INFANS BC10236BK

INFANS 2 in 1 Baby Stroller Instruction Manual

MODEL: BC10236BK

Introduction

Thank you for choosing the INFANS 2 in 1 Baby Stroller. This versatile product is designed to adapt to your child's growth, functioning as both a high landscape infant stroller and a reversible bassinet pram. Constructed with durable aluminum alloy and iron pipe, it ensures safety and comfort for children from 0 to 36 months, supporting up to 50 lbs. Please read this manual thoroughly before assembly and use to ensure proper operation and safety.

Safety Information

- Always use the 5-point safety belt to secure your child in the stroller.
- Ensure all locking mechanisms are engaged before placing your child in the stroller or moving it.
- Never leave your child unattended in the stroller.
- Engage the foot-activated brake when the stroller is stationary.
- Do not overload the storage basket or attach heavy items to the handle, as this may cause the stroller to tip.
- Regularly inspect the stroller for any loose parts, damage, or wear.

Components Overview

The INFANS 2 in 1 Baby Stroller includes the following main components:

- Stroller Frame (Aluminum alloy + iron pipe)
- Reversible Bassinet/Seat Unit (Oxford fabric)
- Adjustable Canopy with Visor and Mesh Window
- Four Suspension Wheels (360-degree rotating front wheels, lockable rear wheels)
- 5-Point Safety Harness
- Detachable Safety Handrail
- Foot Cover
- Large Under-Seat Storage Basket

- Cup Holder

Setup and Assembly

Follow these steps to assemble your INFANS 2 in 1 Baby Stroller:

1. **Unpack Components:** Carefully remove all parts from the packaging.
2. **Unfold Frame:** Release any transport locks and unfold the stroller frame until it clicks securely into place.
3. **Attach Wheels:** Insert the front and rear wheels into their respective slots on the frame until they click. Ensure they are firmly attached.
4. **Attach Bassinet/Seat Unit:** Align the bassinet/seat unit with the connectors on the frame and press down until it locks into place. Ensure it is securely fastened.
5. **Install Accessories:** Attach the detachable safety handrail, cup holder, and foot cover as desired.

Operating Instructions

1. Converting Between Stroller and Bassinet Mode

The 2-in-1 design allows for easy conversion. To switch between the upright toddler seat and the flat bassinet pram, locate the adjustment mechanism on the side of the seat unit. Follow the instructions to recline the seat fully flat for bassinet mode or raise it for stroller mode.

Detachable Foot Cover, bring warmth in the cold winter

Extra Mesh Window, allows mom to keep an eye on the state of baby

Adjustable Canopy

Zipper design makes it easy for you to fix the canopy angle

Image: The stroller seat can be adjusted to various angles, including 120° sitting, 150° semi-recline, and 180° sleeping bassinet mode.

2. Reversible Seat Direction

The seat unit can be reversed to face either forward or backward. To change the direction, ensure the child is removed from the seat. Locate the release buttons on both sides of the seat unit, press them, lift the seat, rotate it to the desired direction, and re-attach until it clicks securely.

TWO-WAY CONVERTIBLE HIGH LANDSCAPE STROLLER

Basket reversible according to mother's different needs, two way push makes the communication more comfortable

FACE OUTSIDE

let the baby interact with the world,
enjoy the outdoors

FACE INSIDE

convenient for mom to check the
baby's status of all times

Image: The stroller offers two-way convertibility, allowing the bassinet/seat to face either outwards for the baby to interact with the world, or inwards for convenient parent monitoring.

3. Folding the Stroller

The stroller features an easy folding system for portability and storage. Ensure the seat is in the forward-facing position and fully upright or reclined as per the specific model's folding mechanism. Locate the folding release buttons/levers, typically on the handle or sides of the frame, and follow the instructions to collapse the stroller. It can be folded with the bassinet attached for convenience.

Detachable safety handrail, convenient for the baby to get on and off

Five-point safety harness, more comfortable to use while ensuring safety

Bassinet angle adjustable, only need one hand to operate

Large storage basket, storage baby's things to liberate mom's hands

Image: The stroller features an easy folding system with an additional safety switch, allowing for a compact, freestanding folded design for convenient storage and transport.

Video: This video demonstrates the easy folding and unfolding mechanism of the stroller, highlighting its portability.

4. Wheel Features

The front wheels rotate 360 degrees for easy maneuverability. They can be locked for fixed orientation on rougher terrain. The rear wheels are equipped with a foot-activated brake for rapid and secure stopping.

**3D SHOCK ABSORBER
FRAME**

**Non-inflatable wheels for
smooth rotate**

**360 degrees
rotatable**

Quick brake on one foot

Image: The stroller features a 3D shock absorber frame, 360-degree rotatable non-inflatable wheels for smooth movement, and a quick foot-activated brake for safety.

5. Canopy and Foot Cover

The adjustable canopy with a sun visor protects your baby from direct sunlight. It includes a peek-a-boo mesh window to maintain visibility. The foot cover can be attached in winter for warmth and removed in summer for better ventilation.

Additional safety switch

Easy folding system

Freestanding foldable design

Image: The stroller features a detachable foot cover for warmth in cold weather, an adjustable canopy with a visor, and an extra mesh window for ventilation and parent visibility.

Maintenance

- **Cleaning:** The oxford fabric is easy to clean. Wipe down the fabric parts with a damp cloth and mild soap. Do not use harsh chemicals.
- **Frame Care:** Wipe the aluminum alloy and iron pipe frame with a soft, damp cloth. Dry thoroughly to prevent rust.
- **Wheel Maintenance:** Regularly check wheels for debris and ensure they rotate smoothly. Lubricate axles if necessary.
- **Storage:** Store the stroller in a dry, cool place away from direct sunlight when not in use.

Troubleshooting

- **Stroller not folding/unfolding smoothly:** Check for any obstructions in the folding mechanism. Ensure all

locks are disengaged.

- **Wheels not rotating freely:** Inspect wheels for trapped debris (hair, lint, etc.) and clean them. Ensure wheel locks are disengaged.
- **Brake not engaging:** Check for obstructions around the brake mechanism. Ensure the brake lever is fully depressed.
- **Seat unit unstable:** Verify that the seat unit is correctly attached to the frame and all connection points are securely clicked into place.

Specifications
