Vente-unique TERAkla

Vente-unique TERAkla Synthetic Plant Wall Art Instruction Manual

Model: TERAkla

1. INTRODUCTION

The Vente-unique TERAkla Synthetic Plant Wall Art is designed to bring a touch of nature to your indoor or outdoor spaces without the need for maintenance. This artificial plant panel features a natural frame and lush green foliage, offering a durable and aesthetically pleasing decorative solution. Its UV-resistant properties ensure long-lasting color and vibrancy, making it suitable for various environments.

2. PRODUCT OVERVIEW

The TERAkla plant wall art is crafted from high-quality polyethylene, providing a realistic appearance and robust durability. It is designed to be rot-proof and weather-resistant, making it ideal for both interior and exterior applications. The integrated UV treatment protects the foliage from sun damage, preserving its vibrant green color over time.

Figure 1: Detailed view of the TERA KLA Synthetic Plant Wall Art, highlighting the diverse artificial foliage and natural-looking frame.

This decorative panel measures 106 cm in height and 55 cm in length, with a depth of approximately 5 cm (10 cm including the leaves). Its portrait orientation makes it versatile for various wall spaces.

3. SPECIFICATIONS

Brand	Vente-unique
Model	TERAKLA
Material	Polyethylene, Plastic

Color	Green (Foliage), Natural (Frame)
Dimensions (L x H x D)	55 cm x 106 cm x 5 cm (approx. 10 cm with leaves)
Weight	6.9 Kilograms
Orientation	Portrait
Theme	Nature
Frame Type	Framed
Mounting Type	Wall Mount
Usage	Indoor, Outdoor
Treatment	Anti-UV, Rot-proof, Weather-resistant

4. SETUP AND INSTALLATION

The TERAkla Synthetic Plant Wall Art is designed for wall mounting. The installation method can involve gluing or nailing, depending on your wall type and preference. Always ensure the mounting surface is clean, dry, and capable of supporting the weight of the panel (approximately 6.9 kg).

- Choose Location:** Select a suitable wall location, considering both aesthetic appeal and structural integrity.
- Prepare Wall:** Clean the wall surface thoroughly. For nailing, use appropriate wall plugs and screws for your wall material (e.g., plasterboard, concrete). For gluing, ensure the adhesive is suitable for both your wall material and the product's frame.
- Mark Position:** Carefully measure and mark the desired position for the panel on the wall. Use a level to ensure it is straight.
- Secure Panel:** If nailing, drill pilot holes if necessary and securely fasten the panel to the wall using appropriate hardware. If gluing, apply adhesive evenly to the back of the frame and press firmly onto the marked wall area. Hold in place until the adhesive sets according to the manufacturer's instructions.
- Final Check:** Ensure the panel is securely attached and stable before leaving it unattended.

Figure 2: Example of TERA KLA panels installed in a living room, demonstrating potential placement.

5. CARE AND MAINTENANCE

The Vente-unique TERA KLA Synthetic Plant Wall Art is designed for minimal maintenance. Its polyethylene construction and UV treatment ensure durability and color retention without the need for watering, pruning, or special care.

- **Cleaning:** To remove dust or light dirt, gently wipe the foliage and frame with a soft, dry cloth. For more stubborn dirt, a damp cloth with mild soap and water can be used. Avoid harsh chemicals or abrasive cleaners, as these may damage the material or finish.
- **Outdoor Use:** While designed to be weather-resistant and UV-treated, prolonged exposure to extreme weather conditions (e.g., heavy storms, freezing temperatures) may eventually affect its appearance. Periodically inspect the panel for any signs of wear.
- **Inspection:** Regularly check the mounting hardware to ensure the panel remains securely attached to the wall.

6. TROUBLESHOOTING

This section addresses common concerns you might encounter with your synthetic plant wall art.

- **Panel appears dusty:** Refer to the cleaning instructions in Section 5. Regular light dusting will prevent buildup.
- **Panel is not straight:** During installation, ensure a level is used. If already installed, carefully adjust the mounting points if possible, or remount if necessary.
- **Foliage appears flattened:** Due to packaging or handling, some leaves might be compressed. Gently fluff and reshape the artificial foliage by hand to restore its natural appearance.

- **Panel feels loose on the wall:** Immediately re-secure the panel. Check the mounting hardware and wall integrity. If using adhesive, ensure it has fully cured and provides adequate hold.

7. WARRANTY AND SUPPORT

For specific warranty information, please refer to the documentation provided at the time of purchase or contact Vente-unique customer service directly. If you require further assistance with your TERAkla Synthetic Plant Wall Art, please reach out to the manufacturer or your retailer for support.

Contact Information: Please refer to the Vente-unique official website or your purchase receipt for customer service contact details.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page's manual context to help answer it.
