## 3. SETUP & INSTALLATION

### 3.1. General Installation (Plug & Play)

The Haudio Portable Car Stereo is designed for easy, non-invasive installation. No complex wiring or vehicle modifications are typically required.

1. **Mounting:** Attach the provided PND holder/mounting bracket to a smooth surface on your dashboard or windshield. Ensure the surface is clean and dry for optimal adhesion. The bracket is adjustable to achieve your preferred viewing angle.
2. **Secure the Stereo:** Slide the portable car stereo onto the mounted bracket until it clicks securely into place.
3. **Power Connection:** Connect the cigarette lighter power adapter to the stereo's power input and then plug the adapter into your vehicle's 12V cigarette lighter socket.
4. **Power On:** Start your vehicle. The stereo should power on automatically.

Video: This video demonstrates the quick and easy plug-and-play installation of the Haudio Portable Car Stereo, highlighting its large HD display, modular design, and smart operating system with CarPlay and Android Auto integration. It also shows GPS navigation, voice control, and the HD reverse camera in action.

### 3.2. MicroSD Card Installation

The device includes a 64GB MicroSD card for dashcam recording. Insert the card into the designated slot on the side of the stereo unit. Ensure it is inserted correctly until it clicks into place.

### 3.3. Backup Camera Installation

For enhanced safety, the stereo supports a backup camera. Follow these steps for installation:

1. **Route Wiring:** Carefully route the camera's wiring harness from the stereo unit through the vehicle's interior, along the frame, and towards the trunk.
2. **Access Trunk:** Open the trunk lid and remove any necessary interior panels to access the wiring and mounting area for the camera.
3. **Remove Original Camera (if applicable):** If replacing an existing camera, carefully remove it.
4. **Install New Camera:** Mount the new reversing camera in the desired location, typically near the license plate.
5. **Connect Power:** Connect the camera's power cord to the vehicle's reverse light wire. This ensures the camera activates automatically when the vehicle is in reverse.
6. **Connect Video:** Connect the camera's video cable to the stereo unit's AV IN port.
7. **Secure Panels:** Return all interior panels and ensure wiring is neatly tucked away.

Video: This video provides a step-by-step guide on how to install the backup camera for the Haudio Portable Car Stereo. It covers wiring the harness, opening the trunk lid, removing the original camera, installing the new camera, connecting the power cord to the headlight wire, and returning the trunk cover.

## 4. OPERATING INSTRUCTIONS

### 4.1. Wireless CarPlay & Android Auto Connection

Connect your smartphone wirelessly to access apps, maps, calls, and more directly from the stereo's touchscreen.

1. **Enable Bluetooth:** On your smartphone, enable Bluetooth and ensure it is discoverable.
2. **Pair Device:** On the car stereo, navigate to the 'PhoneLink' or 'Bluetooth' menu. Select the stereo's Bluetooth name (e.g., "CAR-BT\_XXXX") from your phone's Bluetooth settings and pair the devices.
3. **Confirm Connection:** Once paired, a prompt may appear on your phone to connect to CarPlay or Android Auto. Confirm

the connection. The stereo screen will automatically switch to the CarPlay or Android Auto interface.

Video: This video illustrates the seamless wireless connection of Apple CarPlay and Android Auto to the Haudio Portable Car Stereo. It demonstrates how to pair a smartphone for navigation, calls, and music playback, emphasizing the convenience of voice control.

## 4.2. Voice Control

Utilize voice commands for safer driving. The stereo supports both Siri (for Apple CarPlay) and Google Assistant (for Android Auto).

- **Activate:** Depending on your connected smartphone, activate Siri or Google Assistant using the designated voice command or button on the stereo.
- **Commands:** Use commands such as "Hey Siri, call [Contact Name]" or "Hey Google, navigate to [Address]" to perform actions hands-free.

# Smart Voice Assistant

Hey, Siri, call Joan.

Hey, Google, go home.

Hey, Siri, play music.

Hey, Google, go to gas station.

Image: Voice assistant prompts for navigation and music on the stereo screen.

## 4.3. GPS Navigation

Access real-time GPS navigation through your connected smartphone's mapping applications.

- **Launch Maps:** Once CarPlay or Android Auto is active, select your preferred navigation app (e.g., Apple Maps, Google Maps, Waze) from the stereo's display.
- **Input Destination:** Use the touchscreen or voice control to enter your destination. The stereo provides precise real-time positioning and displays map information clearly.

## 4.4. Audio Output Modes

The stereo offers multiple ways to output audio to your vehicle's sound system:

- **Built-in Speakers:** The unit has integrated speakers for direct audio output.
- **Bluetooth:** Connect your smartphone via Bluetooth to play music and make calls through the stereo's built-in speakers.
- **AUX:** Use the provided AUX cable to connect the stereo to your car's original AUX input for audio playback through your

vehicle's speakers.

- **FM Transmitter:** Tune the stereo to an unused FM frequency, then tune your car's original radio to the same frequency to transmit audio wirelessly.

Image: Different audio output methods for the car stereo.

#### 4.5. Dashcam Function

The integrated dashcam provides high-resolution recording of the road ahead and your surroundings.

- **Recording:** The dashcam automatically records footage to the installed 64GB MicroSD card.
- **Loop Recording:** The system features loop recording, which overwrites the oldest files when the memory card is full, ensuring continuous recording.
- **Playback:** Access recorded footage directly on the stereo's screen or transfer it to your smartphone via Wi-Fi connectivity.

Video: This comprehensive video demonstrates the various functions and user interface of the Haudio Portable Car Stereo. It covers connecting to Apple CarPlay/Android Auto, using GPS navigation, making phone calls, playing music, adjusting UI settings, utilizing the 1080P driving recorder, and setting up FM transmission.

## 5. MAINTENANCE

To ensure the longevity and optimal performance of your Haudio Portable Car Stereo, follow these maintenance guidelines:

- **Cleaning:** Use a soft, lint-free cloth to gently wipe the touchscreen and exterior. Avoid abrasive cleaners or solvents that could damage the screen or finish.
- **Temperature:** Avoid exposing the device to extreme temperatures, both hot and cold, for extended periods.
- **Cable Management:** Ensure all cables are neatly routed and not pinched or tangled to prevent damage.
- **Software Updates:** Periodically check for any available software updates from Haudio to ensure you have the latest

features and performance improvements.

## 6. TROUBLESHOOTING

If you encounter issues with your Haudio Portable Car Stereo, refer to the following common problems and solutions:

- **No Power:** Ensure the cigarette lighter power adapter is securely plugged into both the stereo and the vehicle's 12V socket. Check if the vehicle's 12V socket is functioning.
- **FM Audio Static:** If experiencing static when using the FM transmitter, try selecting a different, unused FM frequency on both the stereo and your car's radio. If static persists, consider using the AUX cable or Bluetooth audio output options if available in your vehicle.
- **Battery Drain:** To prevent vehicle battery drain, always unplug the stereo's power adapter from the cigarette lighter socket when the vehicle is turned off or parked for extended periods.
- **CarPlay/Android Auto Not Connecting:** Ensure Bluetooth is enabled and discoverable on your smartphone. Verify that the stereo is selected in your phone's Bluetooth settings. Restart both the stereo and your smartphone if the issue persists.
- **Backup Camera Not Displaying:** Check all camera cable connections, especially the video input to the stereo and the power connection to the reverse light. Ensure the vehicle is in reverse gear.
