Kviflon 46-inch Ceiling Fan with Lights and Remote/APP Control (Model 8249)

User Instruction Manual

INTRODUCTION

Thank you for choosing the Kviflon 46-inch Ceiling Fan. This manual provides detailed instructions for the safe installation, operation, and maintenance of your new ceiling fan. Please read this manual thoroughly before installation and keep it for future reference.

IMPORTANT SAFETY INFORMATION

- Always disconnect power at the circuit breaker before installation or servicing.
- Ensure all electrical connections comply with local codes and ordinances.
- Consult a qualified electrician if you are unfamiliar with electrical wiring.
- Mount the fan to a ceiling joist or support structure capable of supporting the fan's weight.
- Keep hands clear of fan blades during operation.
- Do not use with dimmer switches or fan speed controllers not specified for this product.

PACKAGE CONTENTS

Verify that all components are present before beginning installation:

- Ceiling Fan Motor Assembly
- Fan Blades (6) - Double-sided (White and Burlywood finishes)
- LED Light Kit
- Remote Control
- Mounting Hardware (Junction Box, Mounting Bracket, Screws, Safety Rope)
- Instruction Manual

Note: The screws for attaching the blades to the motor are pre-installed on the motor assembly for your convenience.

SETUP AND INSTALLATION

This ceiling fan is designed for flush mount installation on standard or low-profile ceilings. It is not suitable for sloped ceilings.

1. Prepare for Installation

1. Turn off power at the circuit breaker.
2. Ensure the mounting location can support the fan's weight.
3. Gather necessary tools (screwdriver, wire strippers, ladder, etc.).

2. Mounting the Bracket

Attach the mounting bracket to the ceiling junction box. Ensure it is securely fastened.

4. Wiring the Fan

Connect the fan's electrical wires to the household wiring according to the provided wiring diagram in the detailed manual. Use wire nuts to secure connections. Ensure the safety rope is also secured. Refer to the installation video above for visual guidance.

5. Final Assembly

Once wiring is complete, carefully lift the fan assembly and secure it to the mounting bracket. Attach the canopy to cover the wiring connections.

OPERATING INSTRUCTIONS

Your Kviflon ceiling fan can be controlled via the included remote control or a smartphone application.

Remote Control Functions

The remote control allows you to adjust fan speed, light settings, and activate the timer and reverse functions.

- **Power On/Off:** Turns the fan and light on or off.
- **Fan Speed:** Select from 6 adjustable speeds (1-2 for sleeping, 3-4 for natural wind, 5-6 for strong wind).
- **Light On/Off:** Controls the LED light independently.
- **Color Temperature:** Adjusts the light color from Warm (3000K), Natural (4500K), to White (6000K).

- **Brightness:** Dims the light from 20% to 100%.
- **Forward/Reverse (F/R):** Changes the blade rotation direction for seasonal use.
- **Timer:** Sets a 2-hour timer for automatic shutdown.

Reverse Rotation Function

The reversible DC motor allows for year-round use. In summer, the fan rotates counter-clockwise to create a downward airflow for cooling. In winter, it rotates clockwise to circulate warm air trapped near the ceiling.

To activate: Press the F/R key on the remote. The fan will stop completely and then automatically reverse direction after 5-8 seconds.

REVERSE ROTATION

With intelligent reverse rotation design, altering the airflow direction for enhanced circulation, making it suitable for all seasons.

APP Control

Control your fan using the dedicated smartphone application. Follow these steps to pair your device:

1. Download the "FanLamp Pro" app from your app store or scan the QR code provided in the manual.
2. Ensure Bluetooth is enabled on your smartphone.
3. Open the "FanLamp Pro" app and enter the main page.
4. Click the "+" button to add a new fan lamp.
5. Enter the control page after creating the device.
6. Click the pair button several times within 5 seconds after the fan is powered on. If the fan light flashes or beeps, it means the phone has successfully paired.

Maintenance

Regular maintenance ensures optimal performance and extends the life of your ceiling fan.

- **Cleaning:** Periodically clean the fan blades and motor housing with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- **Tighten Screws:** Check all screws and connections annually to ensure they are secure.
- **Lubrication:** The fan's motor is permanently lubricated and does not require additional oiling.
- **Light Source:** The integrated LED light source is designed for long life and is not user-replaceable.

Troubleshooting

If you experience issues with your fan, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Fan does not start	No power supply; Loose wiring; Remote control battery low.	Check circuit breaker; Verify all wire connections are secure; Replace remote control batteries.
Light does not work	Loose wiring; Light switch off; LED driver issue.	Check wiring connections; Ensure light switch is on; Contact customer support if LED is faulty.
Fan wobbles	Loose blades; Unbalanced blades; Loose mounting bracket.	Ensure all blade screws are tight; Use a balancing kit (not included) if necessary; Tighten mounting bracket screws.
Remote control not working	Battery low/dead; Remote not paired; Obstruction between remote and receiver.	Replace batteries; Re-pair remote with fan (refer to operating instructions); Remove obstructions.
APP control not connecting	Bluetooth off; Incorrect pairing steps; App issue.	Ensure Bluetooth is on; Follow APP pairing instructions carefully; Reinstall app if necessary.
