FABATO Lift Top Coffee Table (Model CACT021-WA) Instruction Manual

Brand: FABATO | Model: CACT021-WA

1. INTRODUCTION

This manual provides detailed instructions for the assembly, operation, and maintenance of your FABATO Lift Top Coffee Table. Designed for versatility, this wood square coffee table features a lift-top mechanism and hidden storage, making it suitable for various living spaces and functions.

Key features include:

- **Effortless Lift-Top Design:** The tabletop rises from 15" to 20.5", converting the coffee table into a functional workspace or dining surface.
- **Ample Concealed Storage:** A spacious compartment beneath the tabletop provides discreet storage for various items.
- **Durable Construction:** Made from high-density engineered wood, ensuring stability and long-term use.
- **Multipurpose Functionality:** Can serve as a coffee table, office table, or dining table.

2. SAFETY INFORMATION

Please read and follow these safety guidelines carefully to prevent injury or damage to the product:

- Always use both hands when lifting or lowering the tabletop to ensure smooth operation and prevent sudden movements.
- Do not exceed the maximum weight limit of 40 lbs on the lifted tabletop. The overall table can support up to 200 lbs.
- Follow the assembly instructions precisely to ensure the table's stability and structural integrity.
- Exercise caution when handling the table to avoid damaging the stain-resistant finish.
- Keep small children and pets away from the lift mechanism during operation to prevent pinching or injury.

3. PARTS LIST

Before beginning assembly, verify that all components are present and undamaged. Refer to the included Assembly Guide for a detailed list of parts and hardware.

Included Components: Assembly Guide, Installation Tool (Allen Key, Screw Driver).

