Maintenance

General Care

- Wipe surfaces with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners.
- Periodically check all screws and fasteners to ensure they are tight. Retighten as necessary.
- Ensure the anti-tip hardware remains securely fastened to the wall.

Hinge Adjustment

If the cabinet doors are not aligned correctly, you can adjust the hinges for a perfect fit.

Video: Instructions on how to adjust cabinet hinges to correct door alignment (front/back, left/right, up/down).

- **Front and Back Adjustment:** Use a screwdriver to adjust the screw on the hinge arm to move the door closer to or further from the cabinet frame.
- **Left and Right Adjustment:** Turn the front screw on the hinge to adjust the door horizontally, correcting any gaps or overlaps between doors.
- **Up and Down Adjustment:** Adjust the screws at the top and bottom of the hinge plate to raise or lower the door vertically.

Troubleshooting

This section addresses common issues you might encounter with your wardrobe.

- **Wobbly Wardrobe:** Ensure all cam locks and screws are fully tightened. Verify the anti-tip hardware is securely installed and engaged with the wall.
- **Doors Not Closing Properly/Misaligned:** Refer to the "Hinge Adjustment" section above for detailed instructions on how to adjust the door hinges.
- **Drawers Sticking:** Check that the drawer slides are properly aligned and free of obstructions. Ensure all screws on the slides are tight.
- **Missing Parts:** If you find any parts missing during assembly, please contact ANCTOR customer support with your model number and the specific part numbers needed.
