Yafylly 60.6-dog crate-514

Yafylly 60.6 Inch Double Dog Crate TV Stand Instruction Manual

Model: 60.6-dog crate-514

1. PRODUCT OVERVIEW

The Yafylly 60.6 Inch Double Dog Crate TV Stand is a versatile 2-in-1 furniture piece designed to provide a comfortable and secure space for your dogs while also serving as a functional TV stand or storage unit. Its robust construction and thoughtful design integrate seamlessly into your home environment.

- **Dual Functionality:** Functions as both an indoor dog kennel and a TV stand/storage console.
- **Removable Divider:** Allows for two separate compartments for multiple dogs or one large open space.
- **Durable Construction:** Features an upgraded 0.33-inch-thick iron door frame to resist chewing and a sturdy wood and steel build.
- **Secure Access:** Equipped with two sliding doors and dual sliding latches for easy and secure access.
- **Spacious Tabletop:** The top surface supports up to 150 lbs, suitable for televisions or decorative items.

The Yaflyly 60.6 Inch Double Dog Crate TV Stand, shown with two dogs comfortably housed inside.

2. SETUP AND ASSEMBLY

This product requires assembly. Please ensure all components are present before beginning. Follow the included assembly kit and instructions carefully. It is recommended to have two people for assembly due to the size and weight of the unit.

Key Assembly Features:

- **Thick Iron Door Frame:** The reinforced 0.33-inch-thick iron frame provides enhanced durability.
- **Sliding Doors:** The two sliding doors are designed for smooth operation and secure closure.
- **Removable Divider:** The internal divider can be installed or removed based on your needs for one or two dog compartments.

UPGRADED THICK IRON DOOR FRAME

Stronger quality and more resistant to dog bites

The upgraded thick iron door frame offers superior strength and chew resistance.

2-IN-1 DOG KENNEL FURNITURE

Divider can be removed for greater interior space

The removable divider allows for flexible use, accommodating one or two dogs.

3. OPERATING INSTRUCTIONS

3.1 Using the Sliding Doors

The dog crate features two sliding doors for convenient access. To open, disengage the dual sliding latches located at the bottom of each door. Gently slide the door along its track to the desired open position. To close, slide the door back into place and engage both latches to secure it.

2 SLIDING LATCHES DESIGN

Prevent pets from escaping and ensure their safety

Dual sliding latches ensure the doors remain securely closed.

3.2 Adjusting the Internal Divider

The internal divider can be installed or removed to create either two separate compartments or one large open space. If you wish to remove the divider, locate the attachment points and carefully detach it. Store the divider in a safe place if not in use. To re-install, align the divider with the designated slots and secure it firmly.

3.3 Utilizing as a TV Stand/Storage

The sturdy top surface of the dog crate is designed to function as a TV stand or a general storage area. Ensure that any items placed on top do not exceed the maximum static load capacity of 150 lbs. Avoid placing liquids directly on the surface without protective coasters to prevent potential damage.

LARGE DOG CRATE FURNITURE

Yafyly

The spacious and sturdy top surface can accommodate a television, transforming the crate into a functional TV stand.

4. MAINTENANCE

4.1 Cleaning

The particleboard and MDF surfaces are designed to be waterproof and scratch-resistant, making them easy to clean. Wipe down all surfaces regularly with a soft, damp cloth and a mild, non-abrasive cleaner. Avoid harsh chemicals that may damage the finish. For the steel components, use a damp cloth and dry thoroughly to prevent rust.

PARTICLE BOARD MATERIAL

Our tv stand dog kennel is waterproof and scratch-resistant, easy to clean

The particle board material is easy to clean and resistant to scratches and water.

4.2 Inspection

Periodically inspect all screws, bolts, and latches to ensure they are tight and secure. Tighten any loose fasteners to maintain the structural integrity and safety of the crate. Check the iron door frames for any signs of damage or wear, especially if your dogs are prone to chewing.

