

HBDIHTIVE

Generic DVB-S2 DVB-T/T2 DVB-C Combo Digital Satellite Meter Finder H.265 User Manual

Model: HBDIHTIVE

1. INTRODUCTION

This manual provides detailed instructions for the operation and maintenance of your Generic DVB-S2 DVB-T/T2 DVB-C Combo Digital Satellite Meter Finder. This device is designed to assist in the installation and alignment of satellite, terrestrial, and cable television antennas, ensuring optimal signal reception. Please read this manual thoroughly before using the device to ensure proper functionality and to prevent damage.

2. PRODUCT OVERVIEW

2.1. Package Contents

The standard package includes the following items:

- Digital Satellite Meter Finder Unit
- User's Manual
- AV Cable
- Car Charger Cable
- Power Adaptor
- Strap for Carrying Case
- DC 12V Connect Line

2.2. Device Layout

Familiarize yourself with the main components and controls of the device:

Figure 1: Front view of the Satlink ST-5150 Digital Satellite Meter, showing the screen, navigation buttons, and numeric keypad. The screen displays icons for DVB-S2, DVB-T2, DVB-C, Loop Search, Angle Calc, Others, Multimedia, and System Settings. Below the screen are control buttons including MENU, SCAN, INFO, F1, AUDIO, TV/R, EXIT, MUTE, AVS, SAT, SYS, and a directional pad with an OK button. A numeric keypad (0-9) is located on the right side.

Figure 2: Front view of the Satlink ST-5150 Digital Satellite Meter, showing the screen, navigation buttons, and numeric keypad, with power and lock indicators. The screen displays similar icons as Figure 1. Below the screen, indicator lights for Power, 22K, H/V, Lock, and Charge are visible. The control buttons and numeric keypad are identical to Figure 1.

3. SETUP

3.1. Charging the Device

Before initial use, fully charge the device using the provided Power Adaptor. Connect the adaptor to the DC 12V input port on the meter and plug it into a standard electrical outlet. The 'Charge' indicator light will illuminate during charging and turn off when fully charged.

3.2. Initial Power On

Press and hold the **POWER** button to turn on the device. The main menu will appear on the screen.

3.3. Connecting to an Antenna/LNB

Connect your satellite LNB, terrestrial antenna, or cable signal source to the appropriate input port on the device. Refer to

the port labels on the meter for correct connection.

4. OPERATING INSTRUCTIONS

4.1. Main Menu Navigation

Use the directional buttons (**UP**, **DOWN**, **LEFT**, **RIGHT**) to navigate through the menu icons. Press **OK** to select an option. Press **EXIT** to return to the previous menu or the main screen.

4.2. Satellite (DVB-S2) Signal Finding

1. From the main menu, select the **DVB-S2** icon.
2. Choose the desired satellite from the list or add a new one.
3. Select a transponder frequency.
4. Adjust the satellite dish direction while observing the signal strength and quality indicators on the screen. Maximize these values for optimal reception.
5. Once a strong signal is acquired, press **OK** to save or proceed to channel scanning.

4.3. Terrestrial (DVB-T/T2) Signal Finding

1. From the main menu, select the **DVB-T2** icon.
2. Select your region or manually enter channel parameters.
3. Adjust the terrestrial antenna direction while monitoring signal strength and quality.
4. Perform a channel scan once the signal is stable.

4.4. Cable (DVB-C) Signal Finding

1. From the main menu, select the **DVB-C** icon.
2. Enter the necessary cable network parameters (e.g., frequency, symbol rate, modulation).
3. The meter will display signal strength and quality.
4. Proceed with channel scanning if desired.

4.5. System Settings

Access the **System Settings** menu to configure language, time, display brightness, factory reset, and software updates.

5. MAINTENANCE

5.1. Cleaning

Wipe the device with a soft, dry cloth. Do not use liquid cleaners or abrasive materials, as they may damage the screen or casing.

5.2. Battery Care

To prolong battery life, avoid fully discharging the device frequently. If storing for an extended period, charge the battery to approximately 50% and store in a cool, dry place.

5.3. Storage

Store the device in its carrying case in a dry environment, away from direct sunlight and extreme temperatures.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Device does not power on	Low battery; Power button not pressed correctly	Charge the device; Press and hold the POWER button firmly
No signal detected	Incorrect antenna/LNB connection; Wrong satellite/transponder settings; Antenna not aligned	Check all cable connections; Verify satellite/transponder settings; Adjust antenna/dish alignment slowly
Poor signal quality	Minor misalignment; Obstruction; Cable issue	Fine-tune antenna/dish alignment; Check for line-of-sight obstructions; Inspect cables for damage
Screen is blank or frozen	Software glitch; Low battery	Perform a soft reset (power off/on); Charge the device; If persistent, contact support

7. SPECIFICATIONS

Item Model Number: HBDIHTIVE
Package Dimensions: 0.39 x 0.39 x 0.39 inches
Item Weight: 1.1 Pounds
ASIN: B0F8TYFFZK
Manufacturer: keguo11
First Available Date: May 18, 2023

8. WARRANTY AND SUPPORT

Specific warranty information for this product is not provided in this manual. For details regarding warranty coverage, technical support, or service, please contact the manufacturer or your point of purchase. Keep your purchase receipt as proof of purchase.

ASK A QUESTION ABOUT THIS MANUAL

Ask about setup, troubleshooting, compatibility, parts, safety, or missing instructions. Manuals+ will review the question and use this page’s manual context to help answer it.