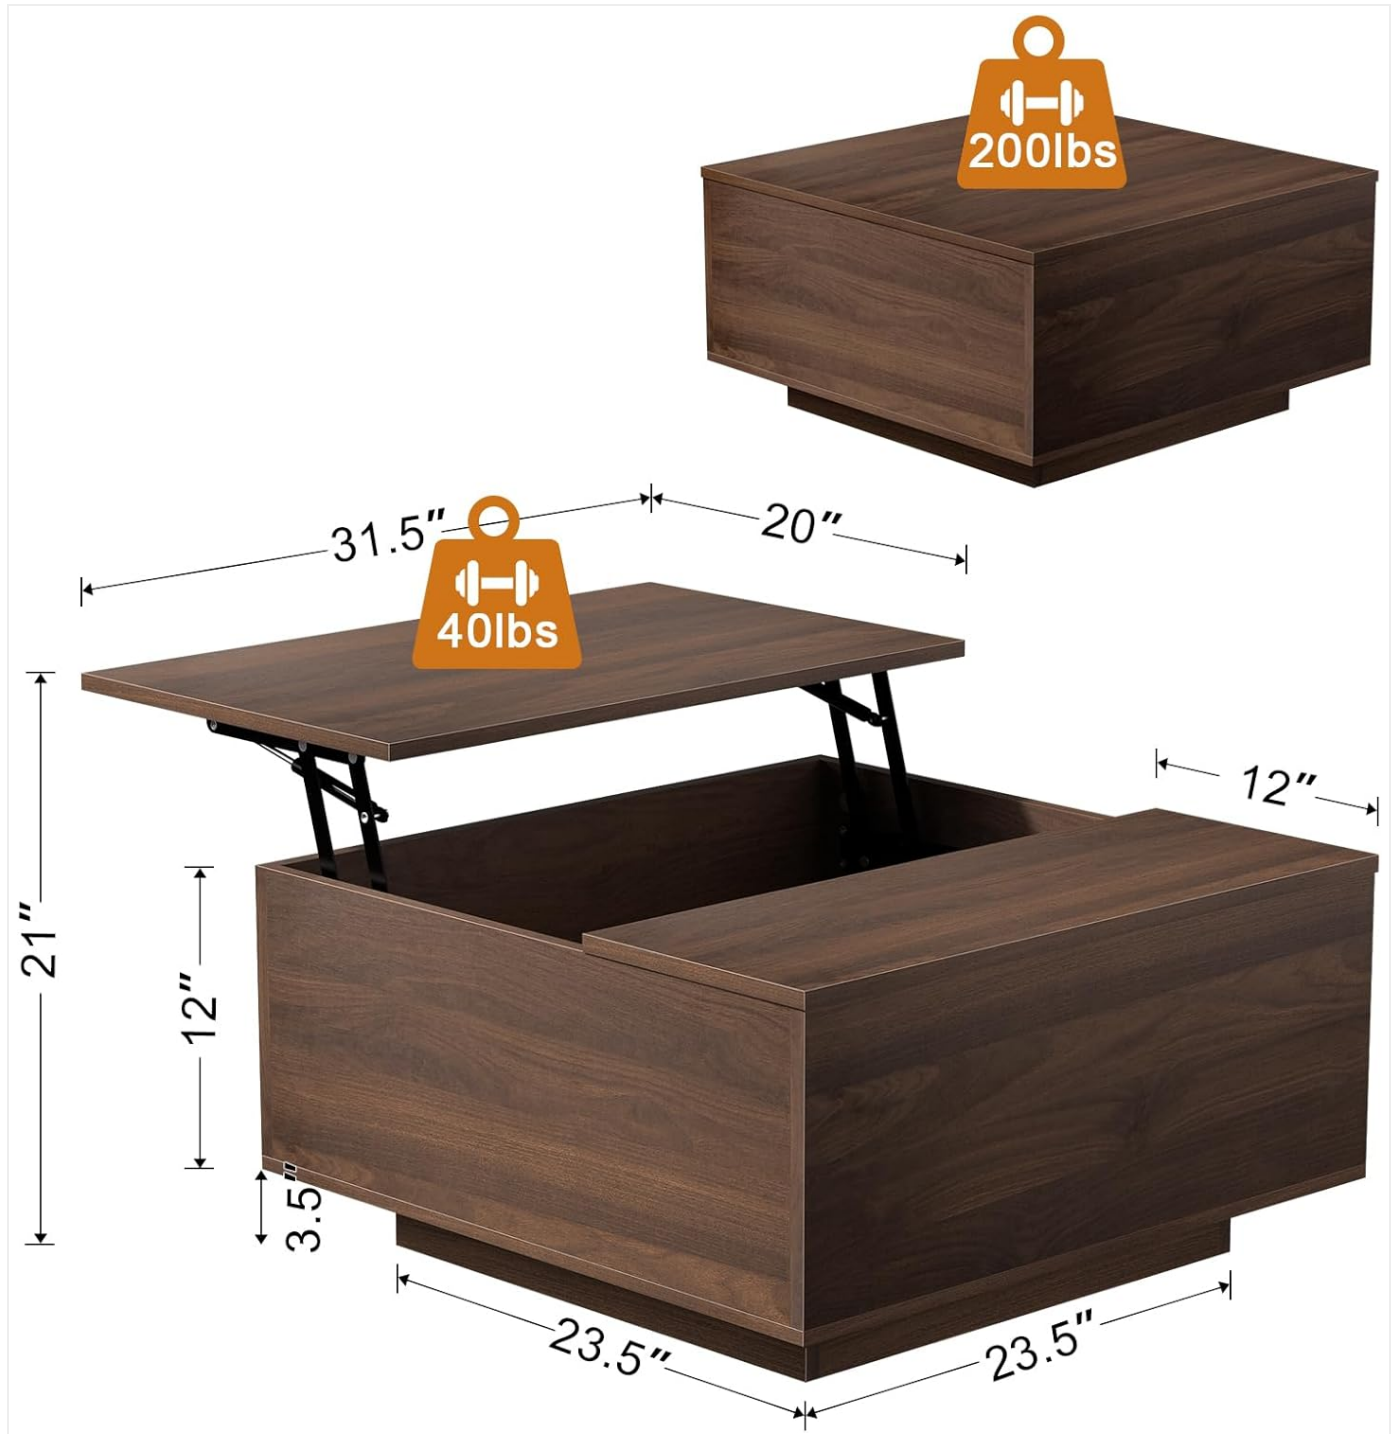

Figure 3.1: Product dimensions and weight capacities. The table measures 31.5"D x 31.5"W x 15"H. The lifted tabletop supports up to 40 lbs, while the overall table supports up to 200 lbs.

