

VOIP DS105

VOIP DS105 Swivel Bracket Desktop Kit User Manual

Model: DS105

1. INTRODUCTION

The VOIP DS105 Swivel Bracket Desktop Kit is an optional accessory designed to provide a stable and adjustable desktop mounting solution for compatible indoor stations. This manual provides essential information for the proper setup, operation, and maintenance of your DS105 bracket.

2. PRODUCT OVERVIEW

The DS105 bracket is constructed from durable aluminum alloy, ensuring a sleek appearance and robust support for your indoor station. It is specifically designed for desktop use, offering ease of installation and a wide operating temperature range.

Key Features:

- **Compatibility:** Designed for use with VOIP i506W, i507W, and i57A indoor stations.
- **Material:** High-quality aluminum alloy construction.
- **Installation:** Simple and easy desktop setup.
- **Design:** Sleek and modern aesthetic.
- **Operating Temperature:** Functions reliably in temperatures ranging from -40°C to 70°C.

3. SETUP AND INSTALLATION

Follow these steps for a straightforward installation of your DS105 Swivel Bracket.

- 1. Unpack Components:** Carefully remove the DS105 swivel bracket from its packaging. Ensure all components are present and undamaged.
- 2. Choose Location:** Select a stable, flat desktop surface for placement. Ensure the chosen location allows for optimal viewing and access to the indoor station.
- 3. Position Bracket:** Place the base of the DS105 bracket firmly on the chosen desktop surface. The bracket's design includes a stable base to prevent accidental movement.
- 4. Mount Indoor Station:** Carefully align your compatible VOIP indoor station (i506W, i507W, or i57A) with the mounting surface of the DS105 bracket. Secure the indoor station to the bracket according to the indoor station's specific mounting instructions. The bracket's top surface includes non-slip pads to help hold the device in place.
- 5. Verify Stability:** Once the indoor station is mounted, gently test the stability of the entire setup to ensure it is secure and will not tip over.

4. OPERATING INSTRUCTIONS

The DS105 Swivel Bracket allows for easy adjustment of your mounted indoor station.

- **Swivel Function:** The bracket features a 360-degree swivel base. To adjust the viewing angle of your indoor station, gently rotate the top platform of the bracket to the desired position.
- **Tilt Adjustment:** The bracket also allows for tilt adjustment of the mounted device. Carefully adjust the angle of the top platform to achieve the optimal viewing angle. Ensure the device remains stable after adjustment.

5. MAINTENANCE

To ensure the longevity and proper function of your DS105 Swivel Bracket, follow these simple maintenance guidelines:

- **Cleaning:** Use a soft, dry, or slightly damp cloth to wipe down the bracket. Avoid abrasive cleaners or solvents, as these can damage the aluminum alloy finish.
- **Inspection:** Periodically check all moving parts and connections to ensure they are secure. If any looseness is detected, gently tighten screws if accessible and designed for user adjustment.
- **Environment:** While the bracket is designed for a wide temperature range, avoid exposing it to extreme moisture or direct sunlight for prolonged periods to prevent potential material degradation.

6. TROUBLESHOOTING

If you encounter any issues with your DS105 Swivel Bracket, consider the following:

- **Bracket Instability:** Ensure the bracket is placed on a flat, level, and stable surface. Verify that the indoor station is securely mounted to the bracket.
- **Difficulty Swiveling/Tilting:** Check for any obstructions around the swivel mechanism. Ensure no excessive weight is placed on the bracket beyond the recommended load for compatible indoor stations.
- **Scratches on Surface:** Ensure the desktop surface is clean before placing the bracket to prevent debris from scratching the base.

7. SPECIFICATIONS

Feature	Detail
