- **Dual-Person Capacity:** Spacious design with ergonomic headrests for two users.
- **Self-Cleaning Faucet & Rapid Drainage:** Integrated faucet for reduced mineral buildup and efficient dual-drain system.
- **Thermostatic Control & Inline Heater:** Maintains water temperature between 77°F–104°F for consistent warmth.
- **Cascading Waterfall & Chromotherapy:** 1-meter waterfall feature with 8 color-changing LED lights.
- **Durable Construction:** Made from high-quality acrylic with a stainless steel frame.

## 2. SAFETY INFORMATION

Always adhere to the following safety precautions to prevent injury or damage to the product.

- **Electrical Safety:** Ensure all electrical connections are performed by a qualified electrician and comply with local codes. The unit requires two separate 15A dedicated GFCI circuits.
- **Water Temperature:** Do not exceed 104°F (40°C) water temperature. Prolonged immersion in hot water may cause hyperthermia.
- **Supervision:** Children and individuals with health conditions should be supervised when using the bathtub.
- **Chemicals:** Use only recommended cleaning agents. Avoid abrasive cleaners or solvents that may damage the acrylic surface.
- **Structural Integrity:** Ensure the floor can support the weight of the filled bathtub and its occupants.

- **Waterfall Faucet:** Turn the designated knob to activate the cascading waterfall for a tranquil bathing experience.
- **Hand Shower:** Use the flexible hand shower for targeted rinsing or cleaning.

## 5. MAINTENANCE

Regular maintenance ensures the longevity and optimal performance of your Empava bathtub.

### Cleaning the Bathtub:

- **Acrylic Surface:** Clean the acrylic surface with a soft cloth and mild, non-abrasive liquid detergent. Avoid harsh chemicals, abrasive pads, or solvents that can scratch or dull the finish.
- **Self-Cleaning Faucet:** The integrated self-cleaning faucet is designed to minimize mineral buildup. Periodically wipe down the faucet and jets to prevent residue accumulation.
- **Jets:** For deep cleaning of the jet system, fill the tub with warm water and a small amount of non-foaming, non-abrasive tub cleaner. Run the jets for 10-15 minutes, then drain and rinse thoroughly.

### Drainage System:

- The dual-drain system ensures rapid water removal. Regularly check the drain for any obstructions and clear them as needed to maintain efficient drainage.

## 6. TROUBLESHOOTING

This section addresses common issues you might encounter. For problems not listed here, please contact Empava customer support.
