## HAPAW P003

# HAPAW P003 Cat Water Fountain User Manual

Model: P003

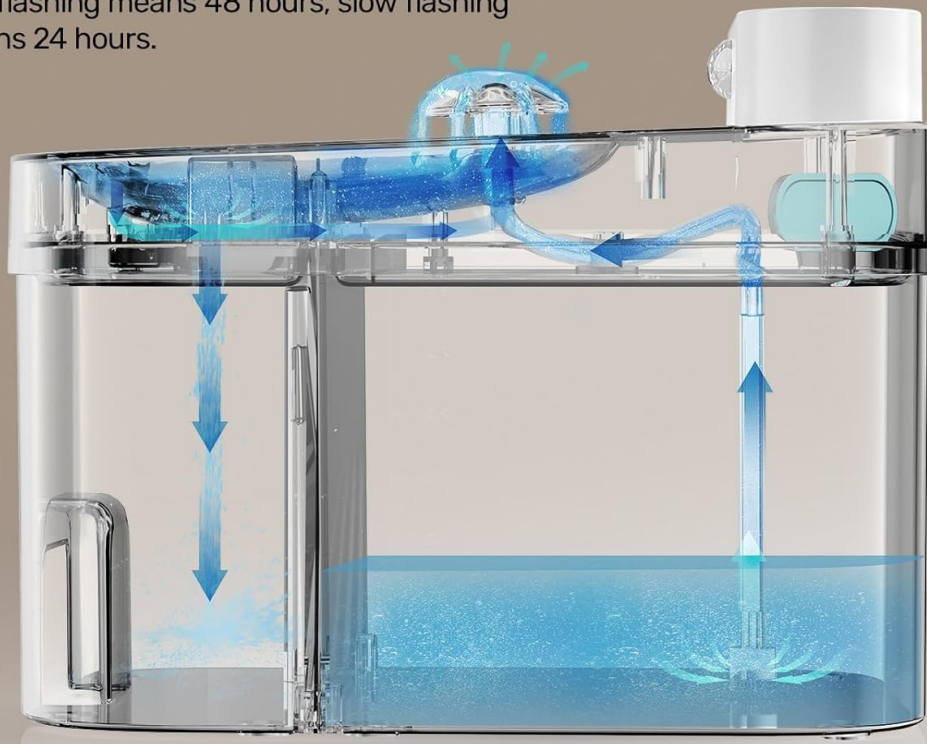

## 1. PRODUCT OVERVIEW

---

The HAPAW P003 Cat Water Fountain is designed to provide fresh water for your pets with an innovative wastewater separation system. It features a large 3-liter capacity, wireless operation, and multiple flow modes to encourage hydration.

# Separate Clean Water & Wastewater Tank Design

How to drain: In mode "1", long press the mode button, fast flashing means 48 hours, slow flashing means 24 hours.

**46oz/1.35L**  
Wastewater tank

**101oz/3L**  
Clean water tank

**Image 1.1:** The HAPAW P003 features a separate clean water tank (101oz/3L) and a wastewater tank (46oz/1.35L) for improved hygiene.

# No Filter Cotton Needed

Saving a large cost

**Image 1.2:** The fountain utilizes a durable, reusable black sponge to trap pet hair and food residue, eliminating the need for traditional filter cotton.

## 2. PACKAGE CONTENTS

Before setup, please ensure all components are present in the package:

- Main Unit with Control Panel
- Clean Water Tank
- Wastewater Tank
- Stainless Steel Water Tray
- Water Outlet Component
- Black Sponge (reusable)
- Filter Plate
- Power Adapter and USB Cable
- User Manual

**Video 2.1:** Unboxing and overview of the HAPAW P003 Cat Water Fountain components.

### 3. SETUP INSTRUCTIONS

1. **Assemble the Tanks:** Align the clean water tank and the wastewater tank. They connect magnetically. Ensure they are securely joined.
2. **Place Main Unit:** Carefully place the main unit (the top part with the control panel) onto the assembled tanks.
3. **Insert Filter Components:** Place the black sponge into its designated slot on the main unit, followed by the filter plate.
4. **Install Water Tray:** Position the stainless steel water tray on top of the main unit, ensuring it sits correctly. Then, insert the water outlet component into the center of the tray.
5. **Fill with Water:** Fill the clean water tank with fresh water. Do not exceed the maximum fill line.
6. **Charge the Fountain:** Connect the power adapter to the fountain and a power outlet to charge the internal battery. The battery indicator lights will show the charging status.

