4. Setup

4.1 Initial Charging of the Power Bank

Before first use, fully charge your Kuulaa Qi2 Magnetic Power Bank. Connect the included USB-C cable to the power bank's USB-C port and the other end to a compatible USB-C wall adapter (not included). The digital display will show the charging progress, with the rightmost digit blinking until 100% is reached.

USB-C Input for Fast Recharging **18W Max**

4.2 Checking Battery Level

Press the power button briefly to activate the digital display, which shows the remaining battery percentage. The display will turn off automatically after a few seconds to conserve power.

5. Operating Instructions

5.1 Wireless Charging (MagSafe)

This power bank is Qi2 certified and provides up to 15W wireless charging. For optimal magnetic attachment and charging efficiency, ensure your device is compatible with MagSafe technology (iPhone 12 series and newer) or uses a MagSafe-compatible case.

1. Align the power bank with the back of your compatible iPhone. The strong 12N magnetic force will securely attach the power bank.
2. Charging will begin automatically. The power bank's display may show charging indicators.

6. Maintenance

6.1 Cleaning

Wipe the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.

6.2 Storage

Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures. For long-term storage, it is recommended to charge the power bank to approximately 50-75% every three months to maintain battery health.

7. Troubleshooting

- **Power bank not charging:** Ensure the USB-C cable is securely connected to both the power bank and the wall adapter. Verify the wall adapter is functioning correctly.
- **Device not charging wirelessly:** Ensure your device is MagSafe compatible or using a MagSafe-compatible case. Check for any obstructions between the power bank and your device.
- **Device not charging via USB-C:** Ensure the USB-C cable is properly connected to both the power bank and your device. Try a different USB-C cable if available.
- **Slow charging:** Ensure you are using a compatible fast-charging wall adapter for recharging the power bank. For device charging, ensure your device supports the charging speeds provided by the power bank.
- **Inaccurate battery percentage display:** If the battery percentage drops suddenly, fully charge the power bank to 100% and then discharge it completely. Repeat this cycle once or twice to recalibrate the battery meter.
- **Power bank gets warm during use:** It is normal for the power bank to generate some heat during charging or discharging. If it becomes excessively hot, discontinue use and contact support.
