GDOR TB-8008

GDOR Professional Blender TB-8008 User Manual

Model: TB-8008

INTRODUCTION

Thank you for choosing the GDOR Professional Blender TB-8008. This manual provides essential information for the safe and efficient operation, maintenance, and troubleshooting of your new appliance. Please read all instructions carefully before use and retain this manual for future reference.

IMPORTANT SAFETY INSTRUCTIONS

- Always ensure the blender is unplugged before assembling, disassembling, or cleaning.
- Do not immerse the motor base in water or other liquids.
- Keep hands and utensils out of the container while blending to prevent injury.
- Ensure the lid is securely in place before operating the blender.
- Do not blend hot liquids in the portable cup. Allow hot ingredients to cool before blending.
- Never operate the blender with damaged blades or a damaged container.
- This appliance is for household use only.

PRODUCT COMPONENTS

The GDOR Professional Blender TB-8008 includes the following components:

- Motor Unit (Base)
- 52 Oz Glass Jar
- 6-Leaf Blade Assembly (for Glass Jar)
- Glass Jar Lid
- 24 Oz Portable To-Go Cup
- 4-Leaf Blade Assembly (for Portable Cup)
- To-Go Lid with Spout (for Portable Cup)

Durable 52oz Glass Jar

Large capacity, perfect for family gathering
and entertaining friends.

SETUP AND ASSEMBLY

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Wash the glass jar, portable cup, lids, and blade assemblies with warm, soapy water. Rinse thoroughly and dry. Wipe the motor base with a damp cloth.
3. **Assemble Glass Jar:** Place the 6-leaf blade assembly onto the bottom of the glass jar. Ensure it is securely tightened.
4. **Place on Motor Base:** Position the assembled glass jar or portable cup (with its respective blade assembly) onto the motor base. Turn clockwise until it locks into place. The display will illuminate

when correctly seated.

5. **Add Ingredients:** Place your desired ingredients into the container. Do not overfill.
6. **Secure Lid:** Place the appropriate lid firmly onto the container. For the glass jar, ensure the lid is sealed.

OPERATING INSTRUCTIONS

The GDOR Professional Blender TB-8008 features a touchscreen control panel with five intelligent programs and a pulse function.

Image: Close-up of the GDOR blender's touchscreen control panel, showing the 'Start/Stop', 'Pulse', 'Extract', 'Milkshake', 'Smoothies', and 'Ice Crush' buttons.

1. **Power On:** Plug the blender into a standard electrical outlet. The display will show '00' or '88' indicating it's ready.
2. **Select Program:** Choose one of the five preset functions by touching the corresponding icon:
 - **Extract:** Ideal for extracting juices from fruits and vegetables.
 - **Milkshake:** Optimized for creamy milkshakes.
 - **Smoothies:** Perfect for blending fruits and ice into smooth beverages.
 - **Ice Crush:** Specifically designed for crushing ice cubes into fine snow.
 - **Pulse:** Provides short bursts of power for controlled chopping or mixing.
3. **Start/Stop:** Press the 'Start/Stop' button to begin or end a blending cycle. The display will show a

countdown timer for preset programs.

4. **Using the Portable Cup:** For single servings, attach the 4-leaf blade assembly to the 24 oz portable cup, then place it onto the motor base. Select your desired program.

MAINTENANCE AND CLEANING

Regular cleaning ensures the longevity and optimal performance of your GDOR Professional Blender.

- 1. Self-Cleaning Function:** For quick and easy cleaning of the main jar, pour a small amount of warm soapy water into the glass jar. Select the 'Extract' mode and let it run for a short cycle. Rinse thoroughly afterward.
- 2. Manual Cleaning:** For thorough cleaning, disassemble the jar/cup and blade assemblies. Wash all removable parts with warm, soapy water using a non-abrasive sponge. Be cautious when handling the sharp blades.

3. **Motor Base:** Wipe the motor base with a damp cloth. Do not immerse it in water.
4. **Storage:** Ensure all parts are completely dry before storing. Store the blender in a clean, dry place.

TROUBLESHOOTING

If you encounter issues with your blender, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Blender does not turn on.	Not plugged in; container not properly seated; power outage.	Ensure power cord is securely plugged in. Twist the container clockwise until it locks into place and the display illuminates. Check household circuit breaker.
Ingredients are not blending smoothly.	Too little liquid; too many ingredients; ingredients are too large.	Add more liquid. Reduce the amount of ingredients. Cut large ingredients into smaller pieces (approx. 1 inch/2.5 cm). Use the Pulse function to break down stubborn ingredients.
Blender stops during operation.	Overheating protection activated.	Unplug the blender and allow it to cool down for at least 15-20 minutes before resuming use. Reduce load for next blending cycle.
Leakage from the bottom of the jar/cup.	Blade assembly not tightened; seal is damaged or missing.	Ensure the blade assembly is securely tightened to the container. Check the rubber seal for proper placement and condition. Replace if damaged.

SPECIFICATIONS

- **Brand:** GDOR
- **Model:** TB-8008
- **Power:** 1200 Peak Watts
- **Voltage:** 120V

- **Control Type:** Touchscreen with 5 preset programs (Extract, Milkshake, Smoothies, Ice Crush, Pulse)
