

Teeran B0F8QQ1WFS

Teeran 2 in 1 Wireless CarPlay and Android Auto Adapter User Manual

Model: B0F8QQ1WFS

1. INTRODUCTION

The Teeran 2 in 1 Wireless CarPlay and Android Auto Adapter is designed to convert your vehicle's existing wired CarPlay or Android Auto system into a seamless wireless experience. This adapter supports both iPhone and Android devices, allowing for effortless switching between platforms without the need for cables.

Key Features:

- Converts wired CarPlay/Android Auto to wireless.
- Compatible with over 1,000 vehicle models.
- Fast and easy setup with automatic reconnection.
- Maintains full OEM-level functionality (touchscreen, steering wheel controls, voice commands).
- Ultra-compact and flush-fit design.
- Efficient heat dissipation for reliable performance.

2. COMPATIBILITY

This adapter is designed for vehicles equipped with factory-installed wired Apple CarPlay or Android Auto. It supports a wide range of car models and mobile devices:

- **Vehicle Compatibility:** Over 1,000 models with built-in wired CarPlay (800+) and wired Android Auto (500+).
- **iPhone Compatibility:** iPhone 6 or later running iOS 10 or above.
- **Android Phone Compatibility:** Devices running Android 11 or above.

3. SETUP GUIDE

3.1 Package Contents

Before you begin, please ensure all items are present in the package:

- Teeran 2 in 1 Wireless CarPlay and Android Auto Adapter
- USB-A to USB-C Extension Cable
- USB-C to USB-C Extension Cable

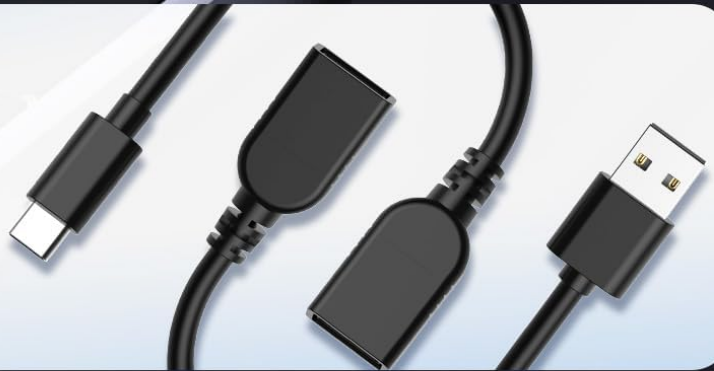

Additional Accessories

Include USB & USB C cables for your convenience.

- **USB port**
1 x Adapter cable

- **USB C port**
1 x Adapter cable

The Teeran adapter shown with its included USB-A and USB-C extension cables, providing flexibility for various car port configurations.

3.2 Installation Steps

1. **Locate USB Port:** Identify the USB port in your vehicle that supports wired CarPlay or Android Auto. This is typically labeled with a smartphone icon or a CarPlay/Android Auto logo.
2. **Connect Adapter:** Plug the Teeran adapter directly into the car's USB port. If the port is in an awkward location, use the provided USB-A or USB-C extension cable to ensure a flush and stable connection.
3. **Wait for Indicator:** Once plugged in, the adapter's indicator light will illuminate, signifying it is powered on and ready for pairing.

4. OPERATION

4.1 Initial Pairing

1. **Activate Bluetooth:** On your smartphone, enable Bluetooth.
2. **Search for Device:** On your phone's Bluetooth settings, search for available devices. Select the Teeran adapter (it may appear as "SmartBox" or a similar name).
3. **Confirm Pairing:** Follow the on-screen prompts on your phone and car's infotainment system to confirm the Bluetooth pairing.

4. **Connect to Wi-Fi:** After Bluetooth pairing, your phone will automatically connect to the adapter's Wi-Fi network for data transfer. This connection is essential for CarPlay/Android Auto functionality.

4.2 Automatic Reconnection

Once successfully paired, the adapter will automatically connect to your smartphone within approximately 3 seconds every time you start your vehicle, provided your phone's Bluetooth and Wi-Fi are enabled.

4.3 Using Wireless CarPlay / Android Auto

The Teeran adapter preserves the full functionality of your original wired system. You can interact with CarPlay or Android Auto using:

- **Touchscreen:** Directly interact with the car's display.
- **Steering Wheel Buttons:** Use existing controls for volume, track skipping, and call management.
- **Rotary Knobs:** Navigate menus and select options.
- **Voice Commands:** Activate Siri or Google Assistant for hands-free control of navigation, music, calls, and messages.

5. MAINTENANCE

5.1 Cleaning

To maintain the adapter's appearance and functionality, gently wipe its exterior with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials.

5.2 Storage

When not in use for extended periods, store the adapter in a cool, dry place away from direct sunlight and extreme temperatures. The adapter is designed to operate between -20°C to 70°C.

Efficient dissipation

The adapter features efficient heat dissipation vents to ensure stable performance even during prolonged use.

6. TROUBLESHOOTING

6.1 Common Issues and Solutions

- **Adapter not connecting to car:**
 - Ensure the adapter is firmly plugged into the correct USB port in your car.
 - Verify your car supports wired CarPlay or Android Auto.
 - Try a different USB port if available.
- **Phone not connecting to adapter:**

- Ensure Bluetooth and Wi-Fi are enabled on your phone.
- Forget the device in your phone's Bluetooth settings and attempt to pair again.
- Restart your phone and the car's infotainment system.

- **Lag or delay in performance:**

- Ensure there are no other devices causing Wi-Fi or Bluetooth interference.
- Check for firmware updates for the adapter (refer to Teeran support).
- Ensure your phone's operating system is up to date.

- **No sound or distorted audio:**

- Check the volume levels on both your car's system and your phone.
- Ensure the car's audio input is set correctly (e.g., to USB or CarPlay/Android Auto).

If you encounter issues not listed here or require further assistance, please contact Teeran customer support.
