5. SETUP

5.1 Charging the Devices

1. Locate the charging port on each device. For Gush 2, it is typically on the base. For Ferri, it is usually a small magnetic port.
2. Connect the provided USB charging cable to the device and plug the other end into a USB power source (e.g., computer, wall adapter).

3. The indicator light on each device will illuminate during charging and turn off or change color when fully charged.
4. A full charge typically takes 1-2 hours. Do not overcharge.

5.2 Connecting to the LOVENSE App

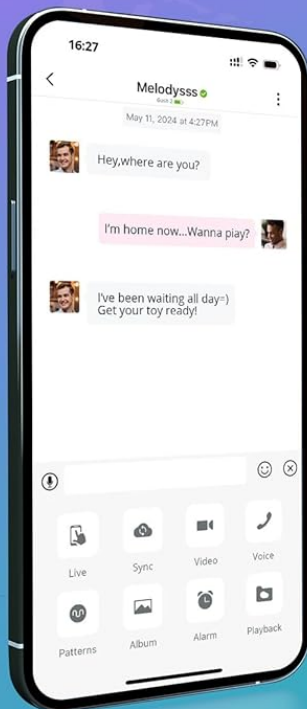

1. Download the official LOVENSE App from your device's app store (iOS or Android).
2. Ensure Bluetooth is enabled on your smartphone.
3. Turn on your LOVENSE Gush 2 and LOVENSE Ferri by pressing and holding their respective power buttons until the indicator light turns on.
4. Open the LOVENSE App and follow the on-screen instructions to pair your devices. The app will guide you through the connection process.
5. Once connected, you can control the devices, explore vibration patterns, and engage in remote play.

7. MAINTENANCE

7.1 Cleaning

1. Always clean your LOVENSE devices before and after each use.
2. Wash the devices with warm water and a mild, toy-safe soap.
3. Rinse thoroughly to remove all soap residue.
4. Dry completely with a lint-free cloth or air dry before storing.

5. Do not use harsh chemicals, alcohol-based cleaners, or petroleum-based products, as these can damage the silicone.

7.2 Storage

- Store your LOVENSE devices in a clean, dry, and cool place, away from direct sunlight and extreme temperatures.
- Keep them separate from other toys made of different materials to prevent material degradation.
- Ensure devices are fully charged before long-term storage to maintain battery health.

8. TROUBLESHOOTING

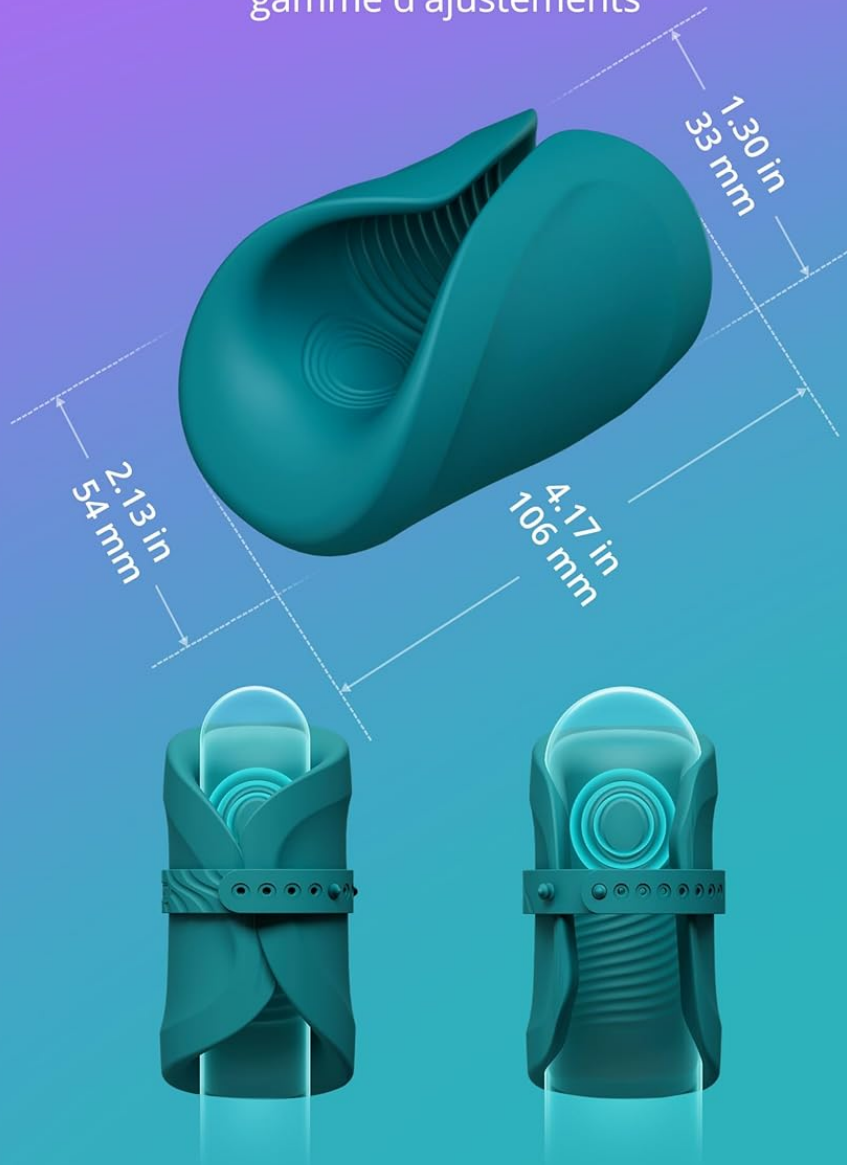

- **Device Not Turning On:** Ensure the device is fully charged. If it still doesn't turn on, try a different charging cable or power source.
- **Cannot Connect to App:**
 - Make sure Bluetooth is enabled on your phone.
 - Ensure the device is turned on and within Bluetooth range (typically 10 meters).
 - Close and reopen the LOVENSE App.
 - Restart your phone.
 - Forget the device in your phone's Bluetooth settings and try pairing again through the app.
- **Weak Vibrations:** The device may need charging. If fully charged, ensure it is clean and free of debris.
- **App Issues:** Ensure your LOVENSE App is updated to the latest version. If problems persist, reinstall the app.