4. SETUP AND ASSEMBLY

Your FABATO Lift Top Coffee Table requires assembly. An Assembly Guide with step-by-step instructions and diagrams is included in the packaging. Tools recommended for assembly are an Allen Key and a Screw Driver, which are provided.

1. Unpack all components and lay them out on a clean, soft surface to prevent scratches.
2. Identify each part using the provided Assembly Guide.
3. Follow the numbered steps in the Assembly Guide to connect the panels and install the lift mechanism.

4. Ensure all screws and fasteners are securely tightened, but do not overtighten.
5. Once assembled, place the table on a level surface.

Note: While one person can assemble the table, two people are recommended for easier alignment of parts and handling of larger sections.

5. OPERATING INSTRUCTIONS

5.1 Lift-Top Mechanism

The table features a smooth, high-performance lift mechanism that allows the tabletop to be raised or lowered. This transforms the table for various uses, such as a workspace or dining area.

1. To **raise** the tabletop: Gently pull the front edge of the movable tabletop upwards. The hydraulic mechanism will assist in lifting it to the desired height (up to 20.5 inches). Ensure items on the fixed part of the table are not obstructing the lifting path.
2. To **lower** the tabletop: Place both hands on the movable tabletop and gently push downwards. The mechanism will slowly guide the tabletop back into its original coffee table position (15 inches).

Figure 5.1: The lift-top feature allows for comfortable use as a laptop desk or dining surface while seated on a sofa.

Figure 5.2: The table's versatility is demonstrated in its three primary modes: a standard coffee table, an elevated office table, and a dining table.

5.2 Hidden Storage Compartment

The spacious concealed storage area is located directly beneath the lift-top tabletop. This area is ideal for storing portable computers, magazines, game players, blankets, and other daily necessities, helping to keep your living space tidy.

1. To **access** the storage: Lift the tabletop using the lift mechanism as described above. The storage compartment will be revealed.
2. To **close** the storage: Lower the tabletop back into its original position, ensuring no items are obstructing the closing path.

Figure 5.3: The hidden storage compartment offers ample space for various household items, keeping them out of sight and organized.

Figure 5.4: Visual representation of the diverse items that can be stored within the coffee table's large capacity compartment.

6. MAINTENANCE AND CARE

To ensure the longevity and appearance of your coffee table, follow these maintenance guidelines:

- **Cleaning:** Wipe the surface with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as they may damage the finish.
- **Stain Resistance:** The table is designed to be stain-resistant. For spills, wipe immediately with a clean cloth to prevent any potential marks.
- **Protection:** Use coasters for drinks and placemats for hot items to protect the tabletop from heat and moisture.
- **Inspection:** Periodically check all screws and connections to ensure they remain tight. Retighten if necessary.
- **Placement:** Avoid placing the table in direct sunlight or near heat sources, as this can cause fading or warping of the wood.

7. TROUBLESHOOTING

If you encounter any issues with your FABATO Lift Top Coffee Table, refer to the following common solutions:

- **Tabletop feels wobbly when lifted:** Ensure all assembly screws are securely tightened. Distribute weight evenly on the lifted surface and do not exceed the 40 lbs weight limit.
- **Difficulty lifting or lowering the tabletop:** Check for any obstructions in the lift mechanism's path. Ensure the mechanism is clean and free of debris. If resistance persists, contact customer support.
- **Parts do not align during assembly:** Double-check the Assembly Guide to ensure you are following the steps correctly. Sometimes, loosening adjacent screws slightly can help with alignment before retightening.
- **Surface damage (scratches, peeling):** For minor scratches, wood repair kits can be used. For peeling edges, wood glue may be applied carefully. For significant damage, contact customer support.

8. PRODUCT SPECIFICATIONS

Feature	Detail
Brand	FABATO
Model Number	CACT021-WA
Product Dimensions (D x W x H)	31.5"D x 31.5"W x 15"H
Item Weight	23.5 Kilograms
Maximum Weight Recommendation (Lifted Top)	40 Pounds
Frame Material	Engineered Wood
Color	Walnut
Shape	Square
Furniture Finish	Natural
Is Stain Resistant	Yes
Required Assembly	Yes
Tools Recommended For Assembly	Allen Key, Screw Driver
Indoor Outdoor Usage	Indoor