Image 3.1: The HAPAW P003 can be powered by AC or its internal 5000 mAh rechargeable battery.

## 4. OPERATING INSTRUCTIONS

### Power On/Off

Press the power button on the control panel to turn the fountain on or off. Note that when connected to a household power source, the machine cannot be turned off via the button; it will operate continuously.

### Operating Modes

The fountain offers two operating modes:

- **Mode 1 (Continuous Flow):** Water flows continuously. This mode requires the fountain to be plugged into a power source at all times.
- **Mode 2 (Sensor-Activated Flow):** Water flows for 1 minute when a pet approaches within 1-1.5 meters. This mode is ideal for battery operation, as continuous flow is disabled when running on battery power.

To switch between Mode 1 and Mode 2, press the mode button on the control panel.

**Image 4.1:** The fountain supports both continuous flow (Mode 1) and sensor-activated flow (Mode 2) for flexible use.

### Automatic Drain Time

In Mode 1, you can set the automatic drain time. Long press the mode button: fast flashing indicates 48

hours, slow flashing indicates 24 hours.

## Manual Drain

In Mode 2, press and hold the mode button for 2 seconds to activate the drain valve and manually start draining the wastewater.

**Video 4.1:** Demonstration of the HAPAW P003's features, including separate tanks, capacity, battery, drain time settings, and operating modes.

## 5. MAINTENANCE AND CLEANING

---

Regular cleaning is essential for maintaining water quality and extending the life of your fountain. It is recommended to clean the circulatory system fittings and water tank once a week.

1. **Disassemble:** Turn off the fountain and unplug it if connected to power. Remove the water outlet component, stainless steel tray, filter plate, and black sponge.
2. **Separate Tanks:** Gently separate the clean water tank and wastewater tank from the main unit.
3. **Clean Components:** Rinse the stainless steel tray, water outlet component, filter plate, black sponge, and both water tanks thoroughly with water. The black sponge is reusable and should be cleaned, not replaced.
4. **Clean Main Unit:** The main unit is **not water washable**. Wipe it clean with a damp cloth. Ensure no water enters the electronic components.
5. **Reinstall Wastewater Tank:** When reinstalling the wastewater tank, ensure the red sensor faces up to ensure accurate level detection.
6. **Reassemble:** Reassemble all components in reverse order of disassembly.

# Easy to Clean

Rinse tank and tray,  
wipe main unit

**Note:**

Main unit is not water washable  
It is recommended to clean the circulatory  
system fittings and water tank once a week.

**Image 5.1:** Disassembled parts of the fountain being cleaned. Remember, the main unit should only be wiped, not submerged.

**Video 5.1:** Important tips for cleaning and reassembling the HAPAW P003, including proper wastewater tank installation.

## 6. TROUBLESHOOTING

---

• **No Water Flow:**

- Check if the clean water tank has sufficient water.
- Ensure the fountain is properly powered (either plugged in or battery charged).
- Inspect the pump and water outlet for any blockages from pet hair or debris. Clean if necessary.

• **Excessive Noise:**

- Ensure all components are correctly assembled and seated.
- Check for any debris or air bubbles in the pump or water circulation system.
- Verify the water level is adequate.

• **Battery Not Charging:**

- Confirm the power adapter and USB cable are securely connected to both the fountain and the power outlet.
- Try using a different power outlet or USB cable to rule out external issues.
- **Sensor Not Activating (Mode 2):**
  - Ensure the motion sensor on the main unit is clean and unobstructed.
  - Verify the fountain is in Mode 2.

## 7. SPECIFICATIONS

Feature	Detail
Brand	HAPAW
Model Number	P003
Clean Water Capacity	3 Liters (101 oz)
Wastewater Capacity	1.35 Liters (46 oz)
Material	Acrylonitrile Butadiene Styrene (ABS)
Voltage	3.7 Volts
Product Dimensions	20L x 18W x 16H Centimetres
Item Weight	1.45 Kilograms
Special Features	Automatic, Cordless, Easy to Clean, Easy to Use, Wastewater Separation, No Filter Cotton
