Operating Instructions

Converting to a Bed

Your sectional sofa features a pull-out mechanism to convert it into a comfortable bed for guests.

1. **Clear the Area:** Ensure there is enough space in front of the sofa for the bed extension.
2. **Pull Out Bed:** Locate the fabric handles or loops on the front of the sofa's seat section. Gently pull these handles outwards and upwards to extend the bed frame.
3. **Secure Extension:** The bed frame will lock into place when fully extended. You may need to adjust the ottoman to align with the extended bed section for a larger sleeping surface.
4. **Retract Bed:** To convert back to a sofa, lift the extended section slightly and push it back into the sofa frame until it locks securely.

- **Side Table:** The side table can be rotated 360° to position it conveniently for drinks or small items.

Maintenance and Care

Proper care will extend the life and appearance of your sectional sofa.

- **Regular Cleaning:** Vacuum the fabric regularly using an upholstery attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub. For stubborn stains, use a mild fabric cleaner designed for upholstery, testing on an inconspicuous area first.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position your sofa away from direct sun or use curtains/blinds.
- **Rotate Cushions:** Periodically rotate and fluff cushions to ensure even wear and maintain their shape.
- **Check Connections:** Periodically check and tighten all bolts and screws to ensure the sofa remains stable.
- **USB Port:** Keep the USB port free of dust and debris. Do not force plugs into the port.

Troubleshooting

Problem	Possible Cause	Solution
Sofa feels unstable or wobbly.	Loose legs or connectors.	Check and tighten all leg screws and section connectors. Ensure the sofa is on a level surface.
Pull-out bed mechanism is stiff or difficult to operate.	Mechanism may need lubrication or is misaligned.	Ensure no obstructions. Gently pull and push the mechanism a few times. If persistent, apply a silicone-based lubricant to moving parts.
USB charging port is not working.	Power cable not connected or faulty. Device cable issue.	Verify the sofa's power cable is securely plugged into a working wall outlet. Try a different USB cable or device to rule out cable/device issues.
Ottoman lid does not close properly.	Items obstructing the closing mechanism.	Remove any items from the storage compartment that may be preventing the lid from closing flush.
