ORGSTA T003

ORGSTA T003 Thermal Label Maker User Manual

Model: T003 | Brand: ORGSTA

1. INTRODUCTION

This manual provides detailed instructions for the setup, operation, and maintenance of your ORGSTA T003 Thermal Label Maker. Please read this guide thoroughly to ensure proper use and to maximize the lifespan of your device. The ORGSTA T003 is a versatile thermal label printer designed for various labeling needs, offering connectivity via Bluetooth and USB.

2. PACKAGE CONTENTS

Upon unboxing your ORGSTA T003 Thermal Label Maker, please verify that all the following items are included:

- ORGSTA T003 Thermal Label Maker
- USB Charging Cable
- 3 Rolls of White Self-Adhesive 2" (50mm) Round Thermal Paper (140 labels per roll)
- User Manual

3. SETUP

3.1. Loading Thermal Paper

1. Gently press the side button on the label maker to open the printer cover.
2. Remove any existing paper core or residue.
3. Tear off the green sticker from the new thermal paper roll.
4. Insert the thermal paper roll into the compartment, ensuring the printing side faces upwards and the paper feeds smoothly into the printer slot.
5. Close the printer cover firmly until it clicks into place. The printer will automatically adjust the label position.

3.2. Charging the Device

Connect the provided USB charging cable to the charging port on the label maker and plug the other end into a compatible USB power source. The device will indicate charging status. Ensure the device is fully charged before first use for optimal performance.

3.3. App Download and Installation

The ORGSTA T003 operates with the '4Barcode' application. For iOS and Android devices, download the '4Barcode' app from your respective app store. For PC connectivity, an easy-to-install driver is available and compatible with Windows, Mac OS, Chrome OS, and Linux.

Bluetooth Connection

4Barcode

4. OPERATING INSTRUCTIONS

4.1. Creating and Printing Labels

The '4Barcode' app provides extensive customization options for your labels:

- **Templates:** Access over 150 ready-to-use label templates for various applications.
- **Custom Design:** Design and save your own templates. Choose from over 80 fonts and 670+ icons.
- **Features:** The app supports QR codes, barcode labels, tables, materials, timestamps, numbers, and text.
- **Printing:** Once your design is complete, select the print option within the app. You can adjust print settings such as the number of copies and print density before initiating the print job.

5. MAINTENANCE

5.1. Cleaning the Print Head

To maintain print quality, regularly clean the print head. Use a soft, lint-free cloth lightly dampened with isopropyl alcohol. Gently wipe the print head surface. Ensure the device is powered off and disconnected from any power source before cleaning.

5.2. Thermal Paper Care

ORGSTA thermal paper is designed for durability, featuring waterproof, oil-proof, BPA-free, strong adhesion, and abrasion-resistant properties. Store thermal paper in a cool, dry place away from direct sunlight and heat to preserve its quality and longevity.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
No Power	Battery drained; Power button not pressed correctly.	Charge the device using the provided USB cable. Long-press the power button for 3 seconds to turn on.
Printing Issues (Blank/Faint)	Thermal paper loaded incorrectly; Print head dirty.	Ensure thermal paper is loaded with the printing side up. Clean the print head as per maintenance instructions.
Bluetooth Connection Failure	Bluetooth off; Device not paired; App issue.	Ensure Bluetooth is enabled on both devices. Re-pair the device through the '4Barcode' app. Restart the app and the label maker.

Problem	Possible Cause	Solution
Paper Jam	Incorrect paper loading; Foreign object in paper path.	Open the cover, carefully remove any jammed paper or obstructions. Reload paper correctly.
