

Reobrix 66801

Reobrix Steam Train Building Block 66801 Instruction Manual

Brand: Reobrix | Model: 66801

1. INTRODUCTION

Thank you for choosing the Reobrix Steam Train Building Block Model 66801. This set allows you to construct a detailed replica of a classic steam locomotive, designed for display and appreciation by enthusiasts aged 14 and above. With over 1546 precision-crafted pieces, this model offers an engaging building experience and results in a striking display piece.

This manual provides essential information regarding safety, assembly, features, and maintenance to ensure a successful and enjoyable experience with your new model.

2. SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts.

- This product contains small parts and is not suitable for children under 3 years of age.
- Adult supervision is recommended during assembly, especially for younger builders.

- Keep all packaging materials away from children to prevent suffocation.

3. PACKAGE CONTENTS

Upon opening the product box, please verify that all components are present:

- Building blocks (1546+ pieces)
- Instruction Manual
- Customized scene backdrop (for display)
- Sturdy track base (for display)

If any parts are missing or damaged, please contact Reobrix customer support for assistance.

4. ASSEMBLY INSTRUCTIONS

The Reobrix Steam Train Building Block Model 66801 is designed for a detailed and rewarding assembly process. Please follow the included printed instruction manual carefully for step-by-step guidance.

1. **Preparation:** Unpack all components and organize the building blocks by type or color as suggested in the manual. Ensure you have a clean, well-lit workspace.
2. **Follow the Manual:** Refer to the detailed, illustrated instructions provided in the dedicated instruction manual. Each step is designed to guide you through the construction process.
3. **Modular Assembly:** The model utilizes modular assembly, allowing you to build sections of the train independently before combining them.
4. **Connecting Carriages:** The locomotive and tender (coal cart) connect via a hook mechanism. Ensure a secure connection for display.
5. **Display Base:** Once assembled, place the model on the sturdy track base and integrate the customized scene backdrop to create a miniature railroad landscape.

5. DISPLAY AND FEATURES

The Reobrix Steam Train Model 66801 is designed as a collectible display set, featuring intricate details and historical accuracy.

- **Authentic Design:** Relive the nostalgia of 1926 with a classic heavy-duty design, lifelike nameplate details, and precision craftsmanship. The model is inspired by the 9000 Class steam locomotive.
- **Detailed Interior:** The train cars feature realistic interior details, adding to the model's authenticity.
- **Kinetic Transmission:** The model incorporates a kinetic transmission system, allowing the wheels and rods to move together, mimicking a real steam locomotive.
- **Display Backdrop:** A customized scene backdrop is included, seamlessly integrating with the track base to enhance the display of your completed model.

6. MAINTENANCE

To preserve the appearance and integrity of your Reobrix Steam Train model, follow these maintenance

guidelines:

- **Cleaning:** Dust the model regularly with a soft, dry cloth or a soft brush. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** Store the model in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the model with care to avoid accidental detachment of pieces. If moving the model, support it from the base.

7. TROUBLESHOOTING

If you encounter any issues during assembly or with the completed model, consider the following:

- **Missing Pieces:** Double-check all packaging and bags. If a piece is genuinely missing, refer to the contact information for Reobrix customer support.
- **Difficulty Connecting Pieces:** Ensure pieces are correctly oriented and aligned. Apply gentle, even pressure. Avoid forcing pieces together, as this can cause damage.
- **Unstable Sections:** Review the assembly steps for the specific section. Ensure all connections are firm and that no steps were skipped or performed incorrectly.
