the correct King size for the frame.

SPECIFICATIONS

Model: Roman Curved Headboard Upholstered Platform Bed

Size: King

Color: Olive Green

Upholstery Material: Performance Polyester Velvet

Frame Material: Pinewood and Rubberwood

Product Dimensions (L x W x H): 82" x 89" x 42"
