5. SETUP AND ASSEMBLY

5.1 Adjusting Handles

To adjust the position of the handles, loosen the adjusting knobs A counterclockwise and pull the handles left and right. Tighten the knobs clockwise to fix the position.

5.2 Adjusting Sleeve Tightness

To adjust the sleeve tightness, tighten the adjusting knob B clockwise. Loosen counterclockwise to make the sleeve looser.

5.3 Placing a Phone (Optional)

Pull the top part of the device upwards to reveal the phone stand. Clip your phone securely into the stand.

5.4 Folding Handles for Storage

Twist the adjustment knobs A and pull the handles to the center to fold them for compact storage.

6. OPERATING INSTRUCTIONS

6.1 Power On/Off

Long press the Power Button for 2 seconds to turn the device On or Off. Indicators will light up when the product is in standby.

6.2 Thrusting Modes

- **Fixed-point Thrusting:** Click the corresponding button to switch between 6 different thrusting positions (0-2cm, 2-4cm, 4-6cm, 6-8cm, 8-10cm, 10-12cm).
- **Increase Thrusting Distance:** Click the 'Up Arrow' button to increase the thrusting distance by 1cm (maximum 12cm).
- **Shorten Thrusting Distance:** Click the 'Down Arrow' button to shorten the thrusting distance by 1cm (minimum 1cm).
- **Speed Up:** Click the '+' button to accelerate the thrusting speed (10 total speeds).
- **Slow Down:** Click the '-' button to slow down the thrusting speed (10 total speeds).
- **Burst Mode:** Click the 'Lightning Bolt' button for a burst to top speed for 30 seconds.
- **Pause Thrusting:** Click the 'Pause' button to pause thrusting.

6.3 Airbag Massage

The device features 10 airbag compression settings. Use the dedicated buttons to adjust the intensity of the airbag massage.

6.4 Heating Function

Activate the heating function to warm the internal sleeve to 40°C for enhanced realism. This function also assists in drying the sleeve after cleaning.

6.5 Aroma Diffusion

The integrated scent diffuser can be adjusted for intensity to create a customized environment.

7. CLEANING AND MAINTENANCE

7.1 Cleaning Tips

- Please disinfect the product before and after each use. Clean with warm water and antibacterial soap, wiping with a towel or soft cloth.
- Please clean the product immediately after use to prevent the growth of bacteria from secretions and lubricant residue.
- When cleaning, pull out the transparent TPE from the cup and rinse the TPE with water. Then wipe the cup with a moist towel. The cup is non-waterproof, do not rinse it with water.
- Drying: Suggest to wipe with cotton cloth or high-quality tissue after washing and then naturally air dry, away from direct sunlight. The internal heating function can also assist in drying the sleeve.
- Store dust-free and with no other material.

8. TROUBLESHOOTING

If you experience any issues with your Leten Future Pro, please refer to the following common solutions:

- **Device not turning on:** Ensure the device is fully charged. Connect the USB cable and allow 120 minutes for a full charge.
- **Weak performance:** Ensure the device is fully charged. The intensity of the working mode depends

on the battery level.

- **Charging issues:** Ensure the USB cable is correctly connected. If the indicator light does not flash while charging, try a different USB port or contact customer service.
- **Uncomfortable sensation:** Ensure you are using a water-based lubricant. Stop use if feeling discomfort or allergy.
