OPERATING YOUR LAPTOP

Convertible Modes

The Jumper J1 features a 360-degree hinge, allowing seamless transition between four versatile modes:

- **Laptop Mode:** Standard configuration for typing and productivity tasks.

- **Stand Mode:** Fold the keyboard back to position the screen for presentations or media consumption.
- **Tent Mode:** Ideal for watching videos or playing games in confined spaces.
- **Tablet Mode:** Fold the keyboard completely back for a full touchscreen tablet experience.

General Care

- Clean the laptop's surfaces with a soft, dry, lint-free cloth. Avoid abrasive materials or harsh chemicals.
- Protect the screen from scratches by using a screen protector or placing a soft cloth between the screen and keyboard when closed.
- Avoid exposing the device to extreme temperatures, direct sunlight, or high humidity.

TROUBLESHOOTING

Power Issues

- **Laptop does not turn on:** Ensure the power adapter is securely connected to both the laptop and a working power outlet. Try a different outlet if necessary.
- **Battery not charging:** Check the power adapter and charging port for any visible damage. Ensure the adapter is the original one provided with the laptop.

Display Issues

- **Screen is blank:** Try adjusting the screen brightness using the keyboard function keys. Connect an external monitor via HDMI to determine if the laptop is functioning but the internal display is not.
- **Touchscreen unresponsive:** Restart the device. If the issue persists, check for driver updates in Windows Device Manager.

Performance Issues

- **Laptop is slow:** Close any unnecessary applications running in the background. Check for and install any pending Windows updates.
- **Overheating:** Ensure the cooling vents are not blocked. Consider using the laptop on a hard, flat surface to allow for proper airflow.
