SAFETY INFORMATION

WARNING: CHOKING HAZARD - Small Parts. This product contains small parts and is not suitable for children under 3 years of age. The manufacturer recommends this product for ages 14 years and up due to the intricate nature and small size of the micro blocks. Adult supervision is advised for younger users.

PRODUCT COMPONENTS

Your BseSparklion Shark Animal 3D Wall Art Micro Mini Building Blocks Set includes:

- 1644 Micro Building Blocks (various colors and shapes)

ASSEMBLY INSTRUCTIONS

Follow these steps to assemble your 3D Shark Wall Art:

1. **Preparation:** Unpack all components. Organize the micro blocks by color and shape to facilitate easier assembly. A clean, well-lit workspace is essential.
2. **Tool Recommendation:** Due to the extremely small size of the micro blocks, using a pair of fine-tipped tweezers (not included) is strongly recommended for precise placement and to prevent finger strain.
3. **Following the Manual:** The instruction manual guides you through the assembly process layer by layer. Each step highlights the new blocks to be added in color, while previously placed blocks are shown in a lighter shade.
4. **Precision is Key:** Carefully count the studs and positions for each block as indicated in the manual. Even a single misplaced block can affect subsequent layers and the final appearance. If an error is made, gently remove the incorrect blocks using tweezers and re-place them.
5. **Building Layers:** Construct the model by adding blocks layer by layer onto the base plate. Some

sections may require assembling smaller sub-units separately before attaching them to the main structure. Pay close attention to these separate assembly diagrams within the manual.

- 6. Securing Blocks:** Ensure each micro block is firmly pressed into place to create a stable and cohesive structure. The blocks are designed to snap together securely.
- 7. Completion:** Continue following the instructions until all layers are complete and the 3D shark model is fully formed.

CARE & MAINTENANCE

To ensure the longevity and appearance of your micro building block set:

- **Cleaning:** Dust the assembled model gently with a soft, dry cloth or a soft brush. Avoid using harsh chemicals or abrasive materials.
- **Storage:** If disassembling for storage, keep all micro blocks in a secure container to prevent loss. Store in a cool, dry place away from direct sunlight to prevent color fading or material degradation.
- **Handling:** Handle the assembled model with care to avoid accidental detachment of blocks.

TROUBLESHOOTING

Encountering issues during assembly? Here are some common problems and solutions:

- **Difficulty with Small Pieces:** The micro blocks are very small. If you find them hard to handle, ensure you are using tweezers for better grip and precision.
- **Misplaced Blocks:** If a section doesn't look right or subsequent layers don't fit, carefully review the previous steps in the instruction manual. The manual highlights new blocks in color; ensure you are

placing them on the correct studs. It's common to miscount studs or misinterpret the light blue background of already placed blocks.

- **Missing Pieces:** While all sets are quality-tested, if you believe you have a missing piece, please contact BseSparklion customer service with details of the missing part (color, shape, quantity, and step number).
- **Instructions Hard to Read:** The instruction manual uses a light blue background for existing layers, which can sometimes be challenging to distinguish from new pieces. Use good lighting and consider magnifying the image if needed for clarity.
