

## Hzuaneri SB10903X

# Hzuaneri 42.9" Storage Chest

MODEL: SB10903X

Instruction Manual

## Introduction

Thank you for choosing the Hzuaneri 42.9" Storage Chest. This manual provides essential information for the safe assembly, operation, and maintenance of your new storage chest. Please read these instructions carefully before beginning assembly and retain them for future reference.

This storage chest is designed to provide ample storage space and can also function as a bench. It features a farmhouse style and is constructed from engineered wood.

## Safety Information

- Always follow assembly instructions precisely to ensure structural integrity.
- Do not exceed the maximum weight capacity of 330 lbs (150 kg) on the top surface.
- Keep small parts away from children during assembly to prevent choking hazards.
- Ensure the chest is placed on a flat, stable surface.
- The lid is equipped with safety hinges designed to prevent sudden closing and finger pinching. Exercise caution when opening and closing.

## Setup and Assembly

### Included Components:

- All necessary panels for the storage chest
- Accessories Package (screws, hinges, etc.)
- Instruction Manual

### Tools Required (Not Included):

- Phillips head screwdriver
- Hammer (optional, for dowels)

### Assembly Instructions:

Each part of the storage chest is labeled with a serial number. Please refer to these labels and the detailed diagrams in the included instruction manual for precise assembly steps. Assembly typically takes 20-30 minutes for an adult.

1. **Unpack and Identify Parts:** Carefully unpack all components and verify against the parts list in the separate manual. Ensure all parts are present and undamaged.
2. **Assemble Side Panels:** Attach the side panels to the front and back panels using the provided hardware. Pay attention to the orientation of each panel.
3. **Install Bottom Support:** Secure the bottom support rod to the base of the chest. This provides stability and helps protect flooring.
4. **Attach Hinges:** Mount the two support hinges to the back panel and the lid. These hinges are designed to hold the lid open safely.
5. **Secure Lid:** Carefully attach the lid to the chest, ensuring the hinges are properly aligned and secured.
6. **Final Touches:** Apply any included screw covers or decorative elements. Ensure all screws are tightened, but do not overtighten.

## Operating Instructions

---

### Opening and Closing the Lid:

The storage chest features a lift-top design with two support hinges. These hinges allow the lid to remain open at various angles up to 60 degrees, preventing it from slamming shut and protecting your hands. To open, gently lift the lid. To close, gently push the lid down until it rests securely.

## 2 HANDLES AND HINGES

Easy to Move

Smooth Opening and Closing

Image: Details of the side handles for portability and the smooth operation of the lid hinges.

### Utilizing Storage Capacity:

The chest offers a large internal capacity, suitable for storing various items such as blankets, pillows, clothing, and other household goods. The grooved design on the lid allows for easy lifting.

# LARGER STORAGE CAPACITY

Place various clothes, pillows, towels, etc

Towel

Body Pillow

Clothing

Storage Box

## Maintenance

### Cleaning:

- Wipe the surface with a soft, damp cloth.
- Avoid using harsh chemicals, abrasive cleaners, or polishes that may damage the finish.
- Dry immediately with a clean cloth to prevent water spots or moisture damage.

### Care for Engineered Wood:

- Keep the chest away from direct sunlight and extreme temperature changes to prevent warping or discoloration.

- Avoid placing hot items directly on the surface. Use coasters or protective pads if necessary.
- Periodically check all screws and fasteners to ensure they remain tight. Retighten as needed, but do not overtighten.

## Troubleshooting

---

### Lid does not close smoothly:

- **Check hinges:** Ensure hinges are properly aligned and securely fastened. Adjust if necessary.
- **Obstructions:** Verify there are no items inside the chest preventing the lid from closing completely.

### Chest feels unstable:

- **Tighten fasteners:** Recheck all screws and bolts to ensure they are fully tightened.
- **Level surface:** Ensure the chest is placed on a flat, level surface. Adjust placement if needed.

### Missing or damaged parts:

- Refer to the contact information in the Warranty & Support section to request replacement parts.

## Specifications

---