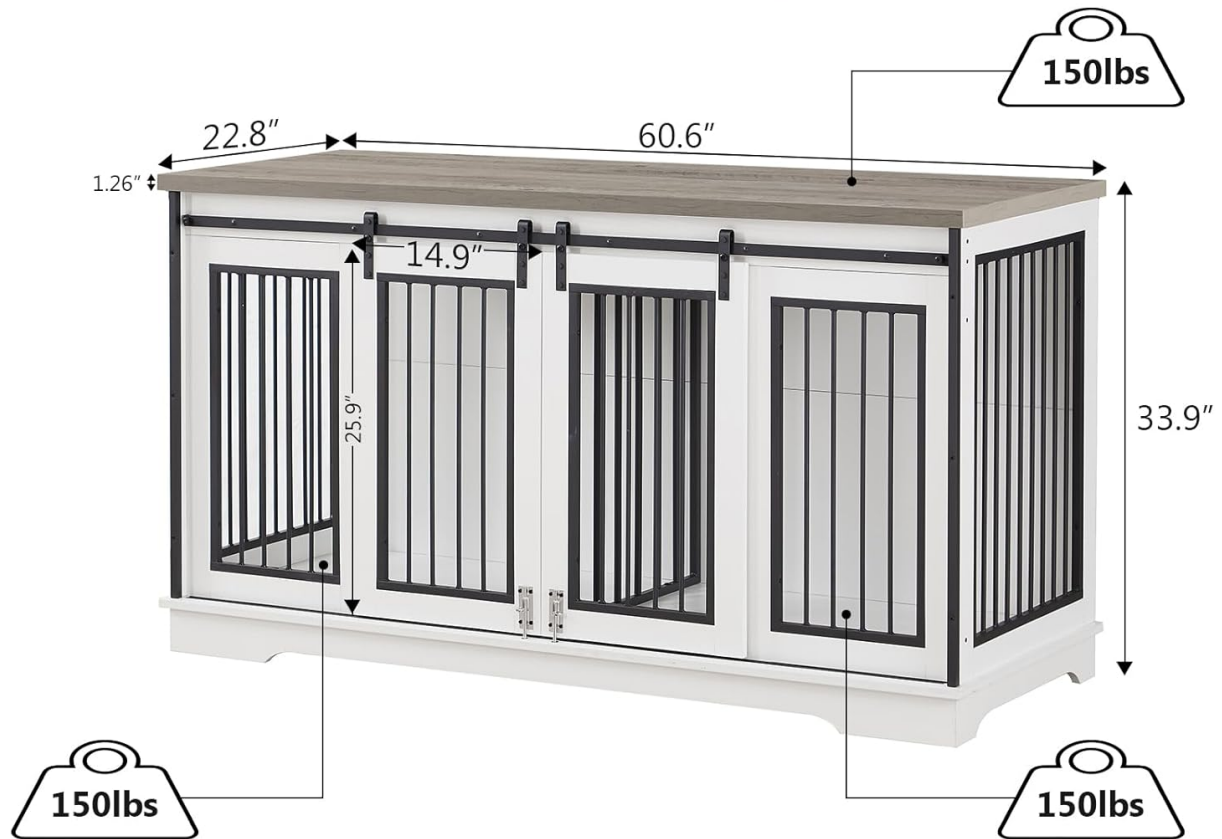

5. TROUBLESHOOTING

- **Doors not sliding smoothly:** Check the tracks for any obstructions or debris. Ensure the tracks are clean and free from pet hair. A small amount of silicone spray can be applied to the tracks if needed, but avoid lubricants that may attract dirt.
- **Latches not engaging:** Verify that the doors are properly aligned and fully closed. Inspect the latches for any damage or misalignment.
- **Crate feels unstable:** Re-check all assembly screws and bolts to ensure they are tightened securely. Ensure the crate is placed on a flat, level surface.
- **Chewing on wooden parts:** While the iron frame is chew-resistant, wooden parts may be susceptible. Consider applying a non-toxic, bitter-tasting spray designed for pets to deter chewing, or provide alternative chew toys.

6. SPECIFICATIONS
