Key Features:

- **4 Unlocking Methods:** Fingerprint, Passcode, Mobile App, and Apple Watch.
- **Durable Construction:** Made from alloy steel and zinc alloy with a hardened steel shackle for cut resistance.
- **Weatherproof Design:** IP65 rated for water, dust, anti-rust, and anti-corrosion, suitable for indoor and outdoor use.
- **Long Battery Life:** Built-in 110mAh rechargeable Li-ion battery provides up to 6 months standby time or 2000 unlocks on a single 40-minute Type-C charge.

Getting Started

1. Charging the Padlock

Before initial use, fully charge the padlock. The USB-C charging port is located at the bottom of the device.

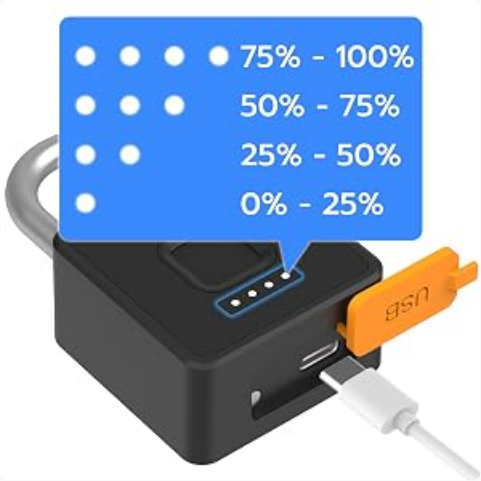

Image: Charging the padlock via USB-C.

2. Downloading the Mobile App

Scan the QR code in the included User Manual or search for 'eSmartLock' in your device's app store (available for Android and iOS) to download the companion application.

3. Initial Setup (Pairing & Admin Registration)

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the eSmartLock app and follow the on-screen instructions to add your new padlock.
3. Register your fingerprint as the administrator. The padlock can store up to 20 fingerprints.
4. Set an administrator passcode. The padlock supports up to 20 passcodes.

Operating the Padlock

Unlocking Methods

Image: The four convenient ways to unlock your Anweller P7 Smart Padlock.

- **Fingerprint Unlock:** Place your registered finger on the fingerprint sensor. The lock will unlock in approximately 0.2 seconds if the fingerprint is recognized.
- **Passcode Unlock:** Enter your registered passcode on the numeric keypad. The lock will open upon correct entry. The anti-peeping feature allows you to enter random digits before or after your actual passcode for added security.
- **Mobile App Control:** Use the eSmartLock app on your smartphone to remotely unlock the padlock via Bluetooth. The app also allows for managing users, generating temporary passwords, and viewing unlock records.
- **Apple Watch Unlock:** If configured, you can unlock the padlock directly from your Apple Watch.

Managing Users and Passcodes

Through the eSmartLock mobile app, you can:

- Add or remove authorized fingerprints (up to 20).
- Create or delete permanent passcodes (up to 20).
- Generate temporary passcodes for one-time or limited-time access.

Maintenance

Battery Management

The padlock is equipped with a 110mAh rechargeable Li-ion battery. The battery indicator lights on the padlock will show the current charge level. Recharge the padlock using the provided USB-C cable when the battery is low. A full charge takes approximately 40 minutes.

Troubleshooting

If you encounter any issues with your Anweller P7 Smart Padlock, please consider the following:

- **Padlock not unlocking:** Ensure the battery is charged. Verify that the correct fingerprint or passcode is being used. Check the app for any error messages or connectivity issues.
- **Fingerprint not recognized:** Ensure your finger is clean and dry. Try re-registering your fingerprint through the app.
- **App connectivity issues:** Ensure Bluetooth is on and your phone is within range of the padlock. Restart the app or your phone if necessary.

For further assistance, refer to the Warranty and Support section.
