5. Maintenance

To ensure the longevity of your construction toy, follow these maintenance guidelines:

- **Cleaning:** Wipe the blocks with a soft, dry cloth. For stubborn dirt, use a slightly damp cloth and mild soap, then dry thoroughly. Do not immerse in water.
- **Storage:** Store the assembled model or individual pieces in a cool, dry place away from direct sunlight to prevent discoloration or warping.
- **Handling:** Handle the assembled model with care to avoid accidental detachment of pieces.

6. Troubleshooting

If you encounter issues during assembly or use, consider the following:

- **Missing Pieces:** Carefully check all packaging materials. If pieces are genuinely missing, contact customer

support with details of the missing parts.

- **Parts Not Staying Together:** Ensure that each block is pressed firmly into place. Some connections may require more pressure. If a section repeatedly falls apart, re-examine the assembly steps for that section in the manual.
- **Wheels Detaching:** Verify that the wheel axles and connecting blocks are correctly and firmly attached according to the instructions.
