## Vega EDGE-K-M

# Vega Edge Full Face Helmet User Manual

Model: EDGE-K-M

## 1. Introduction

This manual provides essential information for the proper use, maintenance, and care of your Vega Edge Full Face Helmet. Please read this manual thoroughly before using your helmet to ensure maximum safety and to prolong the life of the product. This helmet is designed for use by motorcyclists and is ISI certified, meeting safety standards for head protection.

## 2. Safety Information

Your safety is paramount. Always wear a helmet when riding a motorcycle. This Vega Edge helmet is ISI certified, indicating it meets specific safety standards. However, no helmet can protect against all foreseeable impacts.

- **Proper Fit:** Ensure the helmet fits snugly and comfortably. A loose helmet can shift during an impact, reducing its protective capability. Refer to the sizing guide.
- **Secure Fastening:** Always fasten the chin strap securely. The quick-release buckle should be engaged and tightened so the helmet cannot be easily pulled off.
- **Visor Use:** Keep the visor down while riding to protect your eyes from wind, debris, and insects.
- **Impact Damage:** If the helmet sustains an impact, even if no visible damage is present, it should be replaced. The protective capabilities may be compromised.
- **Chemicals:** Do not expose the helmet to gasoline, cleaning fluids, paints, or other solvents, as these can damage the helmet's materials and compromise its integrity.

## 3. Package Contents

Upon unpacking your Vega Edge Full Face Helmet, please ensure all items are present:

- Vega Edge Full Face Helmet (with clear visor installed)

- User Manual (this document)

## 4. Sizing and Fit (Setup)

A correctly sized helmet is crucial for safety and comfort. Follow these steps to ensure a proper fit:

1. **Measure Your Head:** Use a flexible measuring tape. Wrap it around your head, approximately 1 inch (2.5 cm) above your eyebrows and ears, at the largest part of your head.
2. **Refer to Sizing Chart:** Compare your measurement (in millimeters) to the chart below to find your recommended helmet size.
3. **Try On the Helmet:** The helmet should feel snug all around your head. It should not move freely when you shake your head. There should be no pressure points.
4. **Check for Movement:** With the chin strap fastened, try to rotate the helmet from side to side and front to back. Your skin should move with the helmet, indicating a secure fit.

*Image 4.1: Detailed helmet sizing guide with measurement instructions and size chart for M (570mm) and L (580mm) sizes.*

**Note:** A loose-fitting helmet significantly increases the risk of injury in an impact. If you are between sizes, it is generally recommended to choose the smaller size for a snugger fit, provided it is comfortable and does not cause pressure points.

## 5. Operating Instructions

### 5.1 Visor Operation

The Vega Edge helmet features a wide vision, scratch-resistant, and UV-protected clear visor. It can be easily opened and closed.

- **Opening:** Gently push the visor upwards from the bottom edge until it locks into the desired open position.
- **Closing:** Pull the visor downwards until it securely latches into the closed position. Ensure it is fully closed before riding.
- **Visor Removal/Installation:** For cleaning or replacement, consult a qualified technician or refer to specific instructions if provided with a visor replacement kit. Avoid forcing the visor.

*Image 5.1: Side view of the helmet showing the visor mechanism.*

### 5.2 Buckle Operation

The helmet is equipped with a metallic quick-release silent buckle for easy and secure fastening.

- **Fastening:** Insert the male end of the buckle into the female receiver until you hear a distinct "click." Gently pull on the strap to ensure it is securely latched. Adjust the strap length for a snug fit under your chin.
- **Releasing:** Press the release button or lever on the buckle. The male end will disengage, allowing you to remove the helmet.

## 6. Maintenance and Care

Proper maintenance will extend the life of your helmet and ensure its continued effectiveness.

### 6.1 Shell Cleaning

- Use a soft cloth dampened with mild soap and water.
- Avoid abrasive cleaners, solvents, or harsh chemicals, as these can damage the helmet's finish and material integrity.
- Wipe gently and dry with a clean, soft cloth.

### 6.2 Visor Cleaning

- Rinse the visor with lukewarm water to remove loose dirt and debris.
- Use a soft cloth and a small amount of mild soap (e.g., baby shampoo) if necessary.
- Rinse thoroughly and dry with a clean, lint-free microfiber cloth. Do not wipe a dry visor, as this can cause scratches.

### 6.3 Interior Cleaning

The helmet features anti-allergenic, moisture-wicking interiors for comfort. While specific instructions for removable lining are not detailed, general care involves:

- If the lining is removable, hand wash it gently with mild soap and cold water. Air dry completely away from direct sunlight or heat.
- If the lining is not removable, use a damp cloth with a small amount of mild soap to spot clean. Allow to air dry thoroughly before use.
- Ensure the helmet is completely dry before storage or reuse to prevent mildew.

*Image 6.1: Features highlighting removable and washable lining, and odor-resistant pads.*

### 6.4 Storage

Store your helmet in a cool, dry place away from direct sunlight and extreme temperatures. Do not store it near chemicals or solvents.

*Image 6.2: Features highlighting scratch-resistant and UV-resistant properties, and ventilation system.*

## 7. Troubleshooting

This section addresses common concerns you might encounter with your helmet.

- **Visor Fogging:** In cold or humid conditions, the visor may fog. Ensure proper ventilation by slightly opening the visor or utilizing any available vents. Anti-fog treatments can also be applied to the visor.
- **Discomfort/Pressure Points:** If you experience discomfort or pressure points, re-evaluate the helmet size and fit. Ensure the helmet is worn correctly. If discomfort persists, the helmet may not be the right shape for your head.
- **Loose Fit:** If the helmet feels loose, re-check the sizing. A loose helmet is unsafe and should be replaced with a smaller, properly fitting one.

## 8. Specifications

| Feature | Detail |
| --- | --- |

| | |
|---|---|
| Model Name | Vega Edge |
| Model Number | EDGE-K-M |
| Brand | Vega |
| Colour | Black |
