## 2. SAFETY INFORMATION

---

**WARNING:** Failure to follow these safety instructions could result in serious injury or death.

- Always follow the assembly instructions carefully.
- Ensure all connections are tight and secure before use. Periodically check and tighten hardware as needed.
- Do not allow children under 6 years of age on the upper bunk.
- Use only mattresses that meet the recommended thickness (less than 6 inches) and dimensions for a full-size bed.
- Always use the provided guardrails on the upper bunk. Do not remove them.
- Do not attach or hang items on any part of the loft bed that are not designed for use with the bed, such as hooks, belts, or ropes.
- Prohibit more than one person on the upper bunk.
- Prohibit jumping on the bed.

- Always use the ladder for entering and exiting the upper bunk.
- Keep this manual for future reference.

### 3. PACKAGE CONTENTS

---

Your loft bed is delivered in two packages. Please verify that all components and hardware are present before beginning assembly. If any parts are missing or damaged, contact customer support.

### 4. SETUP & ASSEMBLY

---

Assembly requires two adults. Clear a spacious area for assembly. Do not fully tighten bolts until instructed.

#### **Step 1: Assemble the Main Bed Frame**

Connect the side rails to the headboard and footboard using the provided bolts and washers. Ensure the guardrail attachment points are facing upwards.

## Step 2: Install Bed Slats and Support Slats

Place the bed slats across the bed frame, securing them with screws. Install the central reinforced support slat for superior stability as indicated in the diagram.

## Step 3: Assemble the Built-in Desk

Attach the desk support legs to the main bed frame. Then, place the desk surface panel onto the supports and secure it with screws. Ensure the desk is level and stable.

## Step 5: Install Guardrails

Attach the guardrails to the upper bunk bed frame. Ensure they are securely fastened to prevent accidental falls.

## Step 6: Final Tightening and Inspection

Once all components are assembled, go back and fully tighten all bolts and screws. Do not overtighten. Inspect the entire structure to ensure it is stable and all parts are correctly installed. Place a full-size mattress (less than 6 inches thick, not included) on the bed slats.

## 5. USAGE

---

### Using the Loft Bed

- The upper bunk is designed for sleeping. Ensure a mattress of appropriate size and thickness is used.
- Always use the provided ladders to access the upper bunk. Do not climb on the bed frame directly.
- The guardrails are essential for safety; ensure they are always in place.

### Using the Built-in Desk

The integrated desk provides a dedicated workspace or study area. Avoid placing excessively heavy items on the desk surface.

Image 6: A close-up of the desk area, illustrating its functionality as a study or work surface.

## Using the Ladder Platform

The ladder platform offers easy access to the upper bunk and can also serve as an additional surface for lightweight items or decor.

## 6. MAINTENANCE

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners that may damage the finish.
- **Hardware Check:** Periodically (e.g., every 3 months) check all bolts, screws, and connections to ensure they are tight. Retighten as necessary to maintain structural integrity.
- **Inspection:** Regularly inspect the bed for any signs of wear, damage, or loose parts. Address any issues promptly.
- **Weight Capacity:** Do not exceed the recommended weight capacity for the upper bunk (typically around 200-250 lbs, refer to product specifications if available).

## 7. TROUBLESHOOTING

---

### Bed feels wobbly after assembly:

Ensure all bolts and screws are fully tightened. Check that all components are correctly aligned according to the assembly instructions. Disassemble and reassemble if necessary, paying close attention to each step.

### Missing parts:

Carefully check both packages and all packing materials. If parts are still missing, contact customer support with your model number and a description of the missing parts.

### Difficulty climbing the ladder:

Ensure the ladder is securely attached and stable. If the user is a child, ensure they are old enough and capable of safely using a loft bed ladder.
